Form ADV Part 2A – Firm Brochure

Dated: February 27, 2024

This Brochure provides information about the qualifications and business practices of Connected Financial Planning, LLC. If you have any questions about the contents of this Brochure, please contact us at (781) 325-1844. The information in this Brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

Connected Financial Planning, LLC is a registered investment adviser. Registration does not imply a certain level of skill or training.

Additional information about Connected Financial Planning, LLC also is available on the SEC's website at www.adviserinfo.sec.gov, which can be found using the firm's identification number, 323519.

Item 2: Material Changes

We will provide ongoing disclosure information about material changes as necessary and will further provide you with a new Brochure as necessary based on changes or new information, at any time, without charge.

Material Changes Since the Last Update

Since Connected Financial Planning's Brochure dated March 2023, we have made the following material changes:

- We have clarified the description of our service levels and fees for our Financial Planning Services in Items 4 and 5
- Item 4: We no longer offer investment management only or as an add-on service directly for new clients.
- Item 5: We have updated our fees schedule. We now offer flat-fee financial planning with investment support, we also offer an option for clients to work with external partners for continued investment management support. Our hourly fee has increased.
- We have updated our office location. See Cover Sheet.

We have made other changes to ensure that our disclosures are clear and concise. We have made edits as necessary to correct typographical or grammatical errors, to fix formatting or to provide clarification where necessary. We do not consider these changes to be material.

Future Changes

From time to time, we may amend this Disclosure Brochure to reflect changes in our business practices, changes in regulations and routine annual updates as required by securities regulators. Either this complete Disclosure Brochure or a Summary of Material Changes shall be provided to each client annually and if a material change occurs in the business practices of Connected Financial Planning.

Item 4: Advisory Business

Description of Advisory Firm

Connected Financial Planning, LLC is an Investment Adviser principally located in Switzerland. We are a limited liability company founded in September 2022. Connected Financial Planning, LLC became registered in 2022. Arielle Tucker is the principal owner and Chief Compliance Officer (“CCO”).

As used in this brochure, the words “Connected FP”, "we", "our firm", “Advisor” and "us" refer to Connected Financial Planning, LLC and the words "you", "your" and "Client" refer to you as either a client or prospective client of our firm.

Types of Advisory Services

Connected FP is a fee-only firm, meaning the only compensation we receive is from our Clients for our services. From time to time, Connected FP recommends third-party professionals such as attorneys, accountants, tax advisors, insurance agents, or other financial professionals. Clients are never obligated to utilize any third-party professional we recommend. Connected FP is not affiliated with nor does Connected FP receive any compensation from third-party professionals we may recommend.

Financial Planning Services

Financial planning involves an evaluation of a Client's current and future financial state by using currently known variables to predict future cash flows, asset values, and withdrawal plans. The key defining aspect of financial planning is that through the financial planning process, all questions, information, and analysis will be considered as they affect and are affected by the entire financial and life situation of the Client. Clients purchasing this service will receive a written report, providing the Client with a detailed financial plan designed to achieve his or her stated financial goals and objectives.

In general, the financial plan will address some or all of the following areas of concern. The Client and Connected FP will work together to select specific areas to cover. These areas may include, but are not limited to, the following:

- **US Inbound/Outbound International Relocation/Assignment:** We provide review and analysis to help you understand how your current financial situation will change as you prepare to move into or out of the US. We will work closely with you and your advisors in any foreign countries to help you understand the changes in taxation between different jurisdictions and help you to optimize your tax and financial situation.
- **Cash Flow and Debt Management:** We will conduct a review of your income and expenses to determine your current surplus or deficit along with advice on prioritizing how any surplus should be used or how to reduce expenses if they exceed your income. Advice may also be provided on which debts to pay off first based on factors such as the interest rate of the debt and any income tax ramifications. We may also recommend what we believe to be an appropriate cash reserve that should be considered for emergencies and other financial goals, along with a review of accounts (such as money market funds) for such reserves, plus strategies to save desired amounts.
- **College Savings:** Includes projecting the amount that will be needed to achieve college or other post-secondary education funding goals, along with advice on ways for you to save the desired amount. Recommendations as to savings strategies are included, and, if needed, we will review your financial picture as it relates to eligibility for financial aid or the best way to contribute to grandchildren (if appropriate).

- **Employee Benefits Optimization:** We will provide review and analysis as to whether you, as an employee, are taking the maximum advantage possible of your employee benefits. If you are a business owner, we will consider and/or recommend the various benefit programs that can be structured to meet both business and personal retirement goals.
- **Estate Planning:** This usually includes an analysis of your exposure to estate taxes and your current estate plan, which may include whether you have a will, powers of attorney, trusts, and other related documents. Our advice also typically includes ways for you to minimize or avoid future estate taxes by implementing appropriate estate planning strategies such as the use of applicable trusts. We always recommend that you consult with a qualified attorney when you initiate, update, or complete estate planning activities. We may provide you with contact information for attorneys who specialize in estate planning when you wish to hire an attorney for such purposes. From time-to-time, we will participate in meetings or phone calls between you and your attorney with your approval or request. We do not offer legal advice or estate planning services.
- **Financial Goals:** We will help Clients identify financial goals and develop a plan to reach them. We will identify what you plan to accomplish, what resources you will need to make it happen, how much time you will need to reach the goal, and how much you should budget for your goal.
- **Insurance:** Review of existing policies to ensure proper coverage for life, health, disability, long-term care, liability, home, and automobile.
- **Investment Analysis:** This may involve developing an asset allocation strategy to meet Clients' financial goals and risk tolerance, providing information on investment vehicles and strategies, reviewing employee stock options, as well as assisting you in establishing your own investment account at a selected broker/dealer or custodian. The strategies and types of investments we may recommend are further discussed in Item 8 of this brochure.
- **Retirement Planning:** Our retirement planning services typically include projections of your likelihood of achieving your financial goals, typically focusing on financial independence as the primary objective. For situations where projections show less than the desired results, we may make recommendations, including those that may impact the original projections by adjusting certain variables (e.g., working longer, saving more, spending less, taking more risk with investments).

If you are near retirement or already retired, advice may be given on appropriate distribution strategies to minimize the likelihood of running out of money or having to adversely alter spending during your retirement years.

- **Risk Management:** A risk management review includes an analysis of your exposure to major risks that could have a significant adverse impact on your financial picture, such as premature death, disability, property and casualty losses, or the need for long-term care planning. Advice may be provided on ways to minimize such risks and about weighing the costs of purchasing insurance versus the benefits of doing so and, likewise, the potential cost of not purchasing insurance (“self-insuring”).
- **Tax Planning Strategies:** Advice may include ways to minimize current and future income taxes as a part of your overall financial planning picture. For example, we may make recommendations on which type of account(s) or specific investments should be owned based in part on their “tax efficiency,” with the consideration that there is always a possibility of future changes to federal, state or local tax laws and rates that may impact your situation.

- **Business Planning:** We provide consulting services for Clients who currently operate their own business, are considering starting a business, or are planning for an exit from their current business. Under this type of engagement, we work with you to assess your current situation, identify your objectives, and develop a plan aimed at achieving your goals.

Connected FP offers its financial planning services through three (3) different types of options:

1. Ongoing Financial Planning
2. Project-Based Financial Planning
3. Hourly Financial Planning

Ongoing Financial Planning. This service involves working one-on-one with a financial planner (“planner”) over an extended period of time. Through this ongoing arrangement, Clients are expected to collaborate with the planner to develop and assist in the implementation of their financial plan (the “plan”). The planner will monitor the plan, recommend any appropriate changes and ensure the plan is up-to-date as the Client’s situation, goals, and objectives evolve.

Upon engaging the firm for financial planning, Connected FP is responsible for obtaining and analyzing all necessary qualitative and quantitative information from the Client that is essential to understanding the Client’s personal and financial circumstances; helping the Client identify, select, and prioritize certain financial goals while understanding the effect that pursuing one goal may have on other potential goals; assessing the Client’s current course of action and alternative courses of action to identify required changes that provide the best opportunity for the client to meet their financial goals; developing & presenting financial planning recommendations based on the aforementioned actions while including all information that was required to be considered in preparing the recommendations; and ongoing monitoring of the Client’s progress toward the goals and objectives that the recommendations are based around. These components all require in-depth communication with the Client in order for the planner to establish a financial plan and implementation strategy that provides the Client with the most appropriate options in pursuing their established goals and objectives. Clients have the option to self-manage their assets or work with an investment management partner.

Project-Based Financial Planning. We provide project-based financial planning services on a limited scope one-time engagement. Project-Based Financial Planning is available for Clients looking to address specific questions or issues. The Client may choose from one or more of the above topics to cover or other areas as requested and agreed to by Connected FP. For Project-Based Financial Planning, the Client will be ultimately responsible for the implementation of the financial plan.

Hourly Financial Planning. We provide hourly financial planning services. Hourly fees are billed at our standard rate of 400 (USD/EUR/CHF) per hour, and are billed in 30-minute increments. Fees are based on an assessment of the project at the time of the engagement. If the scope of the project changes during the engagement, we reserve the right to modify the fee upon notification to and acceptance by the Client. The Client will be ultimately responsible for the implementation of any recommendations in a limited scope engagement.

Investment Management Add-On: For some clients, our firm has offered investment management services through XY Investment Solutions, LLC (“XYIS”). Account supervision is guided by the stated objectives of the Client (e.g. maximum capital appreciation, growth, income or growth and income), as well as risk tolerance and tax considerations. For these clients, we assist them in selecting an appropriate allocation model, completing the XYIS’s investor profile questionnaire, interacting with the XYIS and conducting

reviews of XYIS to ensure they are still an appropriate manager for our Clients. Our review process and analysis of third party investment advisers ("Outside Managers") is further discussed in Item 8 of this Brochure. Additionally, we will meet with the Client on a periodic basis to discuss changes in their personal or financial situation, suitability, and any new or revised restrictions to be applied to the account. For all future clients, we may refer them to another unaffiliated 3rd party investment management company.

Going forward, clients will have the option to obtain investment management through a third party investment adviser ("Outside Manager"), in which our organization has partnered. Clients are not required to utilize any recommended third parties. Clients ultimately engage all third parties independently. We have the ability to share client information with select third parties to provide a seamless financial planning experience.

Investment Management Only

For some clients, our firm has offered investment management services through XYIS. As a stand-alone investment management service, our firm provides continuous advice to a Client regarding the investment of Client funds based on the individual needs of the Client. Through personal discussions in which goals and objectives based on a Client's particular circumstances are established, we develop a Client's personal investment plan with an asset allocation target and create and manage a portfolio based on those allocation targets. We will also review and discuss a Client's prior investment history, as well as family composition and background. Account supervision is guided by the stated objectives of the Client (e.g., maximum capital appreciation, growth, income, or growth, and income), as well as risk tolerance and tax considerations.

We utilize the services of XY Investment Solutions, LLC, CRD No. 285967 ("XYIS"), an unaffiliated SEC-registered investment adviser, to assist in the management of Client portfolios. XYIS constructs and manages investment models ("Model Portfolios") through a technology solution. XYIS supports investment advisers with investment strategies based on research, experience, and sound rationale. XYIS manages its Model Portfolios on a discretionary basis primarily by allocating Client assets among various mutual funds and exchange-traded funds ("ETFs"). XYIS may also allocate Client assets in individual debt and equity securities. XYIS' services are based on long-term investment strategies incorporating the principles of Modern Portfolio Theory. While XYIS will buy and sell securities for the Model Portfolios, Connected FP is responsible for choosing the specific model and allocation on behalf of Clients.

Client Tailored Services and Client Imposed Restrictions

We tailor the delivery of our services to meet the individual needs of our Clients. We consult with Clients initially and on an ongoing basis, through the duration of their engagement with us, to determine risk tolerance, time horizon and other factors that may impact the Clients' investment and/or planning needs.

Clients are able to specify, within reason, any restrictions they would like to place as it pertains to individual securities and/or sectors that will be traded in their account. All such requests must be provided to Connected FP in writing. Connected FP will notify Clients if they are unable to accommodate any requests.

Educational Speaking Engagements & Workshops

We may provide seminars on an "as announced" basis for groups seeking general advice on investments and other areas of personal finance. The content of these seminars will vary depending upon the needs of the attendees. These seminars and workshops are purely for education in nature and do not involve the sale of any investment products. Information presented will not be based on any individual person's need, nor does Connected Financial Planning provide individualized investment advice to attendees during these seminars.

Retirement Account Advice

When Connected Financial Planning provides investment advice to Clients regarding Client's retirement plan account or individual retirement account, we are fiduciaries within the meaning of Title I of the Employee Retirement Income Security Act and/or the Internal Revenue Code, as applicable, which are laws governing retirement accounts. We operate under a special rule that requires us to act in your best interest and not put our interest ahead of yours.

Under this special rule's provisions, we must:

- Meet a professional standard of care when making investment recommendations (give prudent advice);
- Never put our financial interests ahead of yours when making recommendations (give loyal advice);
- Avoid misleading statements about conflicts of interest, fees, and investments;
- Follow policies and procedures designed to ensure that we give advice that is in your best interest;
- Charge no more than is reasonable for our services; and
- Give you basic information about conflicts of interest.

Wrap Fee Programs

We do not participate in wrap fee programs.

Assets Under Management

As of December 31, 2023, Connected FP has \$3,950,000 in discretionary and \$0 in non-discretionary assets under management.

Item 5: Fees and Compensation

Please note, unless a Client has received this brochure at least 48 hours prior to signing an Advisory Contract, the Advisory Contract may be terminated by the Client within five (5) business days of signing the Advisory Contract without penalty.

How we are paid depends on the type of advisory services we perform. Below is a brief description of our fees, however, you should review your executed Advisory Contract for more detailed information regarding the exact fees you will be paying. No increase to the agreed-upon advisory fees outlined in the Advisory Contract shall occur without prior written Client consent. Connected FP will not bill an amount above \$500 more than 6 months or more in advance of rendering the services.

Project-Based Financial Planning

Connected FP charges an hourly or fixed fee for Project-Based Financial Planning.

Our hourly rate is \$400, billed in 30-minute increments. Fees are negotiable and the final agreed upon fee will be outlined in your Advisory Contract. A portion of the estimated hourly fees are due at the beginning of the process, and the remainder is due at the completion of work. Our hourly engagements have a minimum fee of 2,500 (USD/CHF/EUR)

For fixed fees, we charge a fee starting from \$2,500, up to \$50,000, depending on the complexity of the requested project. A portion of the fee is due at the beginning of the project, and the remainder is due at the completion of work.

Ongoing Flat-Fee Financial Planning

For financial planning services with tailored investment advice (which you are responsible for actioning) our fee starts at 10,000 (USD/EUR/CHF) and is billed in the currency based on your residency. The fee is based on the complexity of the client's situation. The fee is paid quarterly in arrears. We charge a one-time onboarding fee from 2,500 (USD/CHF/EUR) for individuals and 3,500 (USD/CHF/EUR) for families. Fees for this service will be automatically increased by 3% each year on the anniversary date of the commencement of the engagement.

Ongoing Financial Planning with Partnered Investment Management

For clients looking for financial planning and integrated investment management we have partnered with several investment management firms to offer a seamless service offering. Our fees are based on complexity and start at \$5,000 per year, family planning is available from \$6,000 per year. We charge a one-time onboarding fee from 2,500 (USD/CHF/EUR) for individuals and 3,500 (USD/CHF/EUR) for families. Investment management is billed separately through our Investment Management partners. Clients billed through US investment accounts are billed in USD. Fees for this service will be automatically increased by 3% each year on the anniversary date of the commencement of the engagement.

Advanced Planning and Tax Concierge Service

This solution is for busy professionals who want integrated US and local tax support. Fees are from 15,000 per year (USD/CHF/EUR) are based on the complexity of the situation and the number of country filing obligations. We charge a one-time onboarding fee from 2,500 (USD/CHF/EUR) for individuals and 3,500 (USD/CHF/EUR) for families. Investment management is also available at this service level and is billed separately through our Investment Management partners. Fees for this service will be automatically increased by 3% each year on the anniversary date of the commencement of the engagement.

Ongoing Financial Planning

We charge a recurring fixed fee for Ongoing Financial Planning. Fees are paid quarterly in arrears, ranging from 1,250 to 12,500 (USD/CHF/EUR). The fee range is dependent upon variables including the specific needs of the Client, complexity, estimated time, research, and resources required to provide services to you, among other factors we deem relevant. Fees are negotiable and the final agreed upon fee will be outlined in your Advisory Contract. Fees for this service will be automatically increased by 3% each year on the anniversary date of the commencement of the engagement.

Connected Financial Planning collects an onboarding fee, between 2,500 to 10,000 (USD/CHF/EUR). The initial fee covers the initial construction of the comprehensive financial plan. This work will commence immediately after the fee is paid, and the length of time required to complete and deliver the plan is dependent on several factors including the needs of the Client, the Client's ability to provide any necessary information and documentation, as well as the complexity of their financial situation. Advisor may reduce or waive the initial fee at the Advisor's discretion. At no time do we require prepayment of \$500 or more six months or more in advance of rendering the

services. The initial onboarding fee and any fee paid through bank transfer is collected in the currency of the country the client resides in, or in USD if the country does not utilize EUR or CHF.

Clients billed through a US investment account pay in USD. The annual advisory fee is paid quarterly in arrears based on the engagement. Clients engaged with a third party investment manager will separately pay investment management fees based on the investment managers contract and fee schedule.

Swiss VAT: Switzerland also levies VAT for residents of Switzerland, which is not included as part of the advisory fee we receive; however we collect VAT and remit it to Switzerland. VAT rates change periodically based on government action. The prevailing rate at the time of billing will be used to collect this fee. The current rate can be found at the Switzerland Federal Tax Administration (FTA) [website](#).

Investment Management Add-On: For clients previously engaged in Ongoing Financial Planning who opted to also utilize us for investment management services via XYIS, we charge an additional fee based on a percentage of assets under management. The annualized fees for investment management services are based on the following fee schedule:

Assets Under Management ("AUM")	Annual Advisory Fee
\$0 - \$250,000	Included
\$250,001 - \$2,000,000	0.70%
Above \$2,000,000	0.60%

The annual advisory fee is paid quarterly in arrears based on the value of Client’s account(s) as of the last day of the billing period. The fee schedule is inclusive of XYIS’s fee. XYIS’s advisory fees, billing schedule, and payment procedures are set forth in their separate written disclosure documents, advisory agreements, and/or the account opening documents of your account Custodian. The advisory fee is a blended tier.

Example: For instance, if a Client had an AUM balance of \$1,100,000, they would be billed according to the following formula for the quarter:

$$\begin{aligned} \text{First } \$250,000 &= \text{Included in current quarterly fee for Ongoing Financial Planning} \\ \text{Remaining } \$850,000 &= (\$850,000 \times 0.70\%) \div 4 = \$1487.50 \end{aligned}$$

In determining the advisory fee, we may allow accounts of members of the same household to be aggregated. Connected FP relies on the valuation as provided by Client’s custodian in determining assets under management. Our advisory fee is prorated for any partial billing periods occurring during the engagement, including the initial and terminating billing periods. Fees are negotiable and the final agreed upon fee will be outlined in your Advisory Contract.

For New Clients from 2024 who select the Investment Management Add-On: We have entered into agreements with other Registered Investment Advisers to provide client referrals as Connected Financial Planning does not provide investment management services directly to its clients. Connected Financial Planning will collect a portion of this fee for our relationship management work, including document collection and management, investment management risk analysis, creation of an Investment Policy Statement, and ongoing review of managed accounts. The fee ranges on the type of relationship management services required for the client relationship, but will range from 0.20% to 0.50%.

Investment Management Only

For clients previously engaged in limited Financial Planning who opted to utilize us for investment management services via XYIS, The fee is based on a percentage of assets under management. The annualized fees for investment management services are based on the following fee schedule:

Assets Under Management ("AUM")	Annual Advisory Fee
\$0 - \$2,000,000	1.00%
Above \$2,000,000	0.80%

The annual advisory fee is paid quarterly in arrears based on the value of Client's account(s) as of the last day of the billing period. The fee schedule is inclusive of XYIS's fee. XYIS's advisory fees, billing schedule, and payment procedures are set forth in their separate written disclosure documents, advisory agreements, and/or the account opening documents of your account Custodian. The advisory fee is a blended tier.

Example: For instance, if a Client had an AUM balance of \$3,000,000, they would be billed according to the following formula for the quarter:

$$\begin{aligned} \text{First } \$2,000,000 &= (\$2,000,000 \times 1.00\%) \div 4 = \$5,000 \\ \text{Remaining } \$1,000,000 &= (\$1,000,000 \times 0.80\%) \div 4 = \$2,000 \\ \text{Total Quarterly Fee: } & \$7,000 \end{aligned}$$

In determining the advisory fee, we may allow accounts of members of the same household to be aggregated. Connected FP relies on the valuation as provided by Client's custodian in determining assets under management. Our advisory fee is prorated for any partial billing periods occurring during the engagement, including the initial and terminating billing periods. Fees are negotiable and the final agreed upon fee will be outlined in your Advisory Contract.

Educational Speaking Engagements

Arielle Tucker is a public speaker. Keynote presentations are offered to organizations and the public on a variety of financial topics. Fees for speaking engagements range from free to \$20,000 per speaking engagement or free to \$1,000 per participant. Depending on sponsor, date, location, and program requested, travel expenses may also be included. Half of the fees are due prior to the engagement or speech, and the other half is to be paid the day of, not later than the conclusion of the seminar. In certain cases, 100% of the fee will be due no later than 14 days after the event. The fee range is based on the content, amount of research conducted, the number of hours of preparation needed, and the number of attendees. The content is based on topics that are currently relevant in the financial planning environment.

In the event of inclement weather or flight cancellation, the Speaker shall make all reasonable attempts to make alternative travel arrangements to arrive in time for the presentation. If travel proves impossible, or the event is otherwise canceled, the Speaker's fee is waived, but the Client will still be responsible for reimbursement of any non-refundable travel expenses already incurred.

In the event that the Client decided to cancel or change the date of the event for any reason besides weather or similar unforeseen causes, the Client will still be responsible for reimbursement of any non-refundable travel expenses already incurred, and will provide 50% of the Speaker's fee if the cancellation occurs within 90 days of the event. If the Client decided to cancel more than 90 days in advance, 25% of the Speaker's fee is due. In the

event that the Speaker must cancel due to health or similar unforeseen circumstances, the Speaker will make all attempts to find a reasonable alternative engagement date and will absorb any incremental additional costs for obtaining alternative travel arrangements. If an alternative date cannot be obtained, the Client will not be responsible for any travel costs already incurred by the Speaker or any portion of the Speaker's fee.

Speaking Engagements may be provided pro-bono at Connected Financial Planning's discretion.

Educational Workshops

Educational Workshops are offered to organizations and the public on a variety of financial topics. Fees for educational workshops range from free to \$20,000 per workshop or free to \$1,000 per participant. Depending on sponsor, date, location, and program requested, travel expenses may also be included. The fees are due at the time of registration and will not be refunded upon cancellation.

In the event that the presenter must cancel the workshop due to health or similar unforeseen circumstances, all attempts will be made to find a reasonable alternative engagement date. If an alternative date cannot be obtained, any prepaid fees will be refunded.

Educational Workshops may be provided pro-bono at Connected Financial Planning's discretion.

Fee Payment

For Investment Management services, we deduct our advisory fee from one or more account(s) held at an unaffiliated third-party custodian, as directed by the Client. Please refer to Item 15 of this Brochure regarding our policy on direct fee deduction. Clients may also pay by electronic funds transfer (EFT). We use an independent third party payment processor in which the Client can securely input their banking information and pay their fee. We do not have access to the Client's banking information at any time. The Client will be provided with their own secure portal in order to make payments. When an Outside Manager is used, the Outside Manager will debit the Client's account for both the Outside Manager's fee, and Connected FP's advisory fee.

For Financial Planning services, fees are paid by electronic funds transfer (EFT). We use an independent third party payment processor in which the Client can securely input their banking information and pay their fee. We do not have access to the Client's banking information at any time. The Client will be provided with their own secure portal in order to make payments.

Other Types of Fees and Expenses

Our fees are exclusive of brokerage commissions, transaction fees, and other related costs and expenses which may be incurred by the Client. Clients may incur certain charges imposed by custodians, brokers, and other third parties such as custodial fees, deferred sales charges, odd-lot differentials, transfer taxes, wire transfer, and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. Mutual fund and exchange-traded funds also charge internal management fees, which are disclosed in a fund's prospectus. Such charges, fees, and commissions are exclusive of and in addition to our fee, and we shall not receive any portion of these commissions, fees, and costs.

Item 12 further describes the factors that we consider in selecting or recommending custodians for Client's transactions and determining the reasonableness of their compensation (e.g., commissions).

Clients may incur fees from third-party professionals such as accountants and attorneys that Connected FP may recommend, upon Client request. Such fees are separate and distinct from Connected FP's advisory fees.

Terminations and Refunds

For Investment Management services, the Advisory Contract may be terminated with written notice at least 15 calendar days in advance. Since fees are paid in arrears, no refund will be needed upon termination of the Advisory Contract. Clients will be responsible for payment of fees based on the number of days service was provided up to the date of termination.

For Ongoing Financial Planning services, the Advisory Contract may be terminated with written notice at least 15 calendar days in advance. In the event of early termination prior to the initial plan being delivered, fees will be prorated and any unearned fees will be refunded to the Client. Upon termination, the fee will be prorated based on the number of days service was provided up to the date of termination and will be due and payable.

The Project-Based Financial Planning offerings are not continuous engagements, thus upon receipt of the final fees, the Advisory Contract will automatically be terminated. Clients may terminate at any time provided written notice. If fees are paid in advance, a prorated refund will be given, if applicable, upon termination of the Advisory Contract for any unearned fee based on the percentage of work completed up to the date of termination. For fees paid in arrears, Client shall be charged a pro-rata fee based upon the percentage of the work done up to the date of termination. Any completed deliverables will be provided to the client and no further fees will be charged.

Sale of Securities or Other Investment Products

Advisor and its supervised persons do not accept compensation for the sale of securities or other investment products including asset-based sales charges or service fees from the sale of mutual funds.

Item 6: Performance-Based Fees and Side-By-Side Management

We do not offer performance-based fees and do not engage in side-by-side management.

Item 7: Types of Clients

We provide financial planning and investment management services to individuals and high net-worth individuals.

We do not have a minimum account size in order to open or maintain an account under our management.

Item 8: Methods of Analysis, Investment Strategies, and Risk of Loss

Below is a brief description of our methods of analysis and primary investment strategies.

Methods of Analysis

Passive Investment Advice involves analyzing individual companies and their industry groups, such as a company's financial statements, details regarding the company's product line, the experience, and expertise of the company's management, and the outlook for the company's industry. The resulting data is used to measure the true value of the company's stock compared to the current market value. The risk of fundamental analysis is that the information obtained may be incorrect and the analysis may not provide an accurate estimate of earnings, which may be the basis for a stock's value. If securities prices adjust rapidly to new information, utilizing fundamental analysis may not result in favorable performance.

Modern Portfolio Theory (MPT)

The underlying principles of MPT are:

- Investors are risk averse. The only acceptable risk is that which is adequately compensated by an expected return. Risk and investment return are related and an increase in risk requires an increased expected return.
- Markets are efficient. The same market information is available to all investors at the same time. The market prices every security fairly based upon this equal availability of information.
- The design of the portfolio as a whole is more important than the selection of any particular security. The appropriate allocation of capital among asset classes will have far more influence on long-term portfolio performance than the selection of individual securities.
- Investing for the long-term (preferably longer than ten years) becomes critical to investment success because it allows the long-term characteristics of the asset classes to surface.
- Increasing diversification of the portfolio with lower correlated asset class positions can decrease portfolio risk. Correlation is the statistical term for the extent to which two asset classes move in tandem or opposition to one another.

Use of Outside Managers: We may refer Clients to Third Party Investment Advisers or advisory programs (“Outside Managers”). Our analysis of Outside Managers involves the examination of the experience, expertise, investment philosophies, and past performance of the Outside Managers in an attempt to determine if that Outside Manager has demonstrated an ability to invest over a period of time and in different economic conditions. We monitor the Outside Manager's underlying holdings, strategies, concentrations, and leverage as part of our overall periodic risk assessment. Additionally, as part of our due diligence process, we survey the Outside Manager's compliance and business enterprise risks. A risk of investing with an Outside Manager who has been successful in the past is that they may not be able to replicate that success in the future. In addition, we do not control the underlying investments in an Outside Manager's portfolio. There is also a risk that an Outside Manager may deviate from the stated investment mandate or strategy of the portfolio, making it a less suitable investment for our Clients. Moreover, as we do not control the Outside Manager's daily business and compliance operations, we may be unaware of the lack of internal controls necessary to prevent business, regulatory or reputational deficiencies.

Investment Strategies

Asset Allocation

In implementing our Clients' investment strategy, we begin by attempting to identify an appropriate ratio of equities, fixed income, and cash (i.e. “asset allocation”) suitable to the Client's investment goals and risk tolerance.

A risk of asset allocation is that the Client may not participate in sharp increases in a particular security, industry or market sector. Another risk is that the ratio of equities, fixed income, and cash will change over time due to stock and market movements and, if not corrected, will no longer be appropriate for the Client's goals. We attempt to closely monitor our asset allocation models and make changes periodically to keep in line with the target risk tolerance model.

Passive Investment Management

Passive investing involves building portfolios that are composed of various distinct asset classes. The asset classes are weighted in a manner to achieve the desired relationship between correlation, risk, and return. Funds that passively capture the returns of the desired asset classes are placed in the portfolio. The funds that are used to build passive portfolios are typically index mutual funds or exchange-traded funds.

Passive investment management is characterized by low portfolio expenses (i.e. the funds inside the portfolio have low internal costs), minimal trading costs (due to infrequent trading activity), and relative tax efficiency (because the funds inside the portfolio are tax efficient and turnover inside the portfolio is minimal).

In contrast, active management involves a single manager or managers who employ some method, strategy or technique to construct a portfolio that is intended to generate returns that are greater than the broader market or a designated benchmark.

Material Risks Involved

All investing strategies we offer involve risk and may result in a loss of your original investment which you should be prepared to bear. Many of these risks apply equally to stocks, bonds, commodities, and any other investment or security. Material risks associated with our investment strategies are listed below.

Market Risk: Market risk involves the possibility that an investment's current market value will fall because of a general market decline, reducing the value of the investment regardless of the operational success of the issuer's operations or its financial condition.

Strategy Risk: The Adviser's investment strategies and/or investment techniques may not work as intended.

Small and Medium Cap Company Risk: Securities of companies with small and medium market capitalizations are often more volatile and less liquid than investments in larger companies. Small and medium cap companies may face a greater risk of business failure, which could increase the volatility of the Client's portfolio.

Turnover Risk: Actively managed mutual funds tend to have a higher turnover rate than passive funds. A high portfolio turnover would result in higher transaction costs and in higher taxes when shares are held in a taxable account. These factors may negatively affect the account's performance.

Limited markets: Certain securities may be less liquid (harder to sell or buy) and their prices may at times be more volatile than at other times. Under certain market conditions, we may be unable to sell or liquidate investments at prices we consider reasonable or favorable or find buyers at any price.

Interest Rate Risk: Bond (fixed income) prices generally fall when interest rates rise, and the value may fall below par value or the principal investment. The opposite is also generally true: bond prices generally rise when interest rates fall. In general, fixed income securities with longer maturities are more sensitive to these price changes. Most other investments are also sensitive to the level and direction of interest rates.

Legal or Legislative Risk: Legislative changes or Court rulings may impact the value of investments, or the securities' claim on the issuer's assets and finances.

Inflation: Inflation may erode the buying power of your investment portfolio, even if the dollar value of your investments remains the same.

Currency Risk: Currency risk arises from the change in price of one currency in relation to another. Individuals who save and invest in one currency while living in another may be subject to additional currency and exchange rate risk.

Risks Associated with Securities

Apart from the general risks outlined above which apply to all types of investments, specific securities may have other risks.

Common stocks may go up and down in price quite dramatically, and in the event of an issuer's bankruptcy or restructuring could lose all value. A slower-growth or recessionary economic environment could have an adverse effect on the price of all stocks.

Corporate Bonds are debt securities to borrow money. Generally, issuers pay investors periodic interest and repay the amount borrowed either periodically during the life of the security and/or at maturity. Alternatively, investors can purchase other debt securities, such as zero coupon bonds, which do not pay current interest, but rather are priced at a discount from their face values and their values accrete over time to face value at maturity. The market prices of debt securities fluctuate depending on factors such as interest rates, credit quality, and maturity. In general, market prices of debt securities decline when interest rates rise and increase when interest rates fall. The longer the time to a bond's maturity, the greater its interest rate risk.

Municipal Bonds are debt obligations generally issued to obtain funds for various public purposes, including the construction of public facilities. Municipal bonds pay a lower rate of return than most other types of bonds. However, because of a municipal bond's tax-favored status, investors should compare the relative after-tax return to the after-tax return of other bonds, depending on the investor's tax bracket. Investing in municipal bonds carries the same general risks as investing in bonds in general. Those risks include interest rate risk, reinvestment risk, inflation risk, market risk, call or redemption risk, credit risk, and liquidity and valuation risk.

Exchange Traded Funds prices may vary significantly from the Net Asset Value due to market conditions. Certain Exchange Traded Funds may not track underlying benchmarks as expected. ETFs are also subject to the following risks: (i) an ETF's shares may trade at a market price that is above (premium) or below (discount) their net asset value and an ETF purchased at a premium may ultimately be sold at a discount; (ii) trading of an ETF's shares may be halted if the listing exchange's officials deem such action appropriate, the shares are delisted from the exchange, or the activation of market-wide "circuit breakers" (which are tied to large decreases in stock prices) halts stock trading generally. The Adviser has no control over the risks taken by the underlying funds in which the Clients invest.

Mutual Funds When a Client invests in open-end mutual funds or ETFs, the Client indirectly bears its proportionate share of any fees and expenses payable directly by those funds. Therefore, the Client will incur higher expenses, many of which may be duplicative. In addition, the Client's overall portfolio may be affected by losses of an underlying fund and the level of risk arising from the investment practices of an underlying fund (such as the use of derivatives).

Item 9: Disciplinary Information

Criminal or Civil Actions

Connected FP and its management persons have not been involved in any criminal or civil action.

Administrative Enforcement Proceedings

Connected FP and its management persons have not been involved in administrative enforcement proceedings.

Self-Regulatory Organization Enforcement Proceedings

Connected FP and its management persons have not been involved in legal or disciplinary events that are material to a Client's or prospective Client's evaluation of Connected FP or the integrity of its management.

Item 10: Other Financial Industry Activities and Affiliations

Broker-Dealer Affiliation

Neither Connected FP or its management persons is registered, or have an application pending to register, as a broker-dealer or a registered representative of a broker-dealer.

Other Affiliations

Neither Connected FP or its management persons is registered, or have an application pending to register, as a futures commission merchant, commodity pool operator, commodity trading advisor, or an associated person of the foregoing entities.

Related Persons and Other Non-Advisory Services

Connected FP provides tax preparation services to advisory clients of the firm. Fees for tax preparation services are separate and in addition to the advisory fees discussed in Item 5 of this Brochure. Such services are performed by supervised persons of Connected FP. Clients are not obligated to utilize the tax preparation services of Connected FP. Neither Connected FP nor supervised persons of our firm have signatory authority over any Clients' accounts either through advisory services the firm offers or through its tax preparation services.

Outside of those listed above, neither Connected FP or its management persons have any relationship or arrangement with any related parties.

Recommendations or Selections of Other Investment Advisers

As referenced in Item 4 of this brochure, Connected FP recommends Clients to Outside Managers to manage their accounts. In the event that we recommend an Outside Manager, we do not share in their advisory fee. Clients pay one single fee (as noted in Item 5), however our fee is separate to the Outside Managers compensation and the Outside Manager will deduct the single fee from client account(s) and remit our advisory fee to us. In addition, you will be provided a copy of the Outside Manager's Form ADV 2A, Firm Brochure, which also describes the Outside Manager's fee. You are not obligated, contractually or otherwise, to use the services of any Outside Manager we recommend. Moreover, Connected FP will only recommend an Outside Manager who is properly licensed or registered as an investment adviser.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

As a fiduciary, our firm has a duty of utmost good faith to act solely in the best interests of each Client. Our Clients entrust us with their funds and personal information, which in turn places a high standard on our conduct and integrity. Our fiduciary duty is a core aspect of our Code of Ethics and represents the expected basis of all of our dealings. The firm also adheres to the Code of Ethics and Professional Responsibility adopted by the CFP® Board of Standards Inc., and accepts the obligation not only to comply with the mandates and requirements of all applicable laws and regulations but also to take responsibility to act in an ethical and professionally responsible manner in all professional services and activities.

Code of Ethics Description

This Code of Ethics does not attempt to identify all possible conflicts of interest, and compliance with each of its specific provisions will not shield our firm or its access persons from liability for misconduct that violates a fiduciary duty to our Clients. A summary of the Code of Ethics' Principles is outlined below.

- Integrity - Access persons shall offer and provide professional services with integrity.
- Objectivity - Access persons shall be objective in providing professional services to Clients.
- Competence - Access persons shall provide services to Clients competently and maintain the necessary knowledge and skill to continue to do so in those areas in which they are engaged.
- Fairness - Access persons shall perform professional services in a manner that is fair and reasonable to Clients, principals, partners, and employers, and shall disclose conflict(s) of interest in providing such services.

- Confidentiality - Access persons shall not disclose confidential Client information without the specific consent of the Client unless in response to proper legal process, or as required by law.
- Professionalism - Access persons conduct in all matters shall reflect the credit of the profession.
- Diligence - Access persons shall act diligently in providing professional services.

We periodically review and amend our Code of Ethics to ensure that it remains current, and we require all firm access persons to attest to their understanding of and adherence to the Code of Ethics at least annually. Our firm will provide a copy of its Code of Ethics to any Client or prospective Client upon request.

Investment Recommendations Involving a Material Financial Interest and Conflicts of Interest

Neither our firm, its access persons, or any related person is authorized to recommend to a Client or effect a transaction for a Client, involving any security in which our firm or a related person has a material financial interest, such as in the capacity as an underwriter, adviser to the issuer, principal transaction, among others.

Advisory Firm Purchase of Same Securities Recommended to Clients and Conflicts of Interest

Our firm, its access persons, and its related persons may buy or sell securities similar to, or different from, those we recommend to Clients. In an effort to reduce or eliminate certain conflicts of interest, our Code of Ethics may require that we restrict or prohibit access persons' transactions in specific reportable securities. Any exceptions or trading pre-clearance must be approved by Connected FP's Chief Compliance Officer in advance of the transaction in an account. Connected FP maintains a copy of access persons' personal securities transactions as required.

Trading Securities At/Around the Same Time as Client's Securities

From time to time our firm, its access persons, or its related persons may buy or sell securities for themselves at or around the same time as they buy or sell securities for Clients' account(s). To address this conflict, it is our policy that neither our firm or access persons shall have priority over Clients' accounts in the purchase or sale of securities.

Item 12: Brokerage Practices

Factors Used to Select Custodians

Connected FP does not have any affiliation with any custodian.

We have an obligation to seek the "best execution" of transactions in Client accounts. The determinative factor in the analysis of best execution is not the lowest possible commission cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of the custodian's services. The factors we consider when evaluating a custodian for best execution include, without limitation, the custodian's:

- Combination of transaction execution services and asset custody services (generally without a separate fee for custody);
- Capability to execute, clear, and settle trades (buy and sell securities for your account);
- Capability to facilitate transfers and payments to and from accounts (wire transfers, check requests, bill payment, etc.);
- Breadth of available investment products (stocks, bonds, mutual funds, exchange-traded funds (ETFs), etc.);
- Availability of investment research and tools that assist us in making investment decisions
- Quality of services;
- Competitiveness of the price of those services (commission rates, margin interest rates, other fees, etc.) and willingness to negotiate the prices;
- Reputation, financial strength, security and stability;
- Prior service to us and our clients.

With this in consideration, our firm recommends that clients maintain their account(s) at Charles Schwab & Co. Inc. (“Schwab”), Interactive Brokers LLC, Fidelity Global Brokerage Group, Inc (“Fidelity”), Morningstar Wealth International Limited, and other independent and unaffiliated SEC registered broker-dealer firms and members of the Financial Industry Regulatory Authority (“FINRA”) and the Securities Investor Protection Corporation (“SIPC”). The Client will ultimately make the final decision of the custodian to be used to hold the Client’s investments by signing the selected custodian’s account opening documentation.

Research and Other Soft-Dollar Benefits

We do not have any soft-dollar arrangements with custodians whereby soft-dollar credits, used to purchase products and services, are earned directly in proportion to the amount of commissions paid by a Client.

Brokerage for Client Referrals

We receive no referrals from a custodian, broker-dealer or third party in exchange for using that custodian, broker-dealer or third party.

Clients Directing Which Broker/Dealer/Custodian to Use

Connected Financial Planning allows clients to direct brokerage; however, Connected Financial Planning may recommend custodians. Connected Financial Planning may be unable to achieve most favorable execution of client transaction if clients choose to direct brokerage. Connected Financial Planning may not be able to aggregate orders to reduce transaction costs resulting in higher brokerage commissions and less favorable prices. Not all investment advisers allow their clients to direct brokerage.

Aggregating (Block) Trading for Multiple Client Accounts

Investment advisers may elect to purchase or sell the same securities for several clients at approximately the same time when they believe such action may prove advantageous to clients. This process is referred to as aggregating orders, batch trading or block trading. We do not engage in block trading. It should be noted that implementing trades on a block or aggregate basis may be less expensive for client accounts; however, it is our trading policy to implement all client orders on an individual basis. Therefore, we do not aggregate or “block” client transactions. Considering the types of investments we hold in advisory client accounts, we do not believe clients are hindered in any way because we trade accounts individually. This is because we develop individualized investment strategies for clients and holdings will vary. Our strategies are primarily developed for the long-term and minor differences in price execution are not material to our overall investment strategy.

Outside Managers used by Connected FP may block Client trades at their discretion. Their specific practices are further discussed in their ADV Part 2A, Item 12.

Item 13: Review of Accounts

Periodic Reviews

Clients who engage us for investment management services will have their account(s) reviewed regularly on a quarterly basis by Arielle Tucker, Lead Planner and CCO. The account(s) are reviewed with regards to the Client’s investment policies and risk tolerance levels.

Triggers of Reviews

Events that may trigger a special review would be unusual performance, addition or deletions of Client-imposed restrictions, excessive draw-down, volatility in performance, or buy and sell decisions from the firm or per Client's needs.

Review Reports

Clients will receive trade confirmations from the custodian(s) for each transaction in their accounts as well as monthly or quarterly statements and annual tax reporting statements from their custodian showing all activity in the accounts, such as receipt of dividends and interest.

Connected FP does not provide written performance or holdings reports to Investment Management Clients outside of what is provided directly by their custodian as part of their account statements.

Item 14: Client Referrals and Other Compensation

Economic Benefits Provided by Third Parties for Advice Rendered to Clients (includes Sales Awards or Other Prizes)

Connected Financial Planning does not receive any economic benefits from third parties for advice rendered to clients.

Compensation to Non-Advisory Personnel for Client Referrals

Connected Financial Planning does not directly or indirectly compensate any person who is not advisory personnel for client referrals.

Item 15: Custody

Connected FP does not hold, directly or indirectly, Client funds or securities, or have any authority to obtain possession of them. All Client assets are held at a qualified custodian.

If Connected FP deducts its advisory fee from Client's account(s), the following safeguards will be applied:

- i. The Client will provide written authorization to Connected FP, permitting us to be paid directly from Client's accounts held by the custodian.
- ii. The custodian will send at least quarterly statements to the Client showing all disbursements from the accounts, including the amount of the advisory fee.

In jurisdictions where required, Connected FP will send an itemized invoice to the Client at the same time it instructs the custodian to debit the advisory fee. Itemization includes the formula used to calculate the fee, the amount of assets under management the fee is based on, and the time period covered by the fee.

We urge you to carefully review custodial statements and compare them to the account invoices or reports that we may provide to you and notify us of any discrepancies. Clients are responsible for verifying the accuracy of these fees as listed on the custodian's brokerage statement as the custodian does not assume this responsibility. Our invoices or reports may vary from custodial statements based on accounting procedures, reporting dates, or valuation methodologies of certain securities.

Item 16: Investment Discretion

For those Client accounts where we provide Investment Management Services, Connected FP has discretionary authority and limited power of attorney to determine the securities and the amount of securities to be bought or sold

for a Client's account without having to obtain prior Client approval for each transaction. Investment discretion is explained to Clients in detail when an advisory relationship has commenced. At the start of the advisory relationship, the Client will execute a Limited Power of Attorney, which will grant our firm discretion over the account(s). Additionally, the discretionary relationship will be outlined in the Advisory Contract and signed by the Client. Clients may limit our discretion by requesting certain restrictions on investments. However, approval of such requests are at the firm's sole discretion.

If you enter into non-discretionary arrangements with our firm, we will obtain your approval prior to the execution of any transactions for your account(s). You have an unrestricted right to decline to implement any advice provided by our firm on a non-discretionary basis.

If Connected FP has engaged an Outside Manager to assist with the management of Client's portfolio, Connected FP has the discretion to direct the Outside Manager to buy or sell securities for Client's portfolio without obtaining prior Client approval for each transaction.

Item 17: Voting Client Securities

We do not vote Client proxies. Therefore, Clients maintain exclusive responsibility for: (1) voting proxies, and (2) acting on corporate actions pertaining to the Client's investment assets. The Client shall instruct the Client's qualified custodian to forward to the Client copies of all proxies and shareholder communications relating to the Client's investment assets. If the Client would like our opinion on a particular proxy vote, they may contact us at the number listed on the cover of this brochure.

In most cases, you will receive proxy materials directly from the account custodian. However, in the event we were to receive any written or electronic proxy materials, we would forward them directly to you by mail, unless you have authorized our firm to contact you by electronic mail, in which case, we would forward you any electronic solicitation to vote proxies.

Item 18: Financial Information

We have no financial commitment that impairs our ability to meet contractual and fiduciary commitments to our Clients, nor have we been the subject of any bankruptcy proceeding. We do not have custody of Client funds or securities, except as disclosed in Item 15 above, or require or solicit prepayment of more than \$500 in fees six months or more in advance.

Item 19: Requirements for State-Registered Advisers

Principal Officers

Arielle Tucker serves as Connected FP's sole principal and CCO. Information about Arielle Tucker's education, business background, and outside business activities can be found on her ADV Part 2B, Brochure Supplement attached to this Brochure.

Outside Business

All outside business information, if applicable, of Connected FP is disclosed in Item 10 of this Brochure.

Performance-Based Fees

Neither Connected FP nor Arielle Tucker is compensated by performance-based fees.

Material Disciplinary Disclosures

No management person at Connected FP has ever been involved in an arbitration claim of any kind or been found liable in a civil, self-regulatory organization, or administrative proceeding.

Material Relationships That Management Persons Have With Issuers of Securities

Connected FP nor Arielle Tucker have any relationship or arrangement with issuers of securities.

- 12/2017 - 01/2020, Intuit, Senior Tax Expert
- 02/2016 - 11/2016, Westleton Drake, Assistant Tax Manager
- 01/2013 - 11/2015, PwC Executive Advisory Switzerland, Senior US Tax Consultant

Professional Designation(s)

CFP® (Certified Financial Planner):

Arielle Tucker is certified for financial planning services in the United States by Certified Financial Planner Board of Standards, Inc. ("CFP Board"). Therefore, Arielle Tucker may refer to herself as a CERTIFIED FINANCIAL PLANNER™ professional or a CFP® professional, and Arielle Tucker may use these and CFP Board's other certification marks (the "CFP Board Certification Marks"). The CFP® certification is voluntary. No federal or state law or regulation requires financial planners to hold the CFP® certification. You may find more information about the CFP® certification at www.cfp.net.

CFP® professionals have met CFP Board's high standards for education, examination, experience, and ethics. To become a CFP® professional, an individual must fulfill the following requirements:

- Education – Earn a bachelor's degree or higher from an accredited college or university and complete CFP Board-approved coursework at a college or university through a CFP Board Registered Program. The coursework covers the financial planning subject areas CFP Board has determined are necessary for the competent and professional delivery of financial planning services, as well as a comprehensive financial plan development capstone course. A candidate may satisfy some of the coursework requirements through other qualifying credentials.
- Examination – Pass the comprehensive CFP® Certification Examination. The examination is designed to assess an individual's ability to integrate and apply a broad base of financial planning knowledge in the context of real-life financial planning situations.
- Experience – Complete 6,000 hours of professional experience related to the personal financial planning process, or 4,000 hours of apprenticeship experience that meets additional requirements.
- Ethics – Satisfy the Fitness Standards for Candidates for CFP® Certification and Former CFP® Professionals Seeking Reinstatement and agree to be bound by CFP Board's Code of Ethics and Standards

of Conduct (“Code and Standards”), which sets forth the ethical and practice standards for CFP® professionals.

Individuals who become certified must complete the following ongoing education and ethics requirements to remain certified and maintain the right to continue to use the CFP Board Certification Marks:

- Ethics – Commit to complying with CFP Board’s Code and Standards. This includes a commitment to CFP Board, as part of the certification, to act as a fiduciary, and therefore, act in the best interests of the client, at all times when providing financial advice and financial planning. CFP Board may sanction a CFP® professional who does not abide by this commitment, but CFP Board does not guarantee a CFP® professional's services. A client who seeks a similar commitment should obtain a written engagement that includes a fiduciary obligation to the client.
- Continuing Education – Complete 30 hours of continuing education every two years to maintain competence, demonstrate specified levels of knowledge, skills, and abilities, and keep up with developments in financial planning. Two of the hours must address the Code and Standards.

Enrolled Agent (EA): An enrolled agent is a person who has earned the privilege of representing taxpayers before the Internal Revenue Service by either passing a three-part comprehensive IRS test covering individual and business tax returns, or through experience as a former IRS employee. Enrolled agent status is the highest credential the IRS awards. Individuals who obtain this elite status must adhere to ethical standards and complete 72 hours of continuing education courses every three years. Enrolled agents, like attorneys and certified public accountants (CPAs), have unlimited practice rights. This means they are unrestricted as to which taxpayers they can represent, what types of tax matters they can handle, and which IRS offices they can represent clients before. Learn more about enrolled agents in Treasury Department Circular 230.

Item 3: Disciplinary Information

Arielle Tucker has never been involved in an arbitration claim of any kind or been found liable in a civil, self-regulatory organization, or administrative proceeding.

Item 4: Other Business Activities

Arielle Tucker writes, produces a podcast, creates video content for a website that encourages its readers to learn more about fundamental cross-border financial topics, with links to credible sources such as IRS.org. It does not provide investment, tax, legal or any personalized financial advice. This activity accounts for approximately 10% of their time.

Arielle Tucker provides tax preparation & consulting work as an Enrolled Agent. This activity accounts for approximately 5% of time during trading hours. This can create a conflict of interest in that advisory clients may be solicited to purchase tax preparation services from Arielle Tucker in which she and/or the firm will receive additional compensation for such services (in addition to Connected FP’s financial planning and/or investment management fees). Clients are not obligated to utilize the tax preparation services of Arielle Tucker or Connected FP.

Item 5: Additional Compensation

Arielle Tucker does not receive any economic benefit from any person, company, or organization, in exchange for providing Clients advisory services through Connected FP.

Item 6: Supervision

Arielle Tucker as Chief Compliance Officer of Connected FP, supervises the advisory activities of our firm. Arielle Tucker is bound by and will adhere to the firm’s policies and procedures and Code of Ethics. Clients may contact Arielle Tucker at the phone number on this brochure supplement.

Item 7: Requirements for State Registered Advisers

Arielle Tucker has NOT been involved in an arbitration, civil proceeding, self-regulatory proceeding, administrative proceeding, or a bankruptcy petition.
