INTRODUCING FIRE FACTORY

Fire Factory is a new brand of fireworks created by Kurt Cowgill and myself (Steven Irvin). Its creation was inspired by our 30 years of combined experience in the industry and our time spent in China. This is our way of bringing our passion and commitment of fireworks to the market. Fire Factory isn't just a new logo or name it's about a new generation of Pyros. This brand is about honoring the past and forging the future. We will stand behind our new brand and products to create a commitment to product quality and customer success.

Sourcing high quality products with a mix of the best effects from the past and today's innovative effects consumers are seeing for the first time is a core principle of Fire Factory. We leveraged our buying power and expertise to bring in a range of products that will be a tremendous value to the importer, wholesaler, retailer, and final consumer. No matter where you fall, the value these items bring will be in excess of what your dealer or distributor charges. We aren't peddling bottle rockets here, these products are the best of the best, dollar for dollar.

Fire Factory is not just a new brand, it is our inspiration for the next 30 years. We look forward to you joining the journey, it's going to be one hell of a ride!
