

2019 IAFP SPRING REFRESHER Agenda

Wednesday, March 27
Indianapolis Marriott Downtown

Location: Indianapolis Marriott Downtown | 350 W Maryland St, Indianapolis, IN 46225

Time: CME from 9:00am to 5:30pm | Legislative Reception from 5:30pm - 7:30pm

Earn up to 7.25 Live Prescribed AAFP CME Credits

8:30am - 9:00am **Registration Open**

9:00am - 12:00pm **Morning CME Session**

Physician Health First

Clif Knight, MD

The subject of burnout is a critical concern to the AAFP because family physicians suffer from significantly higher rates of burnout than physicians in most other specialties. With [AAFP Physician Health First](#), the first-ever comprehensive initiative devoted to improving the well-being and professional satisfaction of family physicians, the AAFP is working at every level to help put physician well-being first, so physicians can stay passionate about their purpose: providing quality patient care.

As part of ongoing efforts to improve family physician well-being, we are pleased to have the AAFP join us in Indianapolis for a Physician Health First presentation. In this presentation, **Clif Knight, MD**, AAFP Senior Vice President for Education and a past president of the IAFP, will explain what the AAFP is doing to battle physician burnout and, in a workshop setting, provide solutions for improved professional satisfaction and better patient care within a broken system.

Learning Objectives:

Upon completion of this activity, the participant should be able to:

- Explain what the AAFP is doing to improve family physician well-being
- Determine strategies to address well-being and burnout issues in each level of the family physician ecosystem

- Develop a personalized plan to improve personal and professional satisfaction using AAFP-provided and other available resources

Speaker Biography:

H. Clifton “Clif” Knight, MD, FAAFP, is senior vice president, education at the AAFP. He oversees all organizational activities related to medical education and continuing medical education. These areas include education and training of medical students and residents; student interest in the specialty of family medicine, including federal policies that affect it; and CME curriculum development, production, and accreditation and regulations.

Knight was a family physician in Indiana for nearly 25 years. He served as chief medical and academic officer for Community Health Network in Indianapolis, where he was responsible for patient safety, medical education, research and medical staff support. Knight was previously in private practice in rural Flora, Indiana. In 2011, he was named to the board of trustees for Marian University in Indianapolis. He served on the Admissions Committee for the Marian University College of Osteopathic Medicine, which admitted its inaugural class in August 2013. Knight served in an appointed position on the Indiana Medical Education Board, which oversees state grant funding for family medicine residency programs in Indiana.

A member of the AAFP since 1984, Knight was elected to the board of directors in 2012, a position he resigned to take on his current role. He has served on numerous commissions and committees. He is a past chair of the Congress of Delegates Reference Committee on Practice Enhancement and the Awards Subcommittee. Knight also served as a delegate or alternate delegate to the AAFP Congress of Delegates for 12 years.

At the state level, Knight has been an active member of the Indiana Academy of Family Physicians since his first year of medical school in 1984. Since that time, he has served in one or more leadership positions each year, including chapter president and board chair. Knight also has chaired the Indiana AAFP’s Commissions on Legislation and Education. In 2004, the Indiana AAFP awarded Knight the A. Alan Fischer Award for his outstanding contributions to family medicine education. He was Indiana AAFP Student of the Year in 1987.

Knight earned his undergraduate degree from Ball State University, Muncie, Ind., and his medical degree from the Indiana University School of Medicine, Indianapolis. He completed his family medicine residency at Community Health Network in Indianapolis, where he also served one year as chief resident. In addition, Knight completed a Faculty Development Fellowship at the University of North Carolina at Chapel Hill School of Medicine. From 1992 to 2007, Knight was a full-time faculty member in the Community Health Network Family Medicine Residency where he most recently served as interim program director.

He is board certified by the American Board of Family Medicine and has the AAFP Degree of Fellow, an earned degree awarded to family physicians for distinguished service and continuing medical education.

12:00pm - 1:00pm Lunch: ABFM Listening Tour (optional, limited to first 30 registrants)

Please join Dr. Elizabeth Baxley, MD, Senior Vice President of the ABFM, for lunch at the Marriott. ABFM leadership is starting a listening tour in 2019, so that they can hear more from you about family medicine certification. This time with the ABFM is intended to be an open discussion, so that they may get your input on ABFM certification requirements, the new FMCLA pilot, and how they can communicate more effectively going forward. Dr. Baxley looks forward to meeting you personally and getting your input!

Alternative: Lunch on your own

1:00pm - 5:30pm Afternoon CME Session

1:00pm - 1:30pm

Project ECHO
(Extension for Community Healthcare Outcomes)

Joan Duwve, MD

Learn about Project ECHO - a movement to connect local primary care teams with inter-disciplinary specialist teams to spread knowledge and amplify local capacity to provide best practice care for complex chronic health conditions. After this presentation, join Dr. Duwve in a separate meeting room to experience a live online ECHO clinic (optional).

1:30pm - 2:30pm

Emerging Concepts in the Recognition and Management of Systemic Lupus Erythematosus (SLE)

Michelle Petri, MD

Content areas:

- Signs and symptoms
- Diagnosis
- Organ-threatening disease
- Non-organ-threatening disease
- Treatment goals
- Adherence and monitoring
- Prognosis
- Research topics
- Clinical trials

Learning Objectives:

Upon completion of this activity, the participant should be able to:

- Apply the ACR diagnostic criteria to recognize patients who may have SLE
- Utilize and interpret laboratory findings to investigate possible SLE
- Develop SLE treatment plans based on individual patients' disease characteristics, treatment goals, and consensus recommendations
- Identify and validated SLE disease activity measure for regular patient monitoring

Speaker Biography:

Michelle Petri, MD, MPH, is a professor of medicine in the Division of Rheumatology and director of the Lupus Center at the Johns Hopkins University School of Medicine and Johns Hopkins Hospital in Baltimore, Maryland. She earned her medical degree from Harvard Medical School in Boston, Massachusetts, and completed her internship and residency in internal medicine at Massachusetts General Hospital. Dr. Petri completed a fellowship in allergy, immunology/rheumatology at the University of California, San Francisco. She subsequently earned her master's degree in public health and epidemiology from Johns Hopkins University Bloomberg School of Public Health.

Dr. Petri's research focuses on several aspects of systemic lupus erythematosus (SLE), including atherosclerosis, antiphospholipid syndrome (APS), lupus nephritis, and pregnancy. The Hopkins Lupus Cohort, initiated by Dr. Petri in 1987, is a longitudinal study of the incidence and pathogenesis of thrombotic events and coronary artery disease in SLE. Its serum and plasma bank is a valuable resource for other SLE-related research. The Hopkins Lupus Pregnancy Center, of which Dr. Petri is a co-director, has a database of over 400 pregnant patients, providing information on lupus activity, antiphospholipid tests, and pregnancy outcomes. As part of the Systemic Lupus International Collaborating Clinics, Hopkins participates in studies of atherosclerosis, malignancy, and neuropsychiatric lupus. Dr. Petri has served as study chair or principal investigator for several of these studies on the SLE patient population.

Dr. Petri has authored more than 400 papers and chapters on SLE and APS. She is on the editorial boards of *Arthritis and Rheumatism*, *The Journal of Rheumatology*, and *Journal of Clinical Rheumatology*. She serves as an ad hoc reviewer for *Annals of Internal Medicine*, *The American Journal of Medicine*, *Medicine*, *Lancet*, *JAMA*, *Southern Medical Journal*, and *Fertility and Sterility*. Dr. Petri served on the Medical Advisory Board of the Lupus Foundation of America, is a member of the American College of Rheumatology, and was chair of the Lupus Now Education Program.

2:30pm - 3:00pm

ABFM Update on Board Certification: What's New, What's True and What's Ahead

Elizabeth Baxley, MD

Elizabeth G. (Libby) Baxley, MD, is the American Board of Family Medicine (ABFM)'s Senior Vice President, a role she assumed in July 2018. As Senior Vice President, Dr. Baxley leads all aspects of ABFM activity that relate to the experience of board certified family physicians with ABFM, including residency, the early clinical years, credentials, and communications.

A graduate of Clemson University, Dr. Baxley received a Doctor of Medicine from the University of South Carolina School of Medicine. She completed a family medicine residency at Anderson Family Practice Residency in South Carolina followed by the Faculty Development Fellowship at the University of North Carolina at Chapel Hill. From 2012 - 2018, she was Senior Associate Dean for Academic Affairs and Professor of Family Medicine at the Brody School of Medicine at East Carolina University. In that role, she led a pioneering curriculum redesign with an emphasis on integration of training in health system science competencies: patient safety, quality improvement, population health, and interprofessional education. Brody was one of only 11 medical schools nationally to be selected by the AMA in their Accelerating Change in Medical Education initiative.

Prior to that she spent 18 years at the University of South Carolina School of Medicine, serving as Family Medicine Residency Director, school-wide Director of Faculty Development, and Chair of the Department of Family and Preventive Medicine. Her work has focused heavily on health care delivery system redesign and teaching about patient safety and quality improvement. A faculty advisor for IHI Open School chapters at both USC and Brody SOM, she is also one of the co-founders of the I³Collaborative, which has led residency practice redesign in primary care teaching practices across South Carolina, North Carolina, and Virginia.

Dr. Baxley has an outstanding track record of leadership in Family Medicine, having taught and provided full-scope family medicine throughout the greater part of her 31-year career. In addition to her roles as a prior board member and board chair of the American Academy of Family Physician's (AAFP) Advanced Life Support in Obstetrics (ALSO®) and the AAFP's Residency Assistance Program Panel of Consultants, she served on the ABFM Board of Directors from 2013-2018. During her tenure on the board, she served on the certification, credentials, examination, and research and development committees, the latter of which she chaired. She became a member of the executive committee in 2016 after her election as Chair Elect and finished her final year on the board of directors as the Board Chair.

Dr. Baxley has been honored with many distinctions including the American Academy of Family Physicians Exemplary Teaching Award and the James Halford Award for Leadership in Humane Education. In 2017 she was recognized by East Carolina University with a Woman of Distinction Award, and in 2016 and 2018 received the American Medical Women's Association Gender Equity Award from medical students at Brody SOM.

3:00 - 3:15pm

Break

3:15pm - 4:30pm

Early Childhood: Developmental Screening and Diagnosis

Mary R. Ciccarelli, MD

Learning Objectives:

Upon completion of this activity, the participant should be able to:

1. Implement and/or improve standardized developmental screening in early childhood to initiate specialized services as early as possible for better future outcomes
2. Facilitate next step evaluations for positive development screening in your practice
3. Promote access to appropriate community resources for families at risk

Speaker Biography:

Mary R. Ciccarelli, MD, is the Director of the 3 Wishes: Early Action for Autism project.

Dr. Ciccarelli is a primary care provider at one of the Eskenazi Health Community Health Centers and a Professor of Clinical Medicine and Clinical Pediatrics at Indiana University School of Medicine. She has a long-standing dossier within medical education including training of medical students, residents, fellows and both community and university physician continuing education. She is the founding director of the statewide transition support program, the Center for Youth and Adults with Conditions of Childhood, where a transdisciplinary team provides consults and care coordination to improve the transition of youth with special health care needs from pediatric to adult systems of care.

4:30pm - 5:30pm

Legislative Update

Advocating on behalf of our members is a huge part of our role as your professional membership association. By the end of March, we will be nearing the final stretch of 2019's long legislative session, so come hear the latest updates from our legislative team and get your questions answered.

5:30pm - 7:30pm 2019 IAFP Legislative Reception - all IAFP members invited

The IAFP's annual Legislative Reception is a unique opportunity to meet your legislators and enjoy drinks and heavy hors d'oeuvres. The IAFP invites all 150 legislators and it is critical that we have physician members from the legislators' districts in attendance. Legislators frequently contact our office to find out if any family physicians from their district will be at the reception. We know that your practices are very busy but we strongly urge you to attend our Legislative Reception, ask questions, raise your concerns, and let legislators know why family medicine is a vital part of Indiana's health care system.

CME SESSION CREDIT INFORMATION:

Application will be made to the American Academy of Family Physicians for 7.25 Live Prescribed CME Credits. Updated credit certificates will be available on site. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

AMA/AAFP Equivalency: AAFP Prescribed credit is accepted by the American Medical Association as equivalent to AMA PRA Category 1 credit(s)[™] toward the AMA Physician's Recognition Award. When applying for the AMA PRA, Prescribed credit earned must be reported as Prescribed, not as Category 1.

ACCREDITATION STATEMENT: The Indiana Academy of Family Physicians is accredited by the Indiana State Medical Association to provide continuing medical education for physicians. This CME/CE activity complies with all requirements of the federal Physician Payment Sunshine Act. If a reportable event is associated with this activity, the accredited provider managing the program will provide the appropriate physician data to the Open Payments database.

DESIGNATION STATEMENT: The Indiana Academy of Family Physicians designates this activity for a maximum of 7.25 AMA PRA Category 1 Credits[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

DISCLAIMER: The material presented is being made available by the Indiana Academy of Family Physicians for educational purposes only. This material is not intended to represent the only nor necessarily the best methods or procedures appropriate for the medical situations discussed, but rather is intended to present an approach, view, statement, or opinion of the faculty, which may be helpful to others who face similar situations. The IAFP disclaims any and all liability for injury or other damages resulting to any individual participating and for all claims, which may arise out of the use of the techniques, demonstrated therein by such individualism, whether these claims shall be asserted by a physician or any other person. Every effort has been made to assure the accuracy of the data presented. Physicians may care to check specific details such as drug doses and contraindications, etc., in standard sources prior to clinical application. This material may contain recommendation/guidelines developed by other organizations. Please note that although these guidelines may be included, this does not necessarily imply the endorsement of IAFP.

CONSENT TO USE OF PHOTOGRAPHIC IMAGES: Registration and attendance at, or participation in, IAFP meetings and other activities constitutes an agreement by the registrant for IAFP use and distribution (both now and in the future) of the registrant or attendee's image or voice in photographs, videotapes, electronic reproductions, and audiotapes of such events and activities.
