# THE ROAD PROGRAMMING

# ZETA ZETA

## **Member Education Plan**

The Director of Member Development, along with the FAAR chairman and other Executive Board officers drafted goals for the ROAD programming for the 2018-19 FAAR year.

### **Goals for ROAD Programming**

- Educate member son the importance of learning how the Ritual can be applied to their life (See Ritual Education Plan for list of programs).
- Director of Member Development plan more frequent educational events/programs for current members (at least once a month).
- Emphasize the development of upperclassmen and educate them for life after graduation.
- Educate members on new skills to recruit new members for Delta Tau Delta.
- Zeta Zeta's Director of Member Development and New Member Educator work directly to better serve the new members and understand the needs of underclassmen as they transition into college (See New Member Education Plan for list of programs).

**51 members**

## **'The Road Programming Review**

By identifying specific goals at the beginning of the new Road Program (November 2018), Zeta Zeta was able to get off to a fresh start on the Road. \Not only were we able to increase the quantity of events, Morehead State Delts increased the quality of events. We did learn how to properly grill a hamburger; however, we also encouraged more critical thinking through leadership, time management, alcohol education, mental health awareness and more. Our chapter was able to garner a lot more knowledge this past year from the Road than ever before.

As evident in post survey results, our chapter was able to establish programs that resonated with our members. The pre-post surveys found that the Road programs held this past year was some of our chapter's favorite memories. We have gained an insight into the chapter's favorite and least favorite programs and even gathered suggestions for what we would like to provide in the coming year.

Overall, we are pleased with the development of our members through the Road programming. We look forward to how we can better our members in the future through these educational events. It has made a positive impact on the chapter.
