To Whom It May Concern:

Pauly Jail Building Company, INC has just completed a \$8,000,000.00 jail project at the Carroll County Detention Center Huntingdon, TN and have performed on several other jail projects with other Project Managers in our office. They perform a high quality of work, and they excel at meeting the owners expectations.

During this project I had the privilege of meeting and working with their field supervisor Anthony Oliver in which I would highly recommend him to perform work on any project of any size.

Yours truly,
Lashlee-Rich, INC
