

# CLUB

This week's theme is football! See the samples below or get creative and build your own! Share your LEGO creations with us as a comment to our LEGO Club video post!

## Play Paper Football on a Lego Stadium

### Here is what you need:

- Basic LEGO bricks
- LEGO base plates
- 8 ½" x 11" Paper
- Tape or Glue (optional)

### Build Your Stadium:

Gather the pieces for the base and put them together by placing support structure underneath.

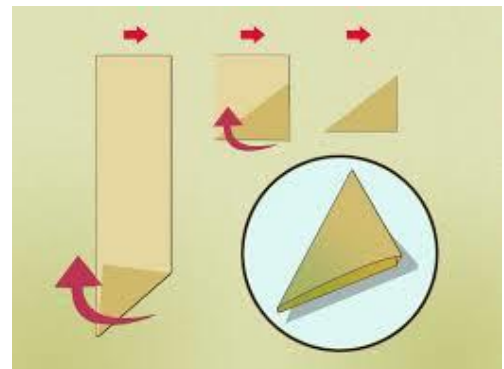

Next, add your yard lines and outside lines.

Finally, build your field goals and add them to your field.

### Play Paper Football:

To make the football cut your sheet of paper lengthwise and cut the fold to make two half sheets. Fold one of the half sheets lengthwise. Fold the bottom right corner upwards to form a triangle. Repeat folding until one fold is left to make a complete triangle. Insert the remaining corner into the folds of the football.

You can keep score or play for fun!
