

**Indiana Academy of Family Physicians
2019 Research Day**

**Abstract Review – Research Forum
Posters**

Please score each factor using Likert scale. The highest is 50 points. Use the total scores to arrive at a preliminary rank ordering of the papers in each category. This ranking should help you and the other judges to determine the best paper in each category. Please include in written comments two (2) suggestions you have as to how the presentation could be improved and two (2) statements on strengths of abstract.
