

SLEEP DIAGNOSTIC CENTER

The skilled and experienced staff of the Sleep Diagnostic Center at DeKalb Health provides a wide range of testing and treatment services, each delivered in a highly personalized and cost-efficient manner. These services are designed to help people suffering from chronic sleep problems, including problems falling asleep, staying asleep at night, staying awake during the day and/or excessive snoring or breathing disturbances.

Questions to ask:

- Do you snore loudly (louder than talking or loud enough to be heard through closed doors)?
- Do you often feel tired, fatigued or sleepy during the day?
- Has anyone observed you stop breathing while you sleep?
- Do you have high blood pressure, diabetes, or heart disease?
- Is your Body Mass Index (BMI) more than 35?
- Is your neck circumference more than 16 inches (for women) and 17 inches (for men)?

Our Sleep Diagnostics Center amenities and service includes:

- Skilled and experienced staff
- Quiet, comfortable, and private bedroom and sleep testing facilities
- Convenient restroom
- Testing availability 5 nights per week
- TV in room for relaxation
- State-of-the-art diagnostic equipment
- Outpatient services for overnight testing

Diagnostic testing the Sleep Center has to offer:

- Polysomnograph
- Pediatric Sleep Studies for 5 years of age or older
- Positive Airway Pressure Titration
- Multiple Sleep Latency Test
- Maintenance Wakefulness Test
- Home Sleep Apnea Test
