

Texting Facts

9-1-1 in an emergency:

Call when you can, text when you can't.

How to Text-to-911

- Find the message or messaging icon or menu choice on your phone. Do not use a text app you downloaded.
 - Select 'create a new text message'
 - Put 911 in the to: field
 - Put your emergency and your location in the message body.
 - Do not attach or send pictures or videos.
 - Keep your message short and do not use abbreviations.
- After you enter your text, press send.
- If text to 911 is not available in your area you will receive a message instructing to yo dial 911.
- Continue your dialog with the 911 center, and follow their instructions.

When to Text-to-911

Make a voice call when you can. Text if you can't make a voice call, or if a voice call would out you in danger. Text-to-911 is not as fast as making a voice call. The 911 center may ask you to make a voice call if you don't know your location.

Other Points to Know

- Your phone must be able to send a text message. You can find out by texting a friend or family member to be certain.
- Text-to-911 allows limited location information so it is important that you provide your location within your text message. It can be delayed.
- If text-to-911 doesn't go through, you will get a 'bounce-back' message telling you to make a voice call to 911.
