

TITLE: DATA RETENTION POLICY	
STATUS: FINAL	EFFECTIVE DATE: May 9, 2014
VERSION: 6	PAGE: 1 OF 3

I. POLICY

It is the policy of ClinicalConnect HIE (CCHIE) to appropriately preserve all data of current or permanent value and retire data not warranting further preservation in accordance with applicable law or regulation, document preservation instructions, ethical considerations, fiscal requirements, and sound business practice.

II. DEFINITIONS

“Participant” is an organization (including physician practice) that has signed a Data Exchange Agreement with the CCHIE.

“Protected Health Information” or “PHI” shall have the same meaning as set forth in HIPAA.

III. SCOPE

This policy applies to CCHIE, Participants, and Contractors.

IV. POLICY

A. The following types of information shall be stored within the ClinicalConnect HIE:

1. Patient demographics
2. Protected Health Information (PHI)
3. Audit logs

B. CCHIE shall retain all demographic PHI sent from Participants for a minimum of ten years. Demographic PHI shall be maintained, inactivated, and “marked as deleted” to prevent inclusion in the Master Patient Index patient matching logic but shall remain within the CCHIE database.

C. CCHIE shall retain all PHI sent from a Participant until new PHI becomes available from that Participant. For example, PHI sent from a Participant at the time of a patient’s discharge will be stored in the database until that same Participant sends new and/or additional PHI for that patient. For clarity, a patient’s problems, allergies, medications and immunizations updated by a Participant shall overwrite the data previously sent from that same Participant. Updated documents and lab information shall overwrite the previously sent data from that same Participant, while new

documents and new lab information shall append to the patient's record (See *Chart Below*).

Data Sent By Participant A on 1/1/2013	CCD Received 2/1/2013 By	Resulting Action
Problems	Participant A	1/1 Problems are overwritten by 2/1 Problems
Allergies	Participant A	1/1 Allergies are overwritten by 2/1 Allergies
Medications	Participant A	1/1 Medications are overwritten by 2/1 Medications
Immunizations	Participant A	1/1 Immunizations are overwritten by 2/1 Immunizations
Labs	Participant A	1/1 Labs are overwritten if CCD contains updated Labs from 1/1; 2/1 Labs append to the 1/1 Labs if the 2/1 Labs are new
Documents	Participant A	1/1 Documents are overwritten if CCD contains updated Documents from 1/1; 2/1 Documents append to the 1/1 Documents if the 2/1 Documents are new
Problems	Participant B	2/1 Problems are appended to 1/1 Problems
Allergies	Participant B	2/1 Allergies are appended to 1/1 Allergies
Medications	Participant B	2/1 Medications are appended to 1/1 Medications
Immunizations	Participant B	2/1 Immunizations are appended to 1/1 Immunizations
Labs	Participant B	2/1 Labs append to the 1/1 Labs
Documents	Participant B	2/1 Documents append to the 1/1 Documents

- D. It is the responsibility of a Participant to document in its record the information from CCHIE that it uses to make clinical decisions.
- E. CCHIE shall retain all audit log data for a minimum of seven years.

I. Revision History
