STRATEGIC PLAN

A strong, vibrant community and a skilled workforce make Johnson County Indiana stand out among Midwestern communities. We believe that these assets can be used as catalysts for further development.

To establish a path forward for the county, Aspire has developed a 5-year strategic plan that identifies opportunities and corresponding goals. By 2025, we are working to achieve two key goals:

- Attract and develop 50% more advanced industries jobs
- Grow average annual wages by 15% for all workers

Our data-driven approach has helped us develop a series of goals that will ensure our economy and communities flourish in the next five years and well into the future. When measured collectively, these goals will have a positive impact on the wider community.

1. Drive innovation to boost business and industry development.
2. Boost site development for catalyst projects.
3. Nurturing community collaboration and engagement.
4. Embrace and pursue opportunities for enhanced livability and quality of place.
5. Magnify and deliver robust education and workforce endeavors.

Aspire Johnson County was formed to create a stronger, more unified engine to drive economic growth and business success. Setting the bar high is in our name.

"Lisa reached out to me to review my account. I met with her and she took me through the Aspire website to ensure my presence was completely optimized. After I met with Lisa, my impressions more than doubled. Moreover, the next month became our largest month for commercial jobs in our 4-year history, and the following month was our second highest month ever. The Aspire website optimizations made could be directly correlated to an increase in our commercial business."

ADVOCACY

We believe that Aspire's engagement in legislative issues echoes our investors' collective voice and demonstrates strong leadership. Below you will find our three **legislative session policy priorities.**

WHY PUBLIC POLICY MATTERS TO BUSINESS

A healthy business environment is essential to growing the economy, creating jobs, and improving our quality of life. Decisions made by elected officials have a direct impact on business. Legislative and executive branches at all levels of government regularly consider legislation regulating infrastructure, permitting, taxes, trade, and construction.

Aspire's role is to advocate for business interest. We do this by convening forums with business leaders and elected officials, as well as lobbying directly for specific bills and issues. Our Business Advocacy Council (BAC) monitors and researches issues and recommends policy positions. Aspire's board of directors reviews and adopts our final policy positions.

2024 LEGISLATIVE PRIORITIES

Affordable, Quality Early Childhood Education

Affordable and quality early childhood education continues to challenge working parents and plague employers as access to affordable quality childcare is an important recruitment tool and assists with the labor participation rate. A child placed in a stable educational environment provides more certainty and stability for their parents in the workforce.

Indiana enacted some solutions to address this issue during the 2023 General Assembly session, including the permanency of the On My Way Pre-K pilot program, increased family subsidy threshold, and new state grants for employers implementing local early childhood education solutions. As the impacts of these terrific legislative programs play out, Aspire will work this non-budget legislative session to support other programmatic and regulatory opportunities to increase available seats.

Diverse and Creative Workforce Development Policies

Workforce Development remains the top driver of business success for employers across our state – it is imperative that we have a talent pipeline to fill jobs as well as retain highly-qualified skilled workers already in the force. Aspire supported several career readiness efforts, such as HEA 1002, during the last legislative session and is actively partnering with our local K12 system to support implementation of the new state programs and requirements. We will work this session to identify opportunities to help smooth the implementation of the enrolled 2023 bills and build on connecting local employers with local teachers and students. Aspire supports policies that can include, but are not limited to tax credits, career counseling, remote workforce incentives, tuition assistance, licensure reciprocity, investment in trainings, work-based learning opportunities, affordable housing initiatives, and more.

MEETING SPACES

The Aspire office in Greenwood features conference rooms and a member office that provide a professional space perfect for in-person or virtual business meetings, seminars, and interviews.
