CLINICAL DATA REPOSITORY QUICK REFERENCE GUIDE

ClinicalConnect HIE

A partnership of leading healthcare providers helping to improve the quality, safety, and efficiency of care for their patients by securely connecting clinicians with patients' vital electronic health records across the healthcare continuum.

www.clinicalconnecthie.com

Mission
To develop and operate a sustainable network to securely exchange health information in western Pennsylvania and beyond.

Vision
To securely deliver electronic health information to providers, where they need it, when they need it and how they need it, in a consistent, secure and reliable manner.

Please contact cchiesup@clinicalconnecthie.com with questions.

ClinicalConnect HIE is a secure health information exchange which aggregates clinical data from its participants' inpatient and outpatient electronic health records. Protected patient information, *such as behavioral health, drug, alcohol and HIV/AIDS*, is not maintained in the ClinicalConnect HIE database.

Patient data is displayed within screens called **CLINICAL VIEWS.** Within all Clinical Views, **facility** is noted indicating the location where the data originated.
Please note: If facility is BLANK in a row where there is data, the originating location is UPMC.
