# LETTER FROM THE CEO

**AS** I write these words, it has been one year since the COVID-19 crisis entered our lives. We at the Foundation want to recognize the pain and frustrations it has brought for so many. Much has already been said about the pandemic, and I suspect volumes will still be written. So rather than add more words to an already full space, I'd like to share a few observations we've made about our community over this past year.

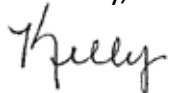

In our nonprofits, we witnessed the **creative** ways they continued to provide **essential** services in spite of obstacles like lockdowns and cancelled fundraisers. They remained **flexible** as circumstances changed daily, sometimes hourly. Yet they never wavered and remained **committed** to providing child care, or stocking food pantries, offering shelter, etc. They often did so with limited staff and resources, and their **persevering** attitude was, and continues to be, an example for us all.

In our Board of Directors, we witnessed their **proactive** approach to the crisis as they established a fund to provide immediate relief to our nonprofits. This group of community-minded people, themselves volunteers, were **dedicated** to finding solutions in the ever-changing environment. They continue to do so.

In our donors, we witnessed your **kind** and **caring** spirit and your willingness to help however you could. Even as you faced your own struggles and uncertainties, you continued to be **generous**, and **trusting** that your donations would make a difference. And they did, and still do.

As I reflect on all this, the words of Dorothy in *The Wizard of Oz* comes to mind when she said, "There's no place like home." And there's no place like Montgomery County – our home – a place where neighbors and friends face the challenges that adversity brings and work together to find solutions. Our community – a place that even in the darkest of seasons, shines with **resilience**.

Sincerely,

Kelly S. Taylor  
Chief Executive Officer

## An Oasis in the “Desert”

A huge obstacle for working parents is securing quality child care. A place where their child will be in a safe and nurturing environment. This is not easy in Montgomery County as we are considered a child care desert - defined as having no more than one child care seat for every three children. This obstacle also affects employers as a lack of child care prevents parents from seeking and keeping employment.

This lack of recognized high quality early learning and child care has become a top priority for our community. Broad community partnerships, including the development of a child care task force, were formed to address this issue. The MCCF was already committed to making child care a top priority in future grantmaking. Working together, we submitted a grant proposal to Early Learning Indiana Child Care Deserts Competition. We were thrilled to learn that the MCCF was the recipient of a \$100,000 grant. This grant translated into 80 new child care seats in our county. Specifically, it funded 24 new seats at Hand In Hand Creative Learning, and 56 new seats at Rainbows and Rhymes. Hand in Hand, a ministry of First Christian Church, offers full day, full year preschool and child care from infants to 5 years of age. Rainbows and Rhymes, a ministry of First United Methodist Church, offers preschool and child care for ages 3-5.

We are so grateful to Early Learning Indiana for providing an oasis in our child care desert through this grant award, and for their investment in our children. The work continues in our efforts to increase recognized high quality child care programs in our community, but this is a great beginning of good things to come.

## A Second Step in the Right Direction

Enthusiastic and excited were the responses we received from our Second Step curriculum and training to local preschool providers. With a \$25,000 Strong Start grant from Early Learning Indiana, we chose this Social Emotional Learning (SEL) curriculum which is already used by our three local schools for kindergarten to 8th grade. The lesson plans include the topics of skills for learning, empathy, emotion management, friendship skills, problem solving and transitioning to kindergarten.

Children who are socially and emotionally competent have more friends and more connections with positive peers and are less likely to be rejected, isolated, or bullied.

Source: <https://secondstep.org/social-emotional-learning>.

The introduction of this curriculum in preschool will help strengthen the transition to kindergarten. Using this consistent curriculum from a very young age through middle school will help build a strong and supportive social and emotional community for our children. This will have a great impact on our community as a whole and is part of our ongoing strategic child care initiative. Retired educator, Cynda Mellish, conducted the training to 43 preschool teachers and directors from ten preschools in our county.

"When we started implementing Second Step in Montgomery County schools, the teachers marveled at how quickly the students were picking up and using the SEL skills being taught. The kindergarten teachers wished that more incoming students could have this program because the transition would be so much smoother for them. They were so excited to learn you were making that wish a reality. Please know that you are receiving thanks and praise from teachers that are tired from all they have overcome this past year, and I believe it makes that sentiment even more meaningful. You do a lot of work behind the scenes to make Montgomery County a better place to live and I would like to acknowledge that and thank you."

Sign over Auschwitz states "Work will free you" - a sign of mockery as the gate never led to freedom, only pain and death.

## 75th Anniversary of the Liberation of Auschwitz

Through our work with Eva Kor, Holocaust survivor, and the CANDLES Holocaust Museum and Education Center, we learned about a trip to Poland in January of 2020 commemorating the 75th anniversary of the liberation of Auschwitz. Through a generous donor, our Chief Executive Officer, Kelly Taylor, and ten local teachers had the privilege of going on this trip. They received firsthand experience and education about the Holocaust, and specifically about the concentration camp at Auschwitz.

The official commemoration ceremony was a sobering and solemn reminder of the millions of lives that were extinguished. Some of the aging survivors spoke to the group describing the brutality and hardships they experienced, describing the mass killings they witnessed, while others addressed the rise of anti-Semitic behaviors and hate crimes.

Tony Gonczarow, Southmont High

*"Don't be indifferent. That's what I want to say today to my daughter, my grandchildren and their peers. Don't be indifferent when you witness historical lies. Don't be indifferent when the past is manipulated for the sake of current political interests. Don't be indifferent when any minority is discriminated against."*

- Marian Turski, survivor, age 93

School teacher, said that it is difficult to comprehend what Auschwitz really is without directly visiting it. There is just no way to convey the size and the pure evil that permeated throughout. The knowledge that he gained from the trip, along with the photos, have enhanced his Holocaust education presentations to students.

As a child of a survivor of the Nazi concentration camps, Tony has a deep passion for Holocaust education. His father, Edward

Gonczarow, spent five years in prisons and concentration camps after being captured by the Nazis. His story of courage and determination helped mold Tony's own life, and the personal connection has a profound effect on the students as they listen to his story. Beyond the classroom, Tony believes that Holocaust education will also impact our communities by combating prejudice, racism, and stereotyping.

The Holocaust education at Southmont has been a positive experience. Students have commented that they will use Eva Kor's life lessons to help them overcome their own battles. Tony has also noticed that after hearing Eva's message of forgiveness, the students tend to be more respectful to each other, and there is less fighting and bullying. Out of the ashes of evil, hope rises.

*"Let there be a new beginning which includes hope for mankind, and let it begin with us."* - Eva Kor

Crematorium could reduce 340 corpses per day to ashes

*"I told my students that the days of watching a student fight at school were over for them. They are not to stand and watch, but to intercede. This may seem small scale, but if we can't react on a small scale, then what is going to make us act against injustices on a larger scale? Thank you for this opportunity. As teachers, we brought back lessons we learned and are passing on valuable information to our students. The students are not getting lessons from a book; they appreciate and accept what we have to say because we were there."* - Elena Dove, Southmont High School

All over the world, Auschwitz is a symbol of terror and genocide. This concentration camp was a place of death and unspeakable cruelty, and where an estimated 1.1 million Jews were executed. Other ethnic groups on a lesser scale, but no less horrific, were incarcerated and exterminated there as well. A staggering 900,000 people were murdered in the gas chambers immediately upon arrival.

*"We saw rooms of nothing but shorn hair used for textiles, unmatched piles of shoes, and mountains of abandoned suitcases with names and countries, printed by the hands of owners who would never claim them."* - Amy Carrington and Sharon McClean, Crawfordsville Middle School

*"Where do we go from here? As educators we are in this business to make a difference, share knowledge and create lifelong learners. It is our job to create a wave of teaching tolerance, resilience, kindness and forgiveness in our classrooms, schools and our community. Thank you to the MCCF, our schools, and CANDLES for this opportunity to learn, explore and bring back to our community."* – Jodi Webster, Northridge Middle School

Eva Kor, along with her family and other victims, were transported to Auschwitz on cattle cars like this one. Standing on the railway platform, amidst utter chaos and confusion, Eva and her twin sister, Miriam, were torn from their parents and siblings, never to see them again. Because they were twins, Eva and her sister were subjected to shocking and painful genetic experimentation by Nazi doctor Josef Mengele. In true definition of resilience, they survived. And in a powerful testimony of grace, Eva eventually publicly forgave the Nazis for what they did to her and went on to establish the CANDLES Holocaust Museum and Education Center.

# Small Town Park – Big Town Benefit

Visionary citizens from the small town of New Richmond identified a need in their community and decided to do something about it. They had a beautiful park with lots of potential, yet the playground equipment was old and unsafe and not attractive for families with children. Beyond the obvious enhancement to the park itself, a new playground would provide important physical activity and exercise for children, and provide a pleasant place for family outings and community events. The townspeople deemed this essential to attracting and retaining young families that the community needed in order to thrive.

The town put together a plan to improve the park in phases, which will eventually include restroom facilities, walking trails, and more. But the first phase was the necessary playground equipment, and so they applied for a MCCF unrestricted grant. In 2019, the Town of New Richmond was awarded a grant for \$22,500 for new equipment. That award, combined with community-wide fundraising, enabled their dream to become a reality and the new playground equipment was installed in the summer of 2020.

As you can see from the photos, the new playground was fully embraced and enjoyed by the town's youngest citizens.

# Excellent Etiquette

4 Days

29 Volunteers

426 Middle schoolers

535 Meals served

For the second year, we invited Christie Pate Herron, a certified etiquette consultant and the founder of Excellence with Etiquette, to lead etiquette workshops for local middle school students. And once again, the workshops were enthusiastically received by students and adults alike. Alongside the delicious meals served by the Crawfordsville Country Club, Christie served her knowledge and expertise in a lively, engaging manner.

Christie's program goes beyond table manners, reaching into other important life skills such as the art of conversation and making eye contact, social media etiquette, and more. Because middle school is such a critical time of development, it is the perfect time to give them these skills that will boost their confidence, and help them develop positive relationships with others.

# COVID-19 GRANTS

**\$245,499**

Emergency Assistance

Even though many doors closed this year, our caring community opened their hearts and responded to a challenging crisis with abundant generosity. From the far shores of France (literally) to the hoosier heartland, our donors from all walks

of life responded to the pandemic with compassion. And because you did, we were able to help provide support where it was most needed.

Through constant contact with our nonprofits, we quickly determined to focus on the areas of food insecurity, child care, health, and human services, as the areas of greatest concern. In March, the MCCF

Board of Directors approved the establishment of a COVID-19 emergency fund and moved \$100,000 to that fund. This enabled us to provide immediate assistance in our community through emergency grants. Our donors gave generously and unselfishly, as some even gave their stimulus checks. By the end of December, your generosity resulted in **\$245,499** distributed in COVID-19 emergency grants in our community.

You gave, as always, and at just the right time. Our community bonded together through adversity, and was knitted together by so many threads of compassion. The essential work of our nonprofits continued, food pantry shelves were stocked, children were fed, child care services remained open, personal protective equipment was distributed, and so much more. All because you gave.

.....

With the onset of the pandemic, our concern immediately went to our grantees. We knew they would be affected, and we wanted to know exactly how we could help. After listening to their concerns, the result was a complete retooling of our 2020 grantmaking plan.

- Knowing that agencies would need time to understand just how the crisis would affect them, we merged our remaining two grant cycles into one.
- Knowing some needs were urgent, and could not wait for a formal grant cycle, the board approved funds for COVID-19 Emergency Assistance Grants. This allowed us to quickly get money where it was needed.
- Knowing there would be cancelled fundraisers, lost revenue, and in many cases, increased need for services and increased expense to deliver services, we invited grant requests for COVID-19 related operating needs. These grants totaled \$69,035.
- Knowing some agencies had just received grants for programs and projects that now were no longer reasonable; we allowed flexibility in re-directing current grants to address needs that were more urgent. Two agencies requested and were approved to do this.
- Knowing the situation was changing constantly, we launched a Nonprofit Resource page on our website so that our agencies would have access to various important information, such as the Paycheck Protection Plan and others.

## WALL WALKERS AND BUILDERS

Montgomery County is home to several treasured historical landmarks. One of these, the General Lew Wallace Study and Museum, has a dangerous situation that must be rectified. A fifty-foot section of the wall along Elston Street is leaning significantly requiring the closure of the sidewalk next to it. This section of wall has been leaning for years, but in the last three years the leaning has accelerated and is now in peril of falling. What may look like a simple project is actually very complex and required a great deal of study by architects and contractors. The project will include carefully dismantling the wall, salvaging and cleaning the historic bricks, repairing the section's foundation, removing trees that undermine the integrity of the wall, and then rebuilding the wall with the original bricks. The bricks themselves have history. In 1909, Lew and Susan Wallace's son Henry contracted construction of a brick wall on the east, north and west sides of the property. Contractors used locally-made Poston bricks; ten years later, Henry had the wall along the south side built.

The wall is a community landmark enjoyed by many - especially neighborhood children who walked along the top of the wall, and according to rumor, climbed over the wall to gain access to the Wallace grounds after hours. The \$50,000 MCCF grant covers a significant portion of the critical repairs, and a group of citizens informally known as the Wallace Wall Walkers made important contributions. Sue Rickett and Mary Kummings came up with the idea of the Wall Walkers and reached out to people they knew who grew up in the neighborhood surrounding the museum.

The rest of the walls are in need of repair and maintenance, and this is the beginning of a years long project to achieve full restoration of all the walls surrounding this treasured landmark.

*"For my family, the wall served mostly as a backdrop on a stage and we have many family poses in front of it. I certainly remember walking the wall with my brothers. Once, our Irish Setter decided to join us! The wall means family and friends to me. It surrounds and supports a special place. One that we all love." - Mary Kummings*

(l-r) Joyce Grimble, Robin Pirtle, Jessica Bokhart

The MCCF 2020 Volunteer of the Year is the husband and wife team of Phil and Robin Pirtle, volunteers for the Volunteer Waynetown Fire Department. Phil joined the VWFD in 1984, and Robin joined several years later. Robin has since retired as a firefighter, and now is the official photographer and Phil is the Fire

Chief. However, their work goes beyond the sound of the fire alarm. This spring as the schools closed due to the pandemic, they worried that students dependent on school breakfasts and lunches might go hungry. Joined by others, they served lunches to students in Waynetown. Soon that grew to include the elderly, and expanded to Wingate and New Richmond. Simultaneously, they started a temporary food pantry to assist families experiencing hard times. When the department needed more masks, Phil asked Robin to make some. As he helped, he realized he could do it too and went out and bought his own sewing machine. The Pirtles illustrate well, the saying, "Those who can, do. Those who can do more, volunteer." A \$1,000 MCCF grant to the Volunteer Waynetown Fire Department was given in their honor.

# SCHOLARSHIPS

## Jesse Hortin - CHS Athenian Scholarship recipient

It is a beautiful thing to know that you are on the right path for your life; to wake up every morning ready to face the day because you are doing something you enjoy. For Jesse Hortin (*photo*), recent CHS graduate, this is the calm assurance he experiences at this stage in life. He attends Ivy Tech and is pursuing an Associate Degree in Electrical Maintenance. This is valuable to his current employer, Frito Lay, because of the hands-on, specific training he is receiving. Jesse believes this degree will also be valuable to him as it will offer more job opportunities in the future.

One of the MCCF scholarships that Jesse received was the CHS Athenian Scholarship. This scholarship fund was established by a Crawfordsville High School alumnus to recognize the importance his high school played in his life. The scholarship is awarded to graduates of Crawfordsville High School, with preference given to the student pursuing a degree in the technical or trade area of study, making it a perfect fit for Jesse. Nontraditional students under the age of 21 may also apply, as long as they are a CHS graduate.

Fund owner, David McCormick, said, "The school, the community, and its teachers meant a lot to me as a young person and provided me with the tools I needed to further my own education and to have a productive and meaningful career." Desiring to give back, this proud Athenian from the Class of 1964, and his wife, Louise, who is a retired teacher, want to help other young people achieve their own educational and career goals. They established this scholarship fund to help ease the financial burden of secondary education and training for CHS graduates. Jesse is so grateful they made that decision as this scholarship award certainly lessened his college debt, allowing him to concentrate more fully on his education. The CHS Athenian Scholarship Fund is often used by CHS alumni to make memorial or honor gifts for former classmates or teachers. Not only do these gifts honor the past, but because it is an endowed fund, they also benefit CHS graduates far into the future.

### WHY CHOOSE A SCHOLARSHIP FUND?

When you establish a Scholarship Fund, your gift provides support to our local students pursuing post-secondary education. It's a wonderful way for donors to give back to the community in recognition of and appreciation for their own education. When you establish a scholarship fund with the MCCF, you can choose the name of the scholarship, and help determine the eligibility criteria.

Establishing a scholarship fund is a common charitable goal for many individuals. Our donors often establish these funds in memory, or in honor, of a loved one or friend. We take care of the administrative work and distribution of the scholarship awards. We invite the donors to participate in the presentation of the award.

Because of the high administrative costs associated with scholarship funds, please note that these funds require a minimum contribution of \$25,000.

### **Madison Moseley - Lilly Endowment Community Scholarship recipient**

Serving others is important to Madison and something she plans to do every day for the rest of her life in her career as a physician's assistant. She is pursuing a major in Community Health from Indiana University on a pre-physician assistant track. When she made that decision, she had no idea just how relevant a medical career would be in today's world in the midst of a pandemic.

The pandemic has reinforced her decision about her college major, and at the same time, has created more of an adjustment as a first year college student. It has been anything but typical, with twice a week COVID-19 testing and wearing masks. However, Madison has tried to make the most out of her college experience, whether online or in-person classes, and is just grateful that she is able to be there.

Upon receiving this scholarship award, Madison stated that it was an honor she will hold dear to her heart for a lifetime. She is truly appreciative of the encouragement she received throughout her life from her family, teachers, and coaches. She considers it a privilege to receive this award and finds it hard to express in words just how it has impacted her life. It has opened up a whole new world for her and created opportunities that might not have been possible otherwise.

Madison, a graduate of North Montgomery High School, was one of 25 local applicants for the MCCF Lilly Endowment Community Scholarship, and participated in a highly selective review process. Since 1998, the Lilly Endowment Community Scholarship program has provided over \$405 million in scholarship tuition to 4,769 recipients.

*We want to congratulate all of our MCCF scholarship recipients for a job well done! It was a year of many changes and challenges, but you persevered through it all. We also want to thank our scholarship fund owners and donors for their support as they continue to help make higher education possible for our local students.*

## Drake Hayes - Harriet Taylor Allen Scholarship recipient

If Harriet Taylor Allen were alive today, she would be among the first to congratulate Drake Hayes for receiving the scholarship award established in her honor. We can only imagine the lively and intense conversations they would have discussing their shared passion for education. However, there was a time in Drake's life that he could not even feign an interest in education, let alone find any passion for it. Growing up, he hated school and thought it boring and a waste of his time. Yet, as Drake gained maturity and began to actually listen and engage, he discovered that education is actually incredibly interesting. He is now a Wabash College freshman pursuing a double major in mathematics and computer science, with his sights set on earning his PhD and becoming a math professor.

Drake credits Dr. Colin McKinney, Wabash College's Associate Professor of Mathematics and Computer Science, as the inspiration behind his desire to pursue a career in mathematics. Dr. McKinney meets regularly with Drake and they discuss not only complex and intricate math formulas and theories, but also the complexities of navigating through life. Drake has benefited much from his mentor and desires to inspire others in the same way that Dr. McKinney has inspired him.

This past academic year, students everywhere felt the impact of the COVID-19 pandemic. For incoming college freshmen excited about forming new relationships and experiencing new freedoms, their venture into college life was more restricting and isolating than imagined. However, in spite of that, Drake said he has still met a lot of new people, especially since joining the Phi Gamma Delta Fraternity, and it has been a great experience overall. He has gained confidence and become more outspoken than when he arrived as a quiet and introspective freshman. Drake has also gained a greater appreciation for his family. After high school, as he experienced other relationships shifting and changing, he is grateful for the steadfast love and support of his family.

The stress of college debt has been greatly relieved by the MCCF scholarships that Drake received. He is so thankful to be able to focus on his studies, rather than weighed down by the burden of debt. The Harriet Taylor Allen Scholarship Fund was established by her sons, Drs. Joe and David Allen, to provide scholarships for graduates of CHS who are pursuing a career in education. Her legacy as a teacher, and as a mother who insisted on a robust and continuing education for her children, is forever remembered and honored through this scholarship. And while Harriet never had the pleasure of meeting Drake, her lifelong passion for education is now entwined with his.

## The Phil and Farzaneh Boots Fund

Senator Phil Boots grew up on a small farm located south of Crawfordsville. After attending Wabash College for one year, he went on to graduate from Milligan College in Tennessee. It was there that he met his future wife, Farzaneh, who was born and raised in Tehran, Iran. Upon graduation, Phil was drafted into the Army and went to Vietnam, where he served a little over 13 months with the 1st Air Cavalry Division. After his service, he and Farzaneh eventually made their way back to Montgomery County, where they settled down and raised two children, Brian and Kavian. Their family has now grown to include six wonderful grandchildren. In 1975, Phil assumed management of the family business, Boots Bros. Oil Co., Inc., which was only the beginning of his involvement in the community. He served on the County Council for ten years, and then ran for office and was elected as Indiana State Senator in 2006. In addition, Phil has served on the boards of several local civic organizations, most currently as President of the Montgomery County Educational Foundation.

The Phil and Farzaneh Boots Fund is the second unrestricted fund they have established. Years ago, they established one in memory of Phil's parents, Samuel L. and Eva Fern Boots, to honor their community service. At that time, Phil said, "Giving back to the community where you live, and where you have prospered, is the right thing to do. Everyone should do that either through public service, through dollars, or both." Obviously, he and Farzaneh continue to live by that philosophy and we are grateful for their faithful support. They continue to choose the MCCF because they have witnessed the benefits that many community organizations have received from the MCCF since its founding. The lasting legacy of their fund will benefit others far into the future, and is one more way they are giving back to the community where they live, work, and play.

### WHY CHOOSE AN UNRESTRICTED FUND?

When you establish an Unrestricted Fund, your gift addresses a broad range of local needs - including future needs that often cannot be anticipated at the time your gift is made. Because you set no restrictions on the use of your gift, it enables our Board of Directors to do what they do best - assess community needs and respond by awarding grants to the nonprofit organizations that undertake our community's most critical work.

We consider all aspects of community well-being: arts and culture, community development, education, health and human services, historical, and more. The flexibility of your unrestricted gift enables the MCCF to support long-term solutions, and meet the ever-changing needs in our community.

Grants are made in the name of the fund you establish, creating your personal legacy of giving. You may give your gift immediately or through your will or other estate planning strategy. Your endowed gift becomes a permanent community funding resource. Fund minimum is \$5,000.

## The John Siamas Shop with a Cop Fund

The John Siamas Shop with a Cop Fund was established in memory of John by his brother, Tom Siamas. Tom stated that he wanted to honor his brother who was always there for him – and there is much to honor about John’s life and legacy. John served his country in the Navy during World War II, and then served his community by joining the Crawfordsville Police Department in 1951. He became Chief of Police in 1963, and was the first officer from Indiana to graduate from the FBI Law Enforcement Academy. During the 1968 presidential election, John arranged security for dignitaries Robert Kennedy and George Wallace, and celebrities Paul Newman and Joanne Woodward, all who were campaigning in Crawfordsville. After 20 years of serving on the police force, John worked another 20 years at First National Bank, currently known as Chase, retiring as Vice President in the personal loan department. But his service to the community extended way beyond his careers as John was active in several community organizations.

For all of his contributions to the citizens of this community, John was awarded a Sagamore of the Wabash by Governor Robert Orr. Upon receiving this prestigious award, John stated that “this was one of the best things that has happened to me.”

Though Tom desires to put the spotlight on John with this fund, it should be noted that Tom also served our country in the United States Air Force. Both brothers followed the example of sacrificial service set by their father, Harry, who served in World War I. Tom is a lifelong resident of our community and we are so grateful for his decision to honor his brother, while providing support to our local police. This fund will benefit the Crawfordsville Police Department’s Shop with a Cop program as they assist local children in buying gifts during the Christmas season. The positive experience this program provides helps build positive relationships between children and local law enforcement.

### WHY CHOOSE A DESIGNATED FUND?

When you establish a Designated Fund, your gift provides you a wonderful way to give back to one or more specific organizations that have touched your life. A designated fund is ideal for families, or individuals, who are dedicated to supporting a specific project or charitable organization. With a designated fund, you can support the good work of a specific program or nonprofit of your choosing.

Your gift provides the organization you choose with a permanent source of reliable funding, creating a long-term impact. Your favorite organization will also benefit from the MCCF’s investment stewardship and ability to manage endowment funds. You, or anyone, can add to the fund at any time.

Grants are made in the name of the fund you establish, creating your personal legacy of giving. You may give your gift immediately or through your will or other estate planning strategy. Your endowed gift becomes a permanent community funding resource. Fund minimum is \$5,000.

# IRA DISTRIBUTIONS

## An IRA Charitable Rollover Gift:

May satisfy your annual required minimum distribution, or RMD, up to the amount of your gift

Allows you to give from pre-tax assets and your distribution is excluded from taxable income

Helps avoid limits on charitable deductions and prevents you from being pushed into a higher tax bracket

Simplifies the giving process. It's easy to do— just notify your IRA custodian

Minimizes the effect your giving has on your cash flow. The gift is from your assets, not your checkbook

- 70½ or older
- Direct up to \$100,000

This information is not intended as tax, legal or financial advice. Gift results may vary. Consult your personal financial advisor for information specific to your situation.

# Reduce

## Your Tax Burden

even if you don't itemize

Do you own an IRA or other qualified retirement plan? Are you looking for a tax-wise strategy to make gifts to support our mission? If so, consider making an **IRA charitable rollover gift**.

At your direction, the custodian or trustee of your IRA can transfer money from your IRA directly to the Montgomery County Community Foundation so that you can support the causes that matter most to you. This gift is a qualified charitable distribution (QCD), also called an IRA charitable rollover gift.

An IRA rollover has several significant tax advantages. It allows you to give from pre-tax assets. If you do not itemize or are subject to charitable deduction limits, the IRA rollover still allows you to give while receiving tax benefits. An IRA rollover gift could also help you avoid income that could push you into a higher tax bracket.

## A Donor's Perspective

The Fred and Anna Stevenson home was one where a high value was placed on education, and sacrifices were made in order to save for the future college education of their two children, Casey and Catherine. According to Catherine (*photo*), they did not take elaborate vacations, her mother made all of their clothes, and they led a very modest lifestyle overall. That investment paid off in big dividends as both siblings graduated from college, honoring their parent's treasured regard for higher education.

Perhaps it was Fred's regret that he didn't complete his college career which led to his emphasis on higher education for his children. In spite of that, he provided well for his family, while investing for their future, by working as a plant engineer at Raybestos. He was an excellent golfer and his love of the game sometimes caused Anna to consider herself a "golf widow." However, she was never one to stay idle and found plenty to do either sewing, cooking, gardening, or planning lessons. Upon retirement, Fred was able to freely enjoy his golf game by playing countless rounds at Rocky Ridge Golf course. When his health no longer permitted that activity, he took pleasure in the view from his home near Hole #4 at Rocky Ridge.

Anna, a Purdue graduate, taught English and Math to junior high students at Darlington for 17 years. She was known as a firm teacher who demanded respect, yet was always helpful and made classes interesting. Anna enjoyed watching the students mature throughout the school year and was always looking for ways to develop their appreciation for worthwhile reading material, and gain knowledge of math skills. A former student once said, "Mrs. Stevenson was very understanding and kind. She made me feel like I was 'okay', which is very important at that age."

Catherine followed the example of her mother and devoted her career to teaching; first as an Early Childhood teacher, and later as a Montessori teacher at both the early childhood and elementary levels. She even opened her own Montessori Day School in 1979. Catherine retired a few years ago and is an avid quilter and enjoys playing Bridge. She moved away from Montgomery County many years ago, yet her ties to this community remain strong, and she faithfully supports the fund that her father established at the MCCF.

*The Stevenson family, Anna, Casey, Catherine and Fred*

that income stream anyway. But more importantly, she feels good knowing she is investing in future college students – just like her father did for her. She stated, "This is one small gesture I can do to enrich the place that provided me a stable beginning." Every gift she makes builds on that stable beginning while paying loving tribute to her parent's legacy.

The Fred D. and Anna Faye Stevenson Scholarship Fund was created to honor Anna's love of teaching and to support education. As an educator herself, Catherine believes there is no greater human resource than our young people, and believes all children have a God given right to an equal beginning. She desired to support that belief through donations to the MCCF. It was actually Catherine's accountant that showed her how she could continue to donate and save money on her taxes at the same time. So each month, she donates directly through a distribution from her IRA, and she doesn't miss the income since she never had

Are you looking for a way to memorialize a loved one or friend who is no longer with us? Or perhaps you would like to honor a teacher, friend, co-worker, or service provider who is a positive influence in your life? Memorial and Honor gifts are great ways to honor those who are or have been significant in your life, or in the community. Your gift will go to the fund you specify in the name of the one you are honoring.

All memorial and honor gifts are acknowledged to the person or people you designate so that the loved one's family, or the person you are honoring, is aware of the gift. Or you can make an anonymous gift if you desire to do so. The amount of the gift is confidential and only you will receive a gift acknowledgement for tax purposes. Gifts, regardless of size, that are given in memory or in honor of someone are listed in our monthly Tribute page in the Journal Review unless you specify otherwise.

# INVESTMENTS

## STRONG INVESTMENT MANAGEMENT

The MCCF Investment Committee meets regularly with Capital Cities, LLC (our engaged outside investment consultants) to ensure our asset allocations remain in line with the investment policy. Our primary objective of the investments is to provide long-term growth of principal and income without undue exposure to risk. This enables us to make grants on a continuing and consistent basis.

## INVESTMENT COMMITTEE GOALS

- 1 Protect**  
a donor's initial investment
- 2 Provide**  
a steady stream of income to support local charitable causes
- 3 Produce**  
long-term growth in the funds without undue exposure to risk

## BENEFITS OF OUR INVESTMENT STRUCTURE

### Expertise

We engage an outside firm to monitor the ebbs and flows of the market, analyze our investments, propose changes to the investment committee and ensure we remain within the parameters of our investment policy at all times.

### Knowledgeable

Investment Committee members are experienced business leaders who meet regularly to guide our investment strategy.

### Efficient

Our administration fee is an industry low at 1-1.5%. We also provide annual statements to update fund owners.

### Substantial

Our pooled endowment assets allow us to access investments at a lower cost, which leads to higher returns. Our distribution policy ensures optimal growth in that principal balances are never touched once endowed.
