Successful communities depend on great people who make a difference every day. So do successful companies.

That is why Full-Fill Industries believes it is important to give back to the people of the Vermilion County area through our Propelling Our Community initiative.

Full-Fill Industries is the leader in food aerosol product manufacturing.

Owned by the Clapp Family of Danville, Illinois, our company's products include food sprays for cooking, grilling, baking, flavoring and cake frosting. The cooking sprays are distributed nationally to leading grocery stores and in the foodservice industry.

We are pleased to consider contributions to local non-profit and education organizations that make our community a better place to live.

If you would like to have your organization or event considered for a contribution, please fill out the attached application and submitted it to us.

We ask that you answer the questions as much as possible to help us understand your request.

Also, please attach any additional information that explains your organization or event and how the donation would be used.

Applications should be submitted 60 days in advance of your fundraising activity or deadline.

The management team will review the applications and provide an answer as quickly as possible.

Larger requests may require more research and time for a decision.

Your application and additional information should be sent to:
