Pauly Jail Building Company, Inc.
17515 Bataan Court
Noblesville, IN 46062

Re: Performance Reference

Dear Bob:

It is our pleasure to provide this letter of recommendation for Pauly Jail Building Company. Wakefield Beasley & Associates has recently completed the Terrell RYDC for the Georgia Department of Juvenile Justice, the Haralson County Detention Center in Breman, Georgia and the Madison County Detention Center in Danielsville, Georgia. Additionally, we are currently working with the Pauly Jail team on the Central PDC Conversion in Cadwell, Georgia.

As an Architect focused on justice and municipal projects, Wakefield Beasley has experience with a number of Detention Equipment Contractors and appreciates our positive experiences with the Pauly Jail team. Pauly Jail's preconstruction resources are key to the proper estimating, planning and design of justice facilities. During construction, your construction staff have gone out of their way to maintain construction schedules, install a high level of quality, and work with our clients to meet their security objectives. For our renovation projects, the Pauly team utilizes its expertise to design and install creative solutions that are within budget and with minimal interruption to the current facility.

I would highly recommend Pauly Jail to potential clients, and other design and construction partners for any upcoming opportunities. I am happy to speak directly in further detail regarding our experiences with Pauly Jail to potential clients.

We look forward to many more successful projects with Pauly Jail Building Company.

Regards,

WAKEFIELD BEASLEY & ASSOCIATES ARCHITECTS, INC.

Karen M. Sicner AIA
Justice/Municipal Studio Director
