

Leadership Development Action Planning Worksheet

Name of Hospital: _____

Objective: This guide is used to help document your anticipated actions based on your learning from each LDI event over the next year. For each LDI, the participating team will determine what metric they will use the learning to impact, and document that data in quarterly increments. Each organization will pick a metric or metrics you want to work on, document the baseline data for that metric prior to implementing your action plan, and document your data quarterly.

Action Planning Worksheet
