Long-Acting Reversible Contraception: Who, What, When, Where, Why and How to Get It for Women Who Can't Afford It
- Casandra Cashman, MD, FAAFP

Speaker Biography:

A native of Kentucky, Dr. Cashman received her bachelor's degree in psychology from Wells College, a women's college in upstate New York. Her doctor of medicine degree was earned at the University of Louisville, and she completed residency with a women's health area of concentration at Halifax Medical Center, a community hospital in Daytona Beach, Florida. She then joined the Department of Obstetrics & Gynecology at University of Michigan as a women's health fellow, there also serving as a faculty member in the department of family medicine. In Michigan, she was a participant in the faculty development institute and a visiting professor of family medicine to Shizuoka, Japan.

Dr. Cashman is currently assistant director of the family medicine residency program at Community Hospital East Family Medicine Residency Program in Indianapolis. Her clinical interests include contraception, colposcopy, vulvar disease, maternal-child health, non-operative obstetrics, and reproductive health.

She enjoys cooking, knitting, target practice, and yoga.
