2018 - 2019

To Whom It May Concern:

Our Chapter, Epsilon Iota B, holds brotherhood as a major priority among our chapter. Brotherhood builds unity among our members and sustains us through the challenges that we face during our undergraduate experiences. To build brotherhood throughout the chapter, we host multiple events throughout the year that develop bonds within the members. These are of varying calibers and frequencies. A list of each event along with their date and a brief description can be referenced below. Many of these events occur on a regular basis, but only the first instance of the event is on this document.
