

INDIANA ACADEMY OF
FAMILY PHYSICIANS

74th IAFP Annual Convention
July 13-16, 2023
French Lick Resort

Agenda

CME PROGRAM DESIGNED FOR FAMILY PHYSICIANS

Earn up to **16.0 Prescribed AAFP CME credits plus an additional 8 Prescribed AAFP CME credits per KSA Study Group** at a meeting planned by family physicians to meet the needs of family physicians. Our medical education program is based specifically on previous attendee evaluations and member needs assessments. Four ABFM KSA Study Groups will be offered as optional sessions (two concurrent KSAs on Thursday afternoon; two concurrent KSAs on Sunday morning), each offering 8 AAFP Prescribed CME credits.

REGISTRATION PRICING

Please note: Walk-in registration fees will increase by \$100

	AAFP Member	AAFP Non-Member
Full Conference Registration Fee	\$595	\$695
Includes: One KSA Study Group on Thursday; all General CME Sessions on Thursday, Friday, and Saturday; one KSA Study Group on Sunday; PDF of syllabus materials. IAFP members may also attend Friday and Saturday lunch sessions of Congress of Delegates. 4 tickets to Saturday's Trivia Night are also included!		
Thursday	\$245	\$345
Friday	\$245	\$345
Saturday	\$245	\$345
Sunday (KSA Only)	\$195	\$245
Please Note: Academy Business Meetings are open to all IAFP members regardless of attendance at CME sessions - you may register free of charge using the registration form on our website.		
Electronic Syllabus	Free	Free
Printed Syllabus	\$50	\$50
Saturday evening Trivia Night (Additional Ticket)	\$25	\$25
Note: 4 tickets are included with full conference registration (attendees aged 2+ require a ticket)		

AAFP Prescribed CME Credits By Day

Assuming all CME sessions are attended:

Thursday	3.0 credits for CME; 8.0 credits for KSA Study Group
Friday	6.5 credits for CME
Saturday	6.5 credits for CME
Sunday	8.0 credits for KSA Study Group

Application for CME credit will be filed with the American Academy of Family Physicians. Determination of credit is pending. Updated credit certificates will be available on site.

AGENDA

This agenda is subject to change.

Thursday, July 13

9:00am

Opening of IAFP Annual Scientific Assembly and Call for Late Resolutions

9:05am - 12:00pm

General CME Sessions - Focus on Child Psychiatry

The Indiana Behavioral Health Access Program for Youth ("Be Happy") within Indiana University School of Medicine's Department of Psychiatry is an innovative child psychiatry access program for pediatric primary care providers. The program aims to improve Hoosier families' access to best practice pediatric behavioral health care across the state by supporting health care providers in their local communities with guidance from psychiatric specialists.

CHAMP (Indiana Consultation for Healthcare Providers in Addiction, Mental Health, & Perinatal Psychiatry) is a free adult & perinatal psychiatry access program through the IU School of Medicine designed to support frontline providers in treating mental health in their patients. Its mission is to partner with primary care providers across the state to deliver high-quality mental health & substance use treatment for adult patients.

Faculty involved with the Be Happy and CHAMP programs will present Thursday morning's CME session.

- 9am - 9:30am ***Introduction To The Be Happy And CHAMP Programs And How They Can Help Family Physicians And Their Patients***
- 9:30am - 10:30am ***Guidelines For Treatment Of Adolescent Depression In Primary Care (GLAD - PC)*** - David Braitman, MS, MD, Assistant Professor of Clinical Psychiatry, Indiana University School of Medicine, Indianapolis
- 10:30am - 10:45am Break
- 10:45am - 12:00pm ***Detection And Treatment Of Depression & Anxiety In The Perinatal Period: Practical Information For The Frontline Provider*** - Camila L. Arnaudo, MD, Adjunct Lecturer in Psychiatry, Indiana University School of Medicine, Bloomington

Camila L. Arnaudo, MD is an Adjunct Lecturer in Psychiatry at Indiana University School of Medicine in Bloomington, IN. She completed her undergraduate studies at Amherst College and obtained her MD degree from the University of Maryland.

David Braitman, MS, MD is an Assistant Professor of Clinical Psychiatry at Indiana University School of Medicine in Indianapolis, IN. He attended Wabash College for his undergraduate degree, and obtained a Master of Science degree at Purdue University. He completed medical school at Indiana University School of Medicine in Indianapolis.

12:00pm - 5:30pm Exhibits Open

12:00pm - 2:00pm Box Lunches available

12:00pm - 1:30pm Past Presidents' Lunch

**2:00pm - 5:00pm KSA Study Group: *Care of Hospitalized Patients*
(Concurrent Session)**

- Matthew DuPre, MD

- Complete the 60-question Knowledge Self-Assessment (KSA) with other family physicians in a fast paced, group discussion format facilitated by a family physician experienced with the topic.
- Facilitator will guide you through all 60 questions of the Knowledge Self-Assessment (KSA) module, part of the ABFM's certification process.
- Engage in discussion and debate to help you decide on the correct answer as a group.
- Benefit from automatic reporting of your answers to the ABFM – your account will show you've successfully completed this KSA.
- Earn 8 AAFP Prescribed CME credits and 10 ABFM Certification Points following successful completion of this session.
- KSA Study Group registration is limited to enable group discussion - please register as early as possible!

**2:00pm - 5:00pm KSA Study Group: *Asthma (Concurrent Session)*
- Betty Johnson, DO**

- Complete the 60-question Knowledge Self-Assessment (KSA) with other family physicians in a fast paced, group discussion format facilitated by a family physician experienced with the topic.
- Facilitator will guide you through all 60 questions of the Knowledge Self-Assessment (KSA) module, part of the ABFM's certification process.
- Engage in discussion and debate to help you decide on the correct answer as a group.
- Benefit from automatic reporting of your answers to the ABFM – your account will show you've successfully completed this KSA.
- Earn 8 AAFP Prescribed CME credits and 10 ABFM Certification Points following successful completion of this session.
- KSA Study Group registration is limited to enable group discussion - please register as early as possible!

2:00pm - 3:00pm Foundation Board of Trustees Meeting

3:30pm - 5:00pm Board of Directors Meeting

6:00pm - 7:00pm Board Reception (invitation only)

7:00pm - 9:00pm Board Dinner (invitation only)

Friday, July 14

7:45am - 8:45am ***Non-CME Breakfast:
Implementing SHINGRIX in Patients Aged 50 Years and Older
- Richard Feldman, MD***

Program details:

- Hear about shingles and current CDC recommendations for SHINGRIX
- Learn about the clinical data for SHINGRIX
- Find out how you can implement SHINGRIX in your practice

[Find out more in this flyer.](#)

8:30am - 5:00pm Exhibits Open

9:00am - 12:00pm ***Essential Evidence CME Program***

This popular format, taught by nationally-recognized faculty (see following page for bios), will review and analyze recent findings from pertinent clinical research with a focus on immediate implications for your daily practice. This is a fun and engaging CME program with no clinical bias and a focus on practical application. The faculty will provide an engaging, rapid-fire review of the most important research publications of the past two years. They will present and critically appraise new research evidence and meta-analyses in 30-minute blasts that will either change your practice or confirm that your current approaches are supported by solid evidence from randomized trials and other high quality studies. Each section ends with a bottom-line summary of key take home points.

Friday morning's topics:

9:00am - 9:30am Screening and Prevention - Dr. Ebell

At the end of this session, participants will be able to discuss recent research on:

- The potential role of the polypill in prevention
- The evidence on aspirin for primary prevention of heart disease and cancer and in pregnancy
- Updated USPSTF recommendations regarding screening for anxiety, colorectal cancer, and COPD

9:30am - 10:00am Hypertension Update - Dr. Ferencick

At the end of this session, participants will be able to understand and apply:

- Variances in blood pressures obtained in routine clinical practice

- Contemporary uses of chlorthalidone
- Hyperaldosteronism is common, but not commonly diagnosed
- Updated evidence on evening vs nighttime dosing of blood pressure medications

10:00am - 10:30am Sleep - Dr. Rowland

At the end of this session, participants will be able to:

- Describe new recommendations for pharmacologic therapies for insomnia
- Identify the most effective pharmacologic and non-pharmacologic therapies for insomnia
- Explain the potential benefits of treating obstructive sleep apnea
- Recommend newly approved medications for daytime sleepiness associated with obstructive sleep apnea when appropriate

10:30am - 10:45am Break

10:45am - 11:15am Pneumonia and Influenza - Dr. Ebell

At the end of this session, participants will be able to discuss recent research on:

- The appropriate duration of antibiotics for adults and children with community-acquired pneumonia
- The role of anti-influenza drugs in patients with influenza
- The choice of antibiotic(s) for community-acquired pneumonia

11:15am - 12:00pm Depression & Anxiety - Dr. Rowland

At the end of this session, participants will be able to:

- Discuss the most effective approach to screening for depression and anxiety
- Describe updated guidelines and evidence for the management of depression
- Explain the evidence for new medications for suicidality or treatment resistant depression

Essential Evidence Faculty:

Mark H. Ebell MD, MS is a Professor in the College of Public Health at The University of Georgia. Dr. Ebell is Deputy Editor of *American Family Physician* and Editor-in-Chief of *Essential Evidence*. He is a graduate of the University of Michigan School of Medicine, a former RWJ Generalist Physician Faculty Scholar, and is former editor of the *Journal of Family Practice*. Dr. Ebell is author of 9 books and over 500 peer reviewed articles. From 2012 to 2016 he was a member of the USPSTF, and in 2019 he was a Fulbright Scholar at the Royal College of Surgeons in Ireland.

Gary Ferencick, MD, MS is Professor of Medicine at Michigan State University College of Human Medicine, where he practices general internal medicine and is deeply involved in MSU-CHM major curriculum renovation. He earned his master's degree in human nutrition and medical degree from Michigan State University and completed his residency training in internal medicine at Michigan State University College of Human Medicine, where he has been a faculty member for over 25 years. Dr. Ferencick is a Past-President of the Clerkship Directors in Internal Medicine. His research interest is the interface between medical education and information technology.

Kate Rowland, MD, MS, FAFP, is an Assistant Professor at Rush Medical College and faculty at the Rush Copley family medicine residency. She graduated from Rush Medical College, the Advocate Illinois Masonic family medicine residency, and the University of Chicago primary care clinical research fellowship. She is an associate medical editor for the AAFP's FP Essentials and sits on the editorial board of the Journal of Family Practice. She is also a board member of the Illinois Academy of Family Physicians.

12:00pm - 1:30pm

Lunch & Congress of Delegates - First Session

Our Congress is your chance to take an active role in IAFP business. All members are invited and encouraged to attend because every member is a delegate, and every participant will have a vote and voice.

1:30pm - 3:00pm

Town Hall Meeting: The State Of Health In Indiana - Lindsay Weaver, MD, FACEP

Hear the latest developments on the many pressing issues that the IDOH is focusing on.

As chief medical officer for the Indiana Department of Health (IDOH), Dr. Weaver provides clinical input and support to all agency divisions. She joined IDOH as chief medical officer Feb. 3, 2020. She immediately jumped into the role, helping to lead the state's pandemic response by spearheading the development of the statewide lab testing network to expand COVID-19 testing capacity in Indiana. Dr. Weaver also led the statewide distribution of COVID-19 vaccines and therapeutics.

Dr. Weaver is also an assistant professor of clinical emergency medicine at the Indiana University School of Medicine and continues to practice emergency medicine at Methodist Hospital in Indianapolis. She is board certified in both emergency medicine and hospice and palliative care medicine.

She earned her undergraduate degree in biology at the University of Kentucky and graduated from the University of Louisville School of Medicine. She received residency training in emergency medicine and fellowship training in hospice and palliative medicine at Indiana University School of Medicine, and she completed a fellowship in ethics at the Charles Warren Fairbanks Center for Medical Ethics at Indiana University Health.

She also chairs the Indiana Commission for Women.

Dr. Weaver and her husband have five daughters.

3:00pm - 5:30pm

Essential Evidence CME Program

Friday afternoon's topics:

3:00pm - 3:30pm Atrial fibrillation/Anticoagulation - Dr. Ferenchick

At the end of this session, participants will be able to understand and apply:

- Updates on screening for atrial fibrillation including smart technology
- Updates on rate vs rhythm control for new onset atrial fibrillation

- Perioperative management of antithrombic therapy

3:30pm - 3:45pm Break

3:45pm - 4:15pm Pediatrics Update - Dr. Rowland

At the end of this session, participants will be able to:

- Discuss new recommendations for management of neonatal hyperbilirubinemia
- Discuss new recommendations and evidence for management of pediatric overweight and obesity
- Identify effective therapies for pediatric abdominal pain syndromes

4:15pm - 4:45pm UTI and Vaginitis - Dr. Ebell

At the end of this session, participants will be able to discuss recent research on:

- The appropriate duration of antibiotic therapy for urinary tract infection
- The interpretation of urinalysis results
- The USPSTF recommendation against screening average risk women for bacterial vaginosis

4:45pm - 5:30pm Diabetes Update - Dr. Ferencik

At the end of this session, participants will be able to understand and apply:

- Diabetes screening in ethnic minorities
- Basic changes in the 2023 ADA guidelines
- Updates on newer glucose lowering medications (note that SGLT2 inhibitors & GLP-1 agonists also covered in the Cardiovascular and Diet & Nutrition and Obesity chapters)
- Overtreatment risks among older adults

5:30pm - 6:30pm Reference Committee #1

6:30pm - 7:30pm Reference Committee #2

7:00pm - 9:00pm All Member Reception

Saturday, July 15

9:00am - 12:00pm **General CME Sessions**

9:00am - 10:00am

Innovative Approaches to Address Agitation in Alzheimer's Disease - Thomas W. Heinrich, MD

Learning Objectives:

- Summarize the impact of agitation on individuals with Alzheimer's disease, their caregivers, clinicians and the healthcare system.

- Expand the skill set of practicing primary care/family physicians to include identification, assessment and monitoring of neuropsychiatric symptoms associated with AD.
- Demonstrate use of the NPI-Q as part of a baseline neuropsychiatric assessment and ongoing monitoring.
- Describe the potential role of third-generation antipsychotics in the treatment of agitation in individuals with Alzheimer's, including the importance of monitoring for potential side effects.

This presentation is sponsored by Novus Medical Education and supported by an educational grant from Otsuka Pharmaceutical Inc.

Thomas Heinrich, MD, Professor of Psychiatry and Family Medicine at the Medical College of Wisconsin (MCW), completed a combined residency in psychiatry and family medicine. This was followed by a fellowship in consultation psychiatry at Massachusetts General Hospital. He is board-certified in family medicine and general adult psychiatry and holds subspecialty certification in consultation-liaison psychiatry and neuropsychiatry. Clinically, Dr. Heinrich remains active in consultation psychiatry, working on a busy academic psychiatric consultation service at Froedtert Hospital, a quaternary care academic medical center that serves as MCW's primary teaching hospital. Administratively, Dr. Heinrich currently serves as Director of the Division of Consultation-Liaison Psychiatry and Executive Vice-Chair in the Department of Psychiatry and Behavioral Medicine at MCW. In addition, he is the Medical Director of Process Improvement for inpatient medical and surgical services at Froedtert Hospital and the Physician Lead for implementing Froedtert and the Medical College of Wisconsin's multidisciplinary behavioral health strategic plan. In these roles, he has collaborated with multiple stakeholders to develop and implement several innovative cross-disciplinary and inter-institutional clinical programs.

10:00am - 11:00am

A General Approach to Anemia in Pediatrics - Manjusha Kumar, MD

Learning Objectives:

- Define anemia for different age groups
- Discuss reticulocyte count & RDW significance
- Discuss importance of good history taking
- Generate an age-based differential diagnosis
- Generate an MCV based approach
- Brief discussion of IDA and its treatment
- NBS interpretation for various Hb patterns

Dr. Manjusha Kumar is a board-certified Pediatric Hematologist-Oncologist at the Indiana Hemophilia and Thrombosis Center (IHTC) in Indianapolis.

She received her MD degree from All India Institute of Medical Sciences and completed residency at the Postgraduate Institute of Medical Education and Research. She completed Pediatric Hematology-Oncology Fellowships at both the University of British Columbia and the University of Florida College of Medicine. She is a member of the American Society of Pediatric Hematology-Oncology, the Cure HHT Foundation, and Children's Oncology Group.

Her expertise and special interests include:

- HVLM Clinic: for patients with hemangiomas, vascular and lymphatic malformations

- Hereditary Hemorrhagic Telangiectasia (HHT)
- Hemolytic anemias and other red blood cell disorders
- Childhood immune thrombocytopenia

11:00am - 11:15am Break

11:15am - 12:00pm

Adults With Intellectual Or Developmental Disability Receiving BDDS Home And Community Services - Mary Ciccarelli, MD

Learning Objectives:

1. Discuss best evidence in providing accommodative, tailored care to adults with intellectual and developmental disabilities in primary care.
2. Discuss opportunities for current and future care coordination support within primary care to address unmet needs of the population of adults with developmental disabilities.
3. Refer adults with IDD and their caregivers/families to supportive community resources.

Dr. Mary Ciccarelli is the Morris Green Professor of Pediatrics and a Professor of Clinical Medicine at Indiana University School of Medicine, where she has served in long-term roles as a medical educator and a primary care clinician. Currently, she is a co-Director of the 3 Wishes: Early Action for Autism project and the founding director of Indiana's statewide transition program, the Center for Youth and Adults with Conditions of Childhood. She also directs a state Medicaid program to coach primary care teams in the care coordination of both children with medical complexity and adults with intellectual and developmental disabilities.

12:00pm - 1:30pm

Lunch & Congress of Delegates - Second Session

Our Congress is your chance to take an active role in IAFP business. All members are invited and encouraged to attend because every member is a delegate, and every participant will have a vote and voice.

1:30pm - 2:30pm

Board of Directors Meeting

1:30pm - 5:30pm

General CME Sessions

1:30pm - 2:30pm

Integrating Cognitive Assessment into the Primary Care Workflow to Facilitate the Timely Detection and Diagnosis of Mild Cognitive Impairment and Mild Dementia Due to AD: Leveraging Medicare Reimbursement Mechanisms to Improve Clinical Care - Anna Chodos, MD, MPH

Learning Objectives:

Upon completion of this activity, participants should be better able to:

- Integrate routine cognitive assessment in outpatient visits of older adults who present with signs and symptoms of cognitive impairment to facilitate the timely diagnosis of MCI and mild dementia due to AD
- Employ appropriate tools for documentation and coding of procedures (eg, cognitive assessments) and services for patients presenting with cognitive symptoms or concerns
- Implement effective communication strategies to educate patients and caregivers about the clinical significance and prognostic implications of their cognitive assessment results

Dr. Anna Chodos is an Associate Professor of Medicine in the Division of General Internal Medicine at Zuckerberg San Francisco General and the Division of Geriatrics, both within the Department of Medicine at UCSF. Her clinical work is in outpatient specialty care in geriatrics and dementia care. Her academic work is focused on understanding the unmet needs of older adults who are seen in primary care in the safety net, especially those who are living with dementia. She is the Executive Director of Dementia Care Aware, a state-wide program to improve detection of dementia in older adults who have Medi-Cal benefits. She is also Co-Principal Investigator of the Geriatrics Workforce Enhancement Program, which is training health care providers and social service providers in geriatrics principles. Clinically, she is director of two clinics: the outpatient Geriatrics Consult Service and the Geriatrics-Neurology Cognitive Clinic at Zuckerberg San Francisco General Hospital.

2:30pm - 3:30pm

Continuous Glucose Monitoring in Practice - Aaron King, MD

Continuous Glucose Monitoring is making a big impact on diabetes care – and patient outcomes. Learn more about the practicalities of bringing CGM into your practice and making it work for your staff, your colleagues, and your patients.

Learning Objectives:

At the end of the presentation, participants will be able to:

- Prepare the clinical practice for CGM
- Understand options available to the practice for professional and personal CGM
- Locate and interpret CGM data, using the Ambulatory Glucose Profile (AGP) to assess if the patient is achieving targets established by the International Consensus on Time in Range
- Modify the treatment plan based on CGM data to improve patient outcomes

This presentation is supported by an educational grant from Abbott Diabetes.

Dr. Aaron King is a Family Medicine and Diabetes Specialist at MedFirst Primary Care, a Baptist Medical Center affiliate. Dr. King graduated from the University of Texas with a B.S. in Microbiology and top of his class at Texas A&M Medical School, while on a scholarship with the United States Navy through the HPSP program. After his USN commission, Dr. King became ABFM certified in Family Medicine after his residency at Navy Hospital Pensacola. He has received multiple awards including Chief Resident and Resident Instructor of the Year and has served as an active-duty family medicine doctor as the Senior Medical Officer in Diego Garcia, as well as an instructor at the Interservice Physician Assistant Program. Following the Navy, Dr. King continued his family medicine career while serving as a consultant and speaker for multiple pharmaceutical companies focused on the diabetes space. He has also published several peer reviewed original research articles, literature review articles and real-world clinical research articles.

3:30pm - 3:45pm Break

3:45pm - 4:30pm

Update From The ABFM - Gary L. LeRoy, MD, FAAFP

Hear about recent changes to the ABFM's Family Medicine Certification process. This presentation will also address common misconceptions and sources of confusion regarding Family Medicine Certification. You'll hear about upcoming changes and improvements to the ABFM's Family Medicine Certification process.

Learning Objectives:

Upon completion of this activity, the participant should be able to:

1. Describe the purpose and value proposition underpinning continuous board certification.
2. Articulate the recent improvements to the certification process and activities, including the longitudinal assessment alternative to the one-day exam, new and improved self-assessment options, and more relevant and seamless ways to meet the PI Requirements.
3. Discuss issues related to Professionalism in Family Medicine

Dr. Gary LeRoy serves ABFM as the Senior Vice President of Diplomate Experience.

Previously, Dr. LeRoy was an associate professor of Family Medicine at Wright State University Boonshoft School of Medicine in Dayton, Ohio. He served as East Dayton Health Center's Medical Director from 1992 to 2007 before joining the faculty of Wright State University Boonshoft School of Medicine where he served as Associate Dean of Student Affairs and Admissions for 14 years (2008-2022). He also served on the Miami Valley Hospital Board of Directors from 1997 to 2006.

Dr. LeRoy has shown love and loyalty to the city of Dayton in many ways since his career began. Beginning in 2008, he continued his clinical practice by serving patients at the East Dayton Community Health Center, a federally qualified health center. Dr. LeRoy is a past board chair of The Dayton Foundation, Public Health Dayton/Montgomery County, and Hospice of Dayton. Additionally, he has served as the Chief Medical Consultant for Dayton Public Schools since 1997.

Dr. LeRoy has had significant national leadership experience as the President-Elect, President and Board Chair of the American Academy of Family Physicians from 2018 to 2021. He is an active member of the Alpha Omega Alpha Honor Medical Society, the Ohio State Medical Association, the American Medical Association, the Ohio Academy of Family Physicians (Past President), and the Phi Rho Sigma Medical Society (Vice President).

Over the last 30 years, Dr. LeRoy has been recognized for his work through numerous awards at the state and national levels. These include the Wright State University Outstanding Alumni Achievement Award, a Certificate of Recognition by the Ohio House of Representatives and Ohio Senate, the American Association of Medical Colleges Humanism in Medicine Award, the National Council of Community and Justice Humanism Award, the American Medical Student Association Golden Apple Teaching Excellence Award, and both the Educator of the Year and Philanthropist of the Year awards from the Ohio Academy of Family Physicians. He is also an award-winning book author – *Quotes From The Edge of Nowhere* (2020).

Dr. LeRoy completed his medical degree at Wright State University before moving on to Dayton's Miami Valley Hospital for residency and then a fellowship at Michigan State University in 1992.

4:30pm - 5:30pm

Sepsis For The Family Physician - Matthew DuPre, MD

Learning Objectives:

Upon completion of this activity, the participant should be able to:

- Define sepsis
- Recognize sepsis
- Apply treatment guidelines
- Identify when to stop or de-escalate treatment
- Prevent sepsis
- Implement care for a discharged sepsis patient

Matthew DuPre, MD, is an associate director at Memorial Family Medicine Residency Program in South Bend. Dr. DuPre is also an Adjunct Clinical Assistant Professor of Family Medicine at Indiana University School of Medicine. After graduating from medical school at Indiana University School of Medicine, he completed his residency at Memorial Family Medicine Residency. After graduation from residency, he worked in a busy rural Indiana full-spectrum practice. During this time, he had many medical students and family medicine residents train with him, further expanding his passion for medical education. Dr. DuPre joined the Memorial faculty in 2019. He is currently working as Memorial's nursing home medical director and coordinator for their geriatric curriculum. He is involved as the chief of the family medicine department at Memorial as well as the medical director for their anticoagulation clinic. His Clinical Interests include Rural medicine, geriatrics, and internal medicine. In his free time, he enjoys traveling with his wife Kaylan and son Marcus, hiking, running and spending time on the lake.

6:00pm - 9:00pm

Trivia Night

Join us for dinner and Trivia Night! You and your trivia team can test your knowledge with our friends from Hambone's during our family-friendly trivia game. Don't have a team? We'll help you create one! Come dressed in costume and capture the memories with your friends and family in our photo booth. Enjoy dinner and fun!

Sunday, July 16

9:00am - 12:00pm

KSA Study Group: *Palliative Care* (concurrent session)

- Bernard Richard, MD

- Complete the 60-question Knowledge Self-Assessment (KSA) with other family physicians in a fast paced, group discussion format facilitated by a family physician experienced with the topic.
- Facilitator will guide you through all 60 questions of the Knowledge Self-Assessment (KSA) module, part of the ABFM's certification process.
- Engage in discussion and debate to help you decide on the correct answer as a group.
- Benefit from automatic reporting of your answers to the ABFM – your account will show you've successfully completed this KSA.
- Earn 8 AAFP Prescribed CME credits and 10 ABFM Certification Points following successful completion of this session.
- KSA Study Group registration is limited to enable group discussion - please register as early as possible!

9:00am - 12:00pm

KSA Study Group: *Care of Women* (concurrent session)

- Cindy Meneghini, MD

- Complete the 60-question Knowledge Self-Assessment (KSA) with other family physicians in a fast paced, group discussion format facilitated by a family physician experienced with the topic.
- Facilitator will guide you through all 60 questions of the Knowledge Self-Assessment (KSA) module, part of the ABFM's certification process.
- Engage in discussion and debate to help you decide on the correct answer as a group.
- Benefit from automatic reporting of your answers to the ABFM – your account will show you've successfully completed this KSA.
- Earn 8 AAFP Prescribed CME credits and 10 ABFM Certification Points following successful completion of this session.
- KSA Study Group registration is limited to enable group discussion - please register as early as possible!

CME SESSION CREDIT INFORMATION: Application will be made to the American Academy of Family Physicians for 16.0 AAFP Prescribed CME credits. Determination of credit is pending. Updated credit certificates will be available on site.

AMA/AAFP Equivalency: AAFP Prescribed credit is accepted by the American Medical Association as equivalent to AMA PRA Category 1 credit(s)[™] toward the AMA Physician's Recognition Award. When applying for the AMA PRA, Prescribed credit earned must be reported as Prescribed, not as Category 1.

DISCLAIMER: The material presented is being made available by the Indiana Academy of Family Physicians for educational purposes only. This material is not intended to represent the only nor necessarily the best methods or procedures appropriate for the medical situations discussed, but rather is intended to present an approach, view, statement, or opinion of the faculty, which may be helpful to others who face similar situations. The IAFP disclaims any and all liability for injury or other damages resulting to any individual participating and for all claims, which may arise out of the use of the techniques, demonstrated therein by such individualism, whether these claims shall be asserted by a physician or any other person. Every effort has been made to assure the accuracy of the data presented. Physicians may care to check specific details such as drug doses and contraindications, etc., in standard sources prior to clinical application. This material may contain recommendations/guidelines developed by other organizations. Please note that although these guidelines may be included, this does not necessarily imply the endorsement of IAFP.

CONSENT TO USE OF PHOTOGRAPHIC IMAGES: Registration and attendance at, or participation in, IAFP meetings and other activities constitutes an agreement by the registrant for IAFP use and distribution (both now and in the future) of the registrant or attendee's image or voice in photographs, videotapes, electronic reproductions, and audiotapes of such events and activities.
