Scary Fun!

When the days get shorter, the nights get longer, the leaves turn colors, and the air turns crisp, you know it's time to celebrate fall and all the fun that the season brings.

As a DSP, Olivia is always looking for fun experiences for her clients. Chris wanted to make the most of the Halloween season, so Olivia arranged a trip to the pumpkin patch. Chris picked out the perfect pumpkin, which they took back to his house and collaborated on carving. Chris scooped out the insides and drew a Jack O'Lantern face, which Olivia then carved out.

Chris scoops out his future Jack O'Lantern.

Olivia shared that Chris hasn't gotten the chance to carve a pumpkin in a couple of years and it brings him joy to have the pumpkin on his porch. He also thinks this one will frighten any ghosts away from his home, which will come in handy on Halloween!

"Chris's favorite holiday is Halloween because he gets to dress up and scare people and see Halloween decorations. He enjoys handing out candy and watching scary movies as well," shared Olivia.

The pair rounded out their festivities by snacking on apples, listening to Halloween music, and watching the Muppets Haunted Mansion movie. This sounds like the perfect way to spend a fall day and welcome the Halloween season!
