

SOUTH REGION MANUFACTURING SERVICES

Stone Belt's Lawrence County Manufacturing Services provide a dedicated and skilled workforce and versatile facilities to support area businesses.

about our services

Stone Belt Manufacturing Services give individuals with developmental disabilities an opportunity to work and expand professional skills while providing valuable sub-contract manufacturing to businesses. Our employees are trained in machine operation, materials and small parts handling, sub-assembly, packaging, warehousing, quality control and industrial hygiene.

facts & figures

- 37+ years in subcontracted manufacturing
- 30,000 square feet of manufacturing space (in two facilities)
- Fully functional leatherworking manufacturing area
- Partners with NISH to obtain AbilityOne program federal contracts.
- 150+ individuals with disabilities employed (in two facilities)
- Every employer \$1 spent in disability-related accommodations = \$34 savings in Workers' Compensation, insurance and training costs
- Every \$1 spent by an employee with a disability = \$5.59 returned to Indiana's Economy as Hoosier earnings

our employees

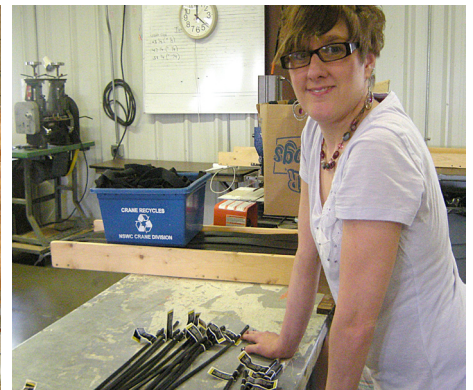

Our employees are adults with disabilities. They take great pride in their workmanship, the quality of the products they produce, and their ability to provide "just-in-time" delivery. This flexible, fast and effective workforce is capable of providing outsourcing opportunities for companies who need to control inventory, increase production, lower production costs and control distribution.

our business clients

Our workers' versatility and proficiency in meeting stringent product specifications has enabled Manufacturing Services to win outsourcing contracts from manufacturers nationwide. Some of our regional clients include: Indiana Limestone, Vanderbilt Music, HDL Distributors, K&K, American Fastner, and Indiana University.
