## OUR OPERATING COMPANIES

**coperion**

COPERION is the international market and technology leader in extrusion and compounding systems, feeding technology, bulk materials handling systems and services.

**ROTEX**  
HIGH PERFORMANCE SCREENERS

ROTEX has been an innovative pioneer in the technological development of screening machines that are used in dry separation of products from size analysis to conveying, screening, and separating.

**Batesville**

BATESVILLE is a recognized leader in the death care industry in North America through the manufacturing and sale of funeral services products, including burial caskets, cremation casket containers and urns, other personalization and memorialization products, and technology applications for funeral homes.

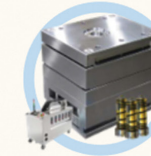

**MILACRON**

MILACRON INJECTION MOLDING & EXTRUSION is a manufacturer of industry-leading plastics processing technology and solutions.

**Mold Masters**

MOLD-MASTERS designs, manufactures, and supports a full range of products, supporting the plastic-molding industry, including hot runner systems, temperature controllers, hot halves, auxiliary injection units, and various gating technologies.

**DME**

DME is a mold technologies leader. Its catalog remains the industry's broadest, its products are the benchmark of high quality, and it continues to provide customers with knowledge, expertise, and service.
