7 The project on facility guideline for safe performance of primary care and gynecology procedures in
8 outpatient office and clinic guidelines was reviewed. Discussion was had regarding the purpose and
9 need for such guidelines but there was no consensus of objection or support thus no comment was
10 made.

12 The Medicare administrative contractor advisory committee for Indiana and Michigan meets three
13 times a year. We review drafts of local determination coverage, CERT (Comprehensive Error Rate
14 Testing) finding reports and information on provider outreach education. If any of the members would
15 like a copy of the minutes I would be glad to supply them.
