

2022 CONSTITUENT SURVEY RESULTS

STATE SENATOR JEFF RAATZ

The following charts represent responses to the multiple-choice questions offered on my mailed and online survey. Answers to open-ended questions are not included here.

1. Should Indiana ban schools from teaching children an ideology aligned with “critical race theory,” which says that society must treat people differently based on their race in order to eliminate racial disparities?

2. Communist China is buying large areas of farmland in other states. Foreign ownership of farmland is being looked at as a national security threat because of another country being able to control production of our food supply. Should Indiana’s laws block foreign ownership of agricultural land?

3. Indiana currently has strict regulations on the types of small-value loans that can be offered. Some people want to loosen these regulations in order to make it easier for low-income Hoosiers to get loans, while other people believe such changes would create more debt for low-income Hoosiers. In general, which sentence best describes your opinion on this issue?

SMALL-VALUE LOANS

- A) Indiana should loosen regulations on small-value loans to make it easier for low-income Hoosiers to get loans, even if the interest rates are very high.
- B) Indiana should have strict regulations on small-value loans to prevent low-income Hoosiers from taking on too much debt.
