

Participate in Summer Discovery by reading and completing fun activities all summer long!

Each week, a new Discovery Card will be available at the library. Each card features 16 activities including reading, outdoor activities, science experiments, community exploration, and more. Complete 6 of the activities on the card, then turn it in to get your prize. This summer, each completed card will also earn a special sticker to place on a mystery picture in the Children and Teen Department. Watch as the stickers come together to form a picture throughout the summer!

Cards are available from May 31st through July 31st.

Prizes:

1st Card: Animal sticker

2nd Card: Make your own button

3rd Card: Free Magic Morning cookie

4th Card: Choose a book to keep

5th and 6th Cards: Enter a drawing for special end-of-summer prizes, including tickets to WonderLab!

As part of Summer Discovery, Bedford Public Library will also be sponsoring Aspen the Grey Wolf at Wolf Park in Lafayette, Indiana. As you turn in cards, enjoy new stories about Aspen each week as well as nature-themed prizes and crafts.

Wed, June 6, 2p: Bedford Five for ages 6-12 You've heard of the Indy 500, now compete in the Bedford Five. Make your toy car speed to the finish line. All supplies provided.

Thurs, June 14, 4p: Teen Animanga
Play a hidden objects game and discover the Japanese way of tidying.

Fri, June 8, 3:30p: Clay Nature Art for adults, teens, and older children Use air dry clay and something from nature to create art!

Mon, June 18, 5:30p: Stone Carving Made Easy for ages 16+ Discover the stone carver in you! It's easy. Make a pendant or small work of art. Registration is required.

Tues, June 12, 10a: Pre-K Discovery Goes Under the Sea Enjoy stories and songs. Play with squid ink and design your own ocean animal to take home.

Tues, June 19, 3p: Make Your Own Musical Instrument for ages 6-12 Discover how sound works. Make a fun instrument to take home.

Tues, June 12, 1-3p: Virtual Reality: Richie's Plank Experience for ages 8+ Are you brave enough to stand on a plank over 500 feet in the air? Come find out!

Wed, June 20, 10a: Pre-K Active Play & Learn: Ocean Wonders Fun with ocean science. Make a beach in a bottle! No sitting required.

Thurs, June 21, 5:30-7:30: STEM Stuff: Create Your Own VR!

Let your imagination go wild in creating a virtual reality that is all yours! Ages 8+

Mon, June 25, 6p: Make Sunflowers for adults & teens You can create beautiful life-like flowers using simple supplies. It's easy, too. Discover what you can do.

Fri, June 22, 3p: Rockin' Art Design something beautiful from everyday rocks! Teens can enjoy Pop Rocks, music, and rock art.

Tues, June 26, 4p: 3D Printing: Basics for ages 10-18 Take the first steps toward creating, sharing, and improving your designs. Program is held at Stonegate Arts & Education Center at 405 I St. Registration is required.

Wed, June 27, 9-noon: BrainSTEM Maker Camp for Grades 3-5 Experience Ozobot Survival Camp. Create camouflage, build bridges, navigate, and code to find your way home in this half-day adventure. Registration is required.

Thurs, June 28, 9-noon: BrainSTEM Maker Camp for Grades 6-8 Look to the stars! Create your own light-up constellation to put on your wall at home. This half-day adventure is filled with exciting science, technology, engineering, and math activities. Registration is required.

Morning snack and lunch provided at both camps. Camp is free. Limited space.

Two more sessions of BrainSTEM Maker Camp are scheduled for July 25 and 26.
