Noblesville, IN 46062

RE: Letter of Recommendation

To Whom It May Concern:

I once again had the privilege to work with Pauly Jail Building Company. The most recent project was on the Pope County Government Center Renovation project which was completed July 2011. Their enthusiasm and pride reflected in their performance during the bidding process and all of the way through to final completion. The professional and knowledgeable staff both in project management and field supervisors made this project a success and something to be proud of.

It would be a pleasure to work with Pauly Jail on future correctional projects. I would recommend their work to anyone.

Best regards,

Larry Filippi
