Mission, Vision, and Core Values

MISSION

At **WindRose Health Network (WHN)**, our mission is to revolutionize health and wellness by delivering comprehensive, high-quality, and personalized primary health care services. We embrace innovation and evidence-based practices to foster a compassionate, inclusive environment that meets the evolving needs of our diverse community. Guided by a commitment to patient-centered care, we strive to create a sustainable future where every individual can attain their optimal health and well-being.

VISION

WindRose Health Network is a catalyst for health, wellness, and positive change for the residents and communities within its service area, as well as a leader in enhancing the quality of life in Indiana.

CORE VALUES

- Stewardship
- Quality
- Compassionate Care
- Dignity of the Person
- Community

A Message from the CEO

Dear Patients, Friends, and Supporters,

As we reflect on another transformative year at WindRose Health Network, our hearts are filled with immense gratitude. Our 2024 theme, **“Our Specialty is You,”** profoundly encapsulates our unwavering commitment to personalized, compassionate care—putting each of **YOU** at the center of all that we do.

This year, we proudly delivered 70,265 outpatient encounters to 21,446 patients - - a high mark in our 28-year history - - demonstrating significant growth across several of our facilities, notably a 7.7% increase at our Epler Parke Center, 12.5% at our Franklin Center, and an impressive 33.5% at our Trafalgar Center. This growth reflects our commitment to meeting the expanding healthcare needs of our communities and underscores the trust you place in us to provide comprehensive, quality care.

Our dedicated staff remains the heart of our network, passionately embracing our mission to deliver patient-centered healthcare. Each team member exemplifies our core values daily through compassionate interactions and steadfast commitment. It is their genuine care and attention to individual patient needs that continually reinforces the strength and depth of the trust we share with you.

To our exceptional team, your tireless dedication and compassion are deeply inspiring. Your efforts profoundly impact the health and well-being of our patients, fostering meaningful relationships within our communities. To our patients and community partners, your continued trust, resilience, and dedication to wellness drive our commitment to excellence and innovation in care.

Looking forward, we remain dedicated to growth and innovation, ensuring we continue to deliver exceptional healthcare experiences tailored to each patient’s unique needs. Every story matters, every contribution is significant, and every moment spent caring is meaningful—because at WindRose Health Network, **Our Specialty Truly Is You.**

With heartfelt gratitude and commitment,

A handwritten signature in black ink that reads "Scott K Rollett".

Scott Rollett, MBA, FACMPE, THDC
Chief Executive Officer

PROGRAMS & SERVICES

PRIMARY CARE

WindRose Health Network’s patient-centered primary-care teams make it easy to put your health first. With convenient online scheduling, extended hours, and four easily accessible clinics, you can book preventive screenings, chronic-disease management visits, or same-day sick appointments on your terms. During each encounter, our clinicians collaborate through a unified electronic health record to ensure seamless coordination with specialists and ancillary services. Just as important, on-site Navigators are available to connect you with wrap-around resources—whether it’s enrolling in health insurance, arranging reliable transportation, securing nutritious food, or finding other community support—so that life’s logistics never become a barrier to care. It’s comprehensive, compassionate, and designed around a single promise: **Our Specialty Is You.**

BEHAVIORAL HEALTH CARE

Recognizing the inseparable link between mind and body, WindRose embeds licensed therapists and psychiatric providers within our clinics. Patients benefit from on-site counseling, medication-assisted treatment for substance use disorders, and peer-recovery support groups, all designed to reduce stigma and remove access barriers. Tele-behavioral sessions further extend care to those who face transportation or scheduling challenges.

Together We Will Foundation provided a grant to train Windrose Health Networks’ Behavioral Health Providers on Accelerated Resolution Therapy. Accelerated Resolution Therapy (ART) is a short-term, evidence-based psychotherapy that helps people process distressing memories and symptoms related to trauma, anxiety, depression, grief, and other mental health concerns. It combines elements of existing therapies—such as cognitive behavioral therapy (CBT), exposure therapy, and eye movement techniques—within a structured and focused approach.

In essence, ART helps the brain “recode” how traumatic memories are stored, so individuals can remember events without being emotionally distressed by them.

However, ART also has other uses as well, as one of our pediatric patients struggling with dyslexia recently discovered. The patient, initially seeking help for anxiety and depression, was discovered to be struggling with dyslexia during her visit with our Behavioral Health Provider. ART therapy was introduced as a potential treatment with its dyslexia

protocol. After one session of ART, the patient successfully read and understood a paragraph that was previously difficult for her to read before the treatment. She also read an unfamiliar paragraph successfully. The patient’s mother was moved to tears, and the patient was visibly happy and more confident. This demonstrates a new application of ART in treating dyslexia, showing its potential for success beyond traditional uses.

The Together We Will Foundation was so impressed with the results of WHN’s ART project that they recorded a video to share with their funders.

Watch our video to learn more at: <https://youtu.be/zU7XJ6VOOF8>

PEDIATRIC CARE

A child’s wellbeing is our highest calling. From a newborn’s first check-up to a teenager’s annual sports physical, we tailor every visit to your family’s unique needs—listening carefully to parents and caregivers, explaining options in plain language, and co-creating care plans that fit real life. Our pediatricians coordinate seamlessly with nutritionists, behavioral-health counselors, and school partners, so you have a single, trusted home for immunizations, developmental screenings, and chronic-condition management. This collaborative, whole-child approach has helped us earn the Callie Van Tornhout Award for outstanding vaccination coverage, but the true reward is watching your children thrive. With flexible scheduling, warm clinic environments, and a team that treats you like family, WindRose turns routine visits into empowering experiences—because every milestone deserves expert care delivered with heart.

CHIROPRACTIC CARE

WindRose's chiropractic services at its Epler Parke Center and its Franklin Center offer drug-free, non-invasive solutions for a full spectrum of musculoskeletal concerns - including neck pain, sciatica, herniated discs, sports injuries, scoliosis, migraines, joint pain, pinched nerves, athletic wellness, and back pain. Certified chiropractors partner with primary-care and rehabilitation teams to create personalized plans that

combine precise spinal and extremity adjustments, targeted chiropractic therapy (such as therapeutic exercise and soft-tissue techniques), and specialized kids’ chiropractic treatments. By relieving pain, improving mobility, and restoring functional balance, our chiropractic program helps patients of every age return to the activities they love and sustain long-term health.

WHAT WE TREAT

- Neck Pain
- Back Pain
- Sciatica
- Herniated Disc
- Sports Injury Care
- Scoliosis
- Migraines

COMMUNITY IMPACT

GROWING TOGETHER WHN proudly sponsored the Bethany Community Gardens volunteers during their annual end-of-season event. Throughout the 2024 gardening season, **several thousand pounds of produce were harvested, significantly impacting food security within our community.** Neighbors actively involved in planting, cultivating, or harvesting benefited directly through receiving fresh produce, while surplus harvests supported local food pantries, ensuring broader community impact.

Our continued partnership with Bethany Community Gardens emphasizes our belief in holistic wellness, encompassing nutrition, community involvement, and sustainable practices. We deeply appreciate the volunteers' dedication and passion for community service.

SAVING LIVES TOGETHER

Additionally, WindRose Health Network provided **Question, Persuade, and Refer (QPR)** suicide prevention training at no cost to community attendees. This critical training equips participants with the skills needed to recognize signs of distress and intervene effectively, underscoring our commitment to addressing mental health and promoting community wellness.

WHN actively collaborated with **over a dozen local community-based organizations and systems of care**, delivering free health education, wellness initiatives, and diverse training opportunities. Our dedicated pediatricians, Drs. Gu and Mosier, participated in the Back-to-School Fast Track Ask-a-Doc events, providing personalized consultations to several hundred students and their families, addressing critical questions about health and preventive care.

Indiana Diaper Source and WHN deepened its commitment to family wellness by partnering together, ensuring that essential supplies reach

neighbors who need them most. Each month, WHN hosts community-focused events where staff distribute diapers and baby wipes provided by Indiana Diaper Source across four WindRose sites of Care - Franklin, Epler Parke, Trafalgar, and Hope as well as its Greenwood administration building. **This collaboration not only eases financial strain for parents and caregivers but also reinforces WindRose's mission to remove barriers to health and dignity.** Together, the two organizations transform routine clinic visits into opportunities for comprehensive support, proving that a healthy community starts with meeting even the smallest of needs.

Moreover, WindRose Health Network was honored to participate in the Chin Center of Indiana's National Chin Day celebration. Our representatives, Anna Zing and Boy Lian, presented detailed overviews of specialized clinical and pharmacy services tailored specifically to meet the healthcare needs of our Chin community members.

QUALITY OF CARE

Quality is more than a metric—it is the heartbeat of every patient interaction. At WindRose, our commitment to clinical excellence and patient satisfaction guides every decision. In 2024, we set ambitious performance goals, measured outcomes against state and national benchmarks, and celebrated prestigious recognitions such as HRSA’s Gold Quality Designation. These results reflect more than numbers; they show how we honor each patient’s story by delivering consistent, evidence-based, compassionate care.

Clinical Performance: WindRose targeted the following clinical performance measures for improvement in 2024:

Measure	2023 Result	2024 Result
Completion of Medicare Annual Wellness Visits	35.4%	43.8%
Diabetes A1c > 9 or Untested <i>(Striving for lowest number)</i>	15.2%	14.3%
HIV Screening	62.8%	69.6%
Hypertension Control	68.7%	72.4%
Statin Therapy for the Prevention and Treatment of Cardiovascular Disease	85.1%	88.3%

Clinical performance measures comparison via the Uniform Data System submissions for 2024 are presented below:

Measure: Screening and Preventive Care	WHN Result	Ind. Average	National Average
Early Entry into Prenatal Care	69.59%	67.93%	70.64%
Low Birth Weight Babies <i>(Striving for lowest number)</i>	7.53%	8.79%	8.53%
Childhood Immunization Status	53.87%	22.34%	28.01%
Cervical Cancer Screening	56.11%	53.57%	55.37%
Breast Cancer Screening	61.29%	48.15%	53.96%
Weight Assessment & Counseling for Nutrition/Physical Activity for Children/Adolescents	82.92%	69.65%	72.57%
Body Mass Index Screening and Follow-Up Plan	59.21%	66.66%	67.63%
Tobacco Use: Screening and Cessation Intervention	86.76%	84.83%	84.24%
Colorectal Cancer Screening	55.78%	39.00%	42.71%
HIV Screening	69.61%	48.53%	51.84%
Screening for Depression and Follow Up Plan	76.24%	68.06%	73.70%

QUALITY OF CARE

Measure: Chronic Disease Management	WHN Result	Ind. Average	National Average
Statin Therapy for the Prevention and Treatment of Cardiovascular Disease	88.26%	79.845%	78.18%
Ischemic Vascular Disease: Use of Aspirin or Another Antiplatelet	83.77%	77.10%	74.69%
HIV Linkage to Care	50.00%	66.34%	80.49%
Depression Remission at Twelve Months	5.18%	7.21%	13.83%
Controlling High Blood Pressure (Patients with high blood pressure whose blood pressure is <140/90)	72.37%	68.47%	67.42%
Diabetes Poor Control - Patients with diabetes whose A1c > 9% or no test was done during the year <i>(Striving for lowest number)</i>	14.30%	28.46%	28.13%

PATIENT SATISFACTION SURVEYS

WHN patient satisfaction surveys are completed quarterly. WHN’s survey vendor aggregates results from participating community health centers across the nation and provides those numbers for benchmarking.

Measure	2024 WHN Mean Score	2024 National Benchmark
Overall Satisfaction	95.6%	92.0%
Loyalty Intention	97.4%	95.8%
Referral Intention	92.1%	89.4%

WHN was *significantly above the benchmark* in the following areas:

MEDICAL PATIENT SURVEYS

- Appointment Wait
- Center Hours Convenience
- Cultural & Language Needs Met
- Overall Satisfaction
- Overall Provider Rating
- Provider Knowledge of Health History
- Provider Listening
- Provider Wait
- Quality of Care
- Referral Intentions
- Info Received about Weekend, Holiday or Evening Care
- Specific Health Goals Discussed

BEHAVIORAL HEALTH CLIENT SURVEYS

- Center Hours Convenience
- Overall Satisfaction
- Provider Listening
- Provider Explanation
- Reception Staff Courtesy & Helpfulness
- Info Received about Weekend, Holiday or Evening Care

RECOGNITION & AWARDS

We are proud to share that WindRose Health Network has been honored with the prestigious Callie Van Tornhout Award, recognizing practices that achieve outstanding immunization coverage for children ages 19 to 35 months. This accolade reflects our unwavering commitment to preventive care and the diligent efforts of our clinical teams, who prioritize timely vaccinations and comprehensive family outreach. By meeting—and exceeding—state and national benchmarks for childhood immunizations, WindRose not only safeguards the health of our youngest patients but also reinforces community immunity across central Indiana. This achievement underscores our mission to deliver high-quality, patient-centered care and affirms the trust that families place in WindRose as their healthcare partner.

WINDROSE BRINGS HOME THE GOLD.

Further elevating this year’s accomplishments, WHN earned the Health Resources and Services Administration (HRSA) Gold Quality Designation (for the second year in a row), placing us in the nation’s top 10 percentile for community health centers. HRSA—an agency within the U.S. Department of Health and Human Services—oversees programs that expand access to high-quality, equitable care for underserved populations, and its quality awards recognize only those organizations that meet the agency’s most rigorous clinical and operational benchmarks. For our patients, this achievement translates into shorter wait times, evidence-based treatment plans, and a care team that listens and adapts to individual needs. It is a powerful affirmation of our guiding mission -

demonstrating that every protocol we refine and every innovation we adopt begins and ends with a single priority: delivering exceptional, patient-centered care that empowers each individual to thrive.

Complementing the HRSA Gold Quality honor, WHN secured a suite of additional HRSA accolades—**Health Disparities Reducer, Access Enhancer, and Advancing Health Information Technology for Quality**—each underscoring our success in narrowing outcome gaps, expanding care avenues, and using real-time data to elevate clinical decision-making. We also achieved **Patient-Centered Medical Home** recognition from the National Committee for Quality Assurance (NCQA), affirming that our practices deliver comprehensive, coordinated, and patient-focused care across preventive, acute, and chronic services.

“*Together, these distinctions prove that OUR SPECIALTY IS YOU is more than a tagline; it is a measurable standard we meet every day for every patient we serve. This honor reflects the dedication of our entire team to delivering exceptional, patient-centered care and continuously improving health outcomes in our community. I am grateful for the recognition—and even more inspired to work alongside such caring professionals.*”

- Laura Pryor, RN, MSN, Chief Quality Officer

REVOLUTIONIZING HEALTHCARE

Empowering Care Through Technology. At WHN, our commitment to patient care extends deeply into our use of technology. Our Information Technology (IT) team focused extensively on ensuring patient safety, confidentiality, and care continuity through strategic upgrades and improvements.

We modernized our technology infrastructure, establishing secure daily backups for essential patient care systems. This ensures that critical patient data remains safe and available, enabling us to quickly recover from disruptions and maintain our promise of continuous, reliable patient care.

Additionally, our cybersecurity initiatives were significantly enhanced through structured training and simulation programs designed to safeguard patient information against cyber threats. Internally, our streamlined IT support model and innovative communication tools have boosted staff efficiency, allowing our healthcare providers to spend more quality time with their patients. At WindRose, these technological advancements underscore our unwavering dedication to providing exceptional and secure patient-focused healthcare.

STARLIGHT SMILES

The experience of visiting the doctor can sometimes feel overwhelming for children, but at WindRose Health Network, we strive to create moments of joy and comfort for every pediatric patient. In 2024, our partnership with the Starlight Foundation, a philanthropic initiative supported by Disney, brought smiles to hundreds of young patients. Through this program, children received thoughtful gifts such as LEGO sets, toys, books, and other items that turned routine visits into positive, uplifting experiences.

These simple but meaningful gestures do more than brighten a child’s day—they build trust, reduce anxiety, and create a welcoming environment for families. By blending high-quality care with moments of happiness, WindRose affirms that pediatric visits are not just about treatment, but about nurturing the whole child. Starlight Smiles exemplifies our belief that healing includes compassion, play, and the small surprises that make children feel valued and cared for.

JUST WHAT THE DOCTOR ORDERED

WindRoseRx continues to be a cornerstone of accessible, affordable care for our patients and communities. In 2024, our pharmacy at Epler Parke marked its **third anniversary**, building on the momentum of last year’s success. **This year, the pharmacy filled 34,154 prescriptions, reflecting a steady increase of +9,98 or 41% in utilization as more patients rely on WindRose for both primary care and medication needs.**

Accepting most insurances and offering prescriptions on an income-based sliding fee scale—with some medications available for as little as \$4.15—WindRoseRx helps ensure no patient has to choose between health and affordability. To further reduce barriers, the pharmacy maintained its free home delivery service (excluding narcotics), providing convenient and timely access to medications for families across central Indiana.

Collaboration between pharmacy staff and clinical teams also remained a priority. Our pharmacists worked directly with providers to optimize treatment regimens, manage chronic conditions, and provide patient education to improve adherence. This personalized approach reflects our mission to deliver care that is not only comprehensive but compassionate.

“At WindRoseRx, every prescription tells a story of care. Our mission goes beyond dispensing medications—we focus on building trust, removing barriers, and helping patients achieve better health outcomes.”

WINDROSE SERVICE AREA

Understanding the needs of our patients begins with understanding the communities we serve. WindRose’s service area spans urban and rural regions of central Indiana, where diverse populations bring unique challenges and opportunities for care. In 2024, we continued to respond to these needs with flexible services, expanded clinics, and outreach efforts tailored to local priorities. By staying rooted in community context, WindRose ensures care is relevant, equitable, and impactful.

LOCATIONS AND CARE TEAMS

Healthcare is personal, and so are the people behind it. WindRose’s five clinic locations and dedicated providers anchor our mission in neighborhoods across the service area. In 2024, our team of physicians, nurse practitioners, chiropractors, dentists, therapists, and support staff worked tirelessly to ensure seamless, coordinated care. Each provider embodies the values of stewardship, compassion, and quality—transforming clinic visits into trusted patient relationships.

PATIENT INSIGHTS

The true measure of our success lies in the voices of our patients. In 2024, surveys and feedback revealed high satisfaction, loyalty, and confidence in WindRose’s care. These insights guided improvements in convenience, cultural responsiveness, and health education. By listening closely and responding to what patients value most, WindRose continues to build a healthcare experience shaped not by statistics alone, but by lived experiences of dignity and trust.

ADMINISTRATORS

Behind every provider is a team of administrators who ensure operations run smoothly and strategically. In 2024, WindRose’s administrative leaders strengthened partnerships, advanced compliance, and supported staff through professional development. Their behind-the-scenes efforts created the structure that allows our frontline teams to deliver exceptional care. This alignment of leadership and mission highlights that stewardship is not only financial but also relational and operational.

2024 Employee Excellence Winner

This Year’s Winner is Jennie Maethner!

Every year, WindRose recognizes individuals who exemplify the values of our organization through exceptional service. The 2024 Employee Excellence Winner represents the best of who we are: compassionate, innovative, and committed to patients. Their dedication is a reminder that every role, whether visible to patients or not, contributes to making WindRose a place where specialty truly means “you.”

Congratulations to Jennie on this well-deserved honor!

2024 Provider of the Year

Jennifer Hardisty, NP-C

Excellence in healthcare is best embodied by those who care for patients daily. The 2024 Provider of the Year honors a clinician whose commitment, expertise, and compassion uplift both patients and colleagues. Their work reflects not just clinical skill but also the heart of our mission—to see and serve each patient as a whole person.

Congratulations, Jennifer!
