Our former vice president and pledge educator came and spoke to the chapter about how to be academically and professionally successful. Many brothers looked up to him because of all he did in the chapter and his current career plans. His presentation was conveniently during chapter so we had a very high attendance. Jim Krampen is a close friend of the chapter who co-founded his own travel insurance company in 1993. He has a unique leadership strategy where he is not one of the top executives despite having being an initial founder of the company. He came and spoke to our brothers during chapter, so a lot of brothers were in attendance. His talk was about how he still leads his company in the right direction despite not being the CEO.
