

## REQUIREMENTS

- Internet connection
- Easily accessed from the ClinicalConnect HIE website or from a web browser
- A recent version of any standard web browser (i.e. Internet Explorer, Firefox, Chrome, Safari)
- Direct Email Address(es)
- Other Direct users with which to securely exchange patient information
- An Electronic Health Records system (EHR) is not required to use ConnectDirect

**For more information, please visit [clinicalconnecthie.com](http://clinicalconnecthie.com)**

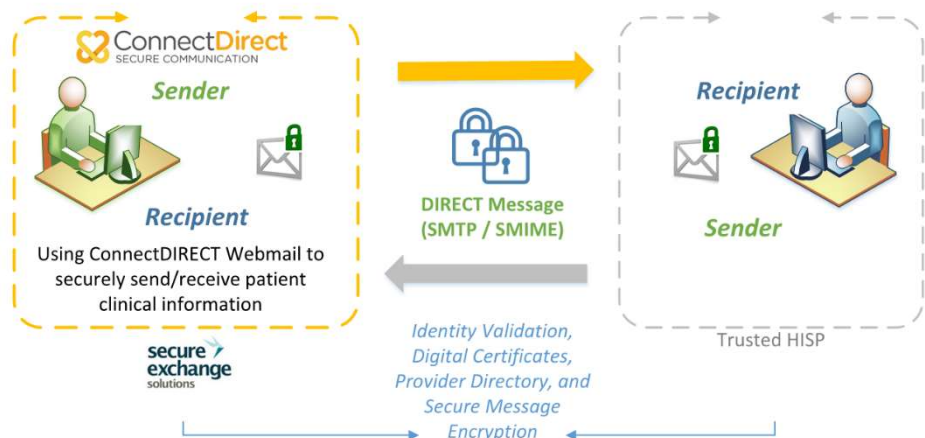

## ConnectDirect – A standalone, HIPAA-compliant, secure email platform for the exchange of protected health information (PHI).

This service **improves patient care**, provides critical data to **support care coordination**, helps **lower healthcare costs**, and aides in **regulatory compliance** with the CMS Interoperability and Patient Access Rule.

## BENEFITS

- Secure webmail which functions like regular e-mail
- Replaces slow, inconvenient, & expensive methods of exchange such as mail, fax, or courier exchange
- For sensitive data, such as behavioral health, ensures that data is sent only to pre-selected, authorized providers and is not available in a query based HIE
