

This week we're trying out pancake art!

Supplies:

- 3 cups pancake batter mix (any brand)
- 2 ½ cups water (use more or less to make the batter the consistency of runny ketchup)
- Food coloring
- Griddle or non-stick pan
- Plastic squeeze bottles (or recycled condiment bottles)

Directions:

1. Add your water to your pancake mix and mix with a handheld mixer to remove the lumps. (Add more water if needed until you reach the runny ketchup consistency)
2. Add your pancake batter to your squeeze bottles using a measuring cup
3. Add food coloring and stir with a knife until no streaks of batter remain
4. Heat your griddle to 200°F (lowest setting) for 10 minutes or set your non-stick pan onto your stovetop and set the temperature to low
5. Draw the outline of your design using a reference photo with the black squeeze bottle
6. Fill in the outline with the colors of your choice
7. Turn the temperature up to 250°F and continue cooking until the surface of the pancake looks dry and you can slide a spatula under the pancake without it sticking
8. Flip your pancake over and cook for one more minute then serve!
