Health Resources and Services Administration
Indiana Rural Health Association Conference

June 2018

Amanda Waldrup, MS, CHES
Public Health Analyst, Office of Regional Operations
Region 5 – Chicago
Health Resources and Services Administration

Covered in this Presentation

- Overview of HRSA Programs
- Technical Assistance Resources
- How HRSA is addressing the Opioid Epidemic
- Chicago's Office of Regional Operations

Health Resources and Services Administration (HRSA) Overview

Supports more than 90 programs that provide health care to people who are geographically isolated, economically or medically vulnerable.

The agency funds grants and cooperative agreements to more than 3,000 awardees, including community and faith-based organizations, colleges and universities, hospitals, state, local, and tribal governments, and private entities

Every year, HRSA programs serve tens of millions of people, including people living with HIV/AIDS, pregnant women, mothers and their families, and those otherwise unable to access quality health care

HRSA
Health Resources & Services Administration

HRSA Funding (dollars in millions)

HRSA Program	FY 2018 Enacted	FY 2019 Request
Primary Health Care	$5,511	$5,092
HIV/AIDS	$2,319	$2,260
Health Workforce	$1,516	$477
Maternal and Child Health	$1,293	$1,136
Rural Health	$291	$75
Family Planning*	$286	$286
Program Management	$155	$152
Healthcare Systems	$112	$117
Vaccine Injury Compensation	$9	$9
TOTAL	$11,492	$9,604

*Administered by the HHS Office of the Assistant Secretary for Health, Office of Population Affairs.

HRSA Fast Facts

https://sharepoint.hrsa.gov/oa/oc/Documents/2017-HRSA-fast-facts.pdf

Health Center Program

- Roughly 1,400 HRSA-supported health centers operate more than 10,400 service delivery sites across all U.S. states and territories

- Nearly 26 million people, or 1 in 12 nationwide, rely on a HRSA-funded health center for affordable, accessible primary health care, including:
  - 1 in 3 people living in poverty
  - 1 in 6 rural residents
  - 1 in 10 children
  - 330,000+ veterans

Program	FY 2017 Funding	Distinct Grantees
Health Center Program	$70,846,504	25

Health Center Program

- 68% of diabetic health center patients have their disease controlled (HbA1c <9%), exceeding the national average of 55%[1]

- 62% of hypertensive health center patients have their blood pressure controlled, exceeding the national average of 55%[2]

- 63% of pediatric patients received weight assessment and counseling for nutrition and physical activity, compared to PPO provider scores of 46% for weight assessment, 47% or nutrition counseling, and 42% for physical activity counseling[3]

- 60% of patients are screened for depression, exceeding the national screening rates of 4.2% in office-based primary care settings[4]

- 67% of health centers are recognized as Patient-Centered Medical Homes

[3] Weight Assessment and Counseling for Nutrition and Physical Activity for Children/Adolescents, National Committee for Quality Assurance, The State of Health Care Quality (2016)
[4] National Rates and Patterns of Depression Screening in Primary Care: Results from 2012-2013, Psychiatric Services

HRSA
Health Resources & Services Administration

Ryan White HIV/AIDS Program

- Grants to cities, states, and local community-based organizations to provide HIV care and treatment services to low income people living with HIV

- More than half of the people living with diagnosed HIV in the United States—more than 500,00 people—receive services through the Ryan White HIV/AIDS program

- 85% of Ryan White HIV/AIDS Program clients are virally suppressed, up from 70% in 2010, and exceeding the national average* of 58%

FY 2017 Funding
$46,094,931

*Viral suppression among people >=13 years old diagnosed with HIV in 34 states and DC
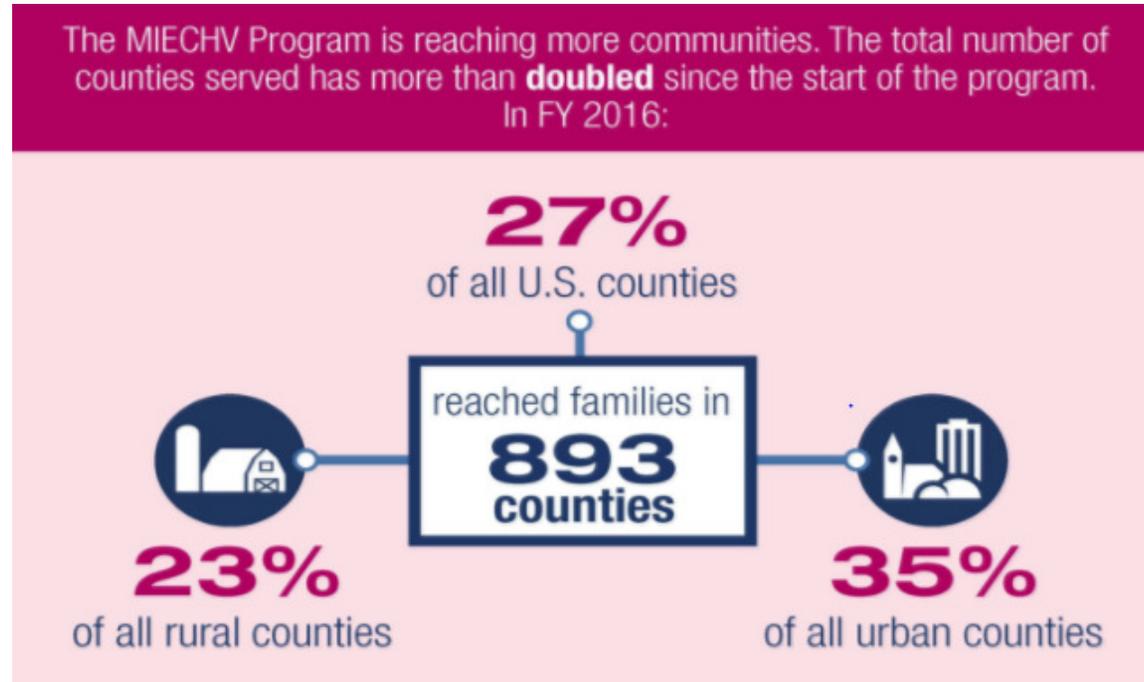

Maternal and Child Health Block Grant

- Grants to 59 states and jurisdictions to provide health care and services to nearly 54 million mothers and children in the United States, including:
  - 2/3 of all pregnant women
  - 1/2 of all infants and children
    - including those with special health care needs
- Between 2000 and 2015, the national:
  - Infant mortality rate declined 15%
  - Child mortality rate declined 24%

FY 2017 Funding	Distinct Grantees	Distinct Grants
$25,933,160	5	11

Maternal, Infant, and Early Childhood Home Visiting

- Evidence-based home visiting services for at-risk pregnant women and parents with young children up to kindergarten entry

The MIECHV Program is reaching more communities. The total number of counties served has more than **doubled** since the start of the program. In FY 2016:

27%
of all U.S. counties

reached families in
893 counties

23%
of all rural counties

35%
of all urban counties

- Research shows home visits preventing child abuse and neglect, improving maternal and child health, and promoting child development and school readiness

HRSA
Health Resources & Services Administration

National Health Service Corps and NURSE Corps

- Supports 12,000+ scholarships and loan repayments in exchange for service in high-need areas
  - National Health Service Corps (NHSC) currently supports primary care physicians, dentists, physician assistants, nurse practitioners, behavioral health providers, and other primary care providers and health professions students
  - NURSE Corps currently supports licensed registered nurses and nurse faculty members
- NHSC and NURSE Corps clinicians provide care to more than 12 million people nationwide, including over 3.5 million rural residents

FY 2017 Funding	
NHSC	$2,080,664

FY 2017 Funding	
NURSE Corps	$1,755,592

2018 HRSA Virtual Job Fairs Schedule

2018 VIRTUAL JOB FAIRS

BUREAU OF HEALTH WORKFORCE

The Bureau of Health Workforce improves the health of the underserved and vulnerable populations by strengthening the health workforce and connecting skilled professionals to communities in need. Virtual Job Fairs are online recruitment events that connect job-seeking primary care clinicians with health care delivery sites. The goal of Virtual Job Fairs is to help recruit and retain primary care clinicians at sites located in underserved communities nationwide.

HRSA Health Resources & Services Administration

Graduate Medical Education Programs

- The **Children's Hospital Graduate Medical Education Program** funds freestanding children's hospitals to support the training of 48% of all pediatric residents and 53% of all pediatric subspecialty residents annually.
  - In Academic Year 2015-2016, grantees trained 11,500 residents (44% pediatric residents, 26% pediatric sub-specialty residents, 27% other medical and surgical specialty residents)

- The **Teaching Health Center Graduate Medical Education Program** supports primary care and dental residency programs and improves workforce distribution into rural and underserved areas by focusing training in community-based ambulatory settings.
  - In Academic Year 2016-2017, grantees trained 771 residents and graduated 248 new primary care physicians and dentists; and 83% of sponsored residents trained in medically underserved or rural communities, providing over 795,000 hours of patient care

Health Care Systems

- **Organ Transplantation**
  - Currently, over 130 million people are registered to be organ donors—an all time high
  - Over 16 million people are registered to be bone marrow donors
  - In 2016, HRSA-supported transplantation programs facilitated:
    - 33,600 organ transplants (the highest ever)
    - 6,000 bone marrow and cord blood transplants
- **340B Drug Pricing Program**
  - Drug manufacturers provide discounts to eligible entities that meet criteria for serving safety net patients
  - Qualified safety net organizations obtain a 25-50% discount on outpatient drugs with sales totaling $16 billion in 2016

Intimate Partner Violence (IPV) Strategy

- **PRIORITY 1**
  - TRAIN THE NATION'S HEALTH CARE AND PUBLIC HEALTH WORKFORCE TO ADDRESS IPV AT THE COMMUNITY AND HEALTH SYSTEMS LEVELS

- **PRIORITY 2**
  - DEVELOP PARTNERSHIPS TO RAISE AWARENESS ABOUT IPV WITHIN HRSA AND HHS

- **PRIORITY 3**
  - INCREASE ACCESS TO QUALITY IPV-INFORMED HEALTH CARE SERVICES ACROSS ALL POPULATIONS

- **PRIORITY 4**
  - ADDRESS GAPS IN KNOWLEDGE ABOUT IPV RISKS, IMPACTS, AND INTERVENTIONS

HRSA
Health Resources & Services Administration

Intimate Partner Violence (IPV) Strategy

- **PREGNANT WOMEN:**
  - Nearly 1/2 of pregnancy-related homicides are associated with IPV.
  - IPV increases risk for abdominal trauma, STIs, hypertension and diabetes due to increased stress which increases the likelihood of preterm labor and low birth weight

- **ADOLESCENTS:**
  - 2/3 teen boys and 7/10 adolescent girls have experienced relationship abuse, including psychological abuse.

- **INDIVIDUALS LIVING IN RURAL AREAS**:
  - IPV prevalence may be equal to/slightly higher than rates in non-rural areas.
  - Survivors living in rural areas face numerous unique barriers to accessing IPV-related health and social services.
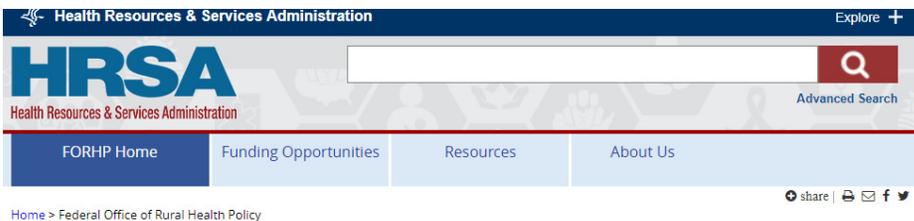

Federal Office of Rural Health Policy (FORHP)

Federal Office of Rural Health Policy (FORPH)

The Federal Office of Rural Health Policy provides policy support to the Office of Secretary and supports a number of rural health programs, including rural health networks, black lung clinics, telehealth, and veterans rural health access programs

- **Telehealth Network Grant Program:** Since 2005, supported 3,500 new or expanded telehealth sites; nearly a 10% increase from 2015 to 2016

- **Medicare Rural Hospital Flexibility Program:** 96% of Critical Access Hospitals (CAH) reported at least one Medicare Beneficiary Quality Improvement measure and 80% of CAHs showed improvement in at least one quality measure

FY 2017 Funding
$3,523,407

HRSA Health Resources & Services Administration

FY19 Grant Programs
*These programs will be competitive in 2019

- **Rural Health Network Development <u>Planning</u> Program**
  - *Funding application available winter 2018*

- **Small Health Care Provider Quality Improvement Program**
  - The purpose of this grant program is to improve patient care and chronic disease outcomes by assisting rural primary care providers with the implementation of quality improvement (QI) initiatives.
  - *Funding application available winter 2018*

- **Rural Health Network Development Program** (*3 year grant program*)
  - Community-based grant program for mature rural health networks that have combined the functions of the entities participating in the network in order to address the unique healthcare needs of the community.
  - Networks are encouraged to have broad representation from traditional and non-traditional healthcare partners, including community and social service agencies to promote population health.
  - Programs must support at least one of the following statutory charges
    - (i) Achieve efficiencies
    - (ii) Expand access to, coordinate, and improve the quality of essential health care services
   - (iii) Strengthen the rural health care system as a whole

HRSA Technical Assistance Resources

Telehealth Resource Centers

Center for Connected Health Policy

National Telehealth Technology Assessment Center

http://www.telehealthtechnology.org/

Telehealth Resource Centers for Region 5

Upper Midwest Telehealth Resource Center

Serving Indiana, Illinois, Michigan and Ohio

Phone: 855-283-3734

Great Plains Telehealth Resource & Assistance Center

Serving North Dakota, South Dakota, Minnesota, Iowa, Wisconsin and Nebraska

Phone: 888-239-7092

Examples of TRC Technical Assistance

- Help hub sites receive technical assistance on selecting technologies, platforms, and purchasing options that will work for all of its spokes

- Assist with assessing available wireless and broadband strengths in the region

- Collaborate with hub staff on providing training with rural spoke clinics

- Assist hub and spoke sites on understanding telehealth regulations, reimbursement models, and parity laws in states

Office for the Advancement of Telehealth (OAT)

- **Promotes the use of telehealth technologies for health care delivery, education, and health information services.**

- **OAT provides funds to promote and improve telehealth services in rural areas and medically underserved areas and populations.**

- **Funding include the following telehealth programs:**
  - Telehealth Network Grant Program
  - Evidence-Based Tele-Emergency Network Grant Programs
  - Rural Veterans Health Access Program
  - Licensure Portability Program
  - Rural Child Poverty Telehealth Network Grant Program
  - Telehealth Resource Center Grant Program

How HRSA Is Addressing the Opioid Epidemic
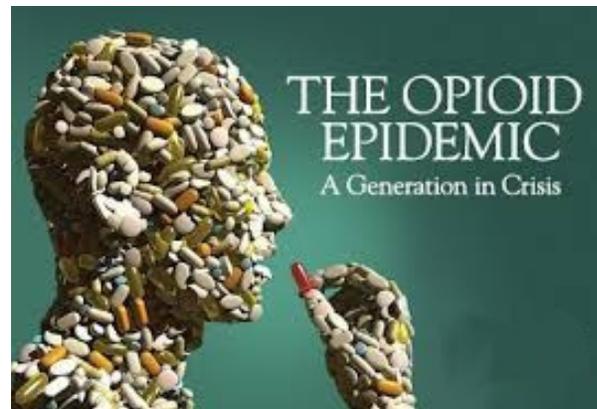

How HRSA is Addressing the Opioid Epidemic

- Expanding access through health centers and other primary care settings
- Using telehealth to treat opioid use disorders
- Connecting stakeholders to opioid-related resources
- Sharing best practices and regional approaches
- Increasing opioid use disorder training in primary care
- Informing policy and future investments
- Addressing opioid-related poisonings and overdoes

For more detail information and resources on *How HRSA is Addressing the Opioid Crisis -* https://www.hrsa.gov/opioids

Expanding Access through Health Centers and other Primary Care Settings

- In 2016, awarded $94 million to 271 health centers through the *Substance Abuse Services Expansion* Funding to increase capacity to treat patients with substance use disorder.

- In 2017, awarded $200 million to 1,178 health centers to expand mental health services and substance use disorder treatment.

- In 2017, *Rural Health Opioid Program* provided approximately $2.5 million for 10 rural health organizations across nine states to help communities struggling with opioid use disorder find local treatment options and support services.

- *Title V Maternal Child Health Services Block Grant Program* allows states the flexibility to address high-need issues for maternal and child health, including screening tools for early detection of high-risk women and standardizing care for infants with neonatal abstinence syndrome.

- *340B Drug Pricing Program* supports affordable medication-assisted treatment.

HRSA
Health Resources & Services Administration

The SAMHSA-HRSA Center for Integrated Health Solutions

- The SAMHSA-HRSA Center for Integrated Health Solutions (CIHS) promotes the development of integrated primary and behavioral health services to better address the needs of individuals with mental health and substance use conditions, whether seen in specialty behavioral health or primary care provider settings. CIHS is funded jointly by the Substance Abuse and Mental Health Services Administration(SAMHSA) and the Health Resources and Services Administration (HRSA), and run by the National Council for Behavioral Health

- CIHS provides training and technical assistance to community behavioral health organizations, community health centers, and other primary care and behavioral health organizations.

- Source: https://www.integration.samhsa.gov/about-us/about-cihs

Connecting Stakeholders to Opioid-related Resources

- Supports training dissemination and information portals that provide resources on emerging public health issues including opioids.
    - **Rural Health Information Hub** – opioid resources and toolkits targeted to rural providers.
    - **Target Center** – helps providers caring for persons living with HIV/AIDS.
    - **MCH Navigator** – access learning tools to help mothers with opioid use disorder and infants with neonatal abstinence syndrome.

    - Through Ten Regional Offices-share information and connect stakeholders to opioid resources. Staff take part in local, state, and federal opioid workgroups, taskforces, and meetings with local and state health departments and Tribal organizations.

HRSA
Health Resources & Services Administration

RHIhub – Rural Prevention and Treatment of Substance Abuse Toolkit

Provides evidence-based examples, promising models, program best practices, and resources

https://www.ruralhealthinfo.org/toolkits/substance-abuse

Increasing Opioid Use Disorder Training in Primary Care

- In 2017, provided over $ 4 million in supplemental funding for medication-assisted treatment training to nearly 60 Primary Care *Training and Enhancement Program* grantees.

- Funded *Area Health Education Centers (AHEC)* to develop and enhance health education and trainings, including on opioid use disorder prevention.

- The *Behavioral Health Workforce Education and Training Program (BHWET)* establishes and expands interdisciplinary behavioral health training for students/interns, faculty, and field supervisors.

- The *Health Center Program* provides extensive training and technical assistance to potential and existing health center grantees nationwide, including opioid use disorder treatment and pain management.

- Source: Website - https://www.hrsa.gov/opioids

HRSA
Health Resources & Services Administration

Addressing Opioid-Related Poisonings and Overdoses

- In 2017, awarded $17.1 million to support all *55 Poison Control Centers'* efforts to prevent and provide treatment recommendations for poisonings, including from misuse of prescriptions and illicit opioids.

- The *Rural Opioid Overdose Reversal Program Best Practices Guide* provides a summary of lessons learned from HRSA's Rural Opioid Overdose Reversal Program that supported overdose education and naloxone distribution programs in rural communities. HRSA Upcoming Funding Opportunity

COMING SOON!

The Rural Communities Opioid Response Funding Opportunity!

- The Health Resources and Services Administration's (HRSA) Federal Office of Rural Health Policy (FORHP) plans to award up to 75 grants to rural communities as part of a new Rural Communities Opioid Response (Planning) (RCORP) initiative in FY 18.

- Successful awardees will receive up to $200,000 for one-year to develop plans to implement opioid use disorder prevention, treatment, and recovery interventions designed to reduce opioid overdoses among rural populations.

- The initiative will focus on the 220 counties identified by the Centers for Disease Control and Prevention (CDC) as being at risk (PDF – 158 KB), as well as other high risk rural communities.

- The lead applicant must be part of a group including at least three other partners that have committed to forming a consortium or are part of an established consortium.

- This initiative is part of a three-year Rural Communities Opioid Response initiative by HRSA aimed at supporting treatment for and prevention of substance use disorder.

- Please watch www.hrsa.gov and www.grants.gov for the Notice of Funding Opportunity anticipated *later this spring,* 2018.

- Date Last Reviewed: April 2018

- https://www.hrsa.gov/about/news/press-releases/hrsa-rural-communities-opioid-response-initiative-fy2018

Chicago Regional Highlights

Office of Regional Operations
Ten Regions – One HRSA

Office of Regional Operations - Chicago
The Regional Team

Tamara Cox	Deputy Regional Administrator	**Non-Traditional Public Health Populations, Justice Involved, Homelessness, Flint Water Crisis, Emergency Preparedness, Liaison to OASH**
Anne Huang	Nurse Consultant	**Opioids, Tribal, Behavioral Health, Clinical, Surveillance, PCA Lead for WI, MN, IL**
Amanda Waldrup	Public Health Analyst	**Minority Populations, Women, Health Disparities, Infant Mortality, NAS, Rural, HIV, LGBTQ, PCA Lead for MI, OH, IN**
Rene Compton	Administrative Officer	**Being Super Woman!**

Office of Regional Operations
Core Functions

External Affairs & Outreach
- Represent HRSA
- Serve as regional leaders
- Conduct outreach to increase knowledge about HRSA's program, and priorities

Strategic Stakeholder Partnerships
- Engage federal, state, and local partners
- Build relationships to advance HRSA priorities
- Provide targeted strategic action

Regional Surveillance
- Identify & report ground-level communications and information
- Used to inform HRSA's operations, decision-making, and allocation of resources

Regional Management
- Ensure the efficacy of regional resources
- Human capital, COOP, technology, and facilities management

Circular diagram segments: External Affairs & Outreach, Strategic Stakeholder Partnerships, Regional Management, Regional Surveillance

Office of Regional Operations
Regional Highlights- Webinars/Trainings

In partnership with HHS Region 5 Offices of SAMHSA and HRSA, the Great Lakes ATTC offered webinars on the importance of integration of substance use disorder services and primary care.

Five Webinars:

- January 19, 2017 -Substance Use and Mental Health Disorders: Challenges for Primary Care
- February 21, 2017 - Integrating SBIRT into Primary Care
- April 27, 2017 - Spirit of Motivational Interviewing
- May 31, 2017 - Recipe Book for Medication Assisted Treatment (MAT) Integration
- June/July 2017 - Safe Prescribing for the Prescriber

Connect

When might ORO reach out to you?

- When HRSA has information about new funding opportunities, policies, resources, or priorities

- When HRSA is convening stakeholders or brokering relationships

- When HRSA is collecting information to inform an issue

- When HHS or HRSA is interested in being present at a meeting or event

- When HRSA is developing partnerships

- Simply to connect!
