To: Whom it may concern

Subject: Pauly Jail Building Company Inc.

Woodbury County Constructed and recently competed a new \$60 Million Law Enforcement/ Detention Center located in Sioux City, Iowa. Pauly Jail Building Company installed Inmate Housing Cells, Detention Doors, & Equipment. The project was unique in that the General Contractor created some abnormalities not always associated with a project. Although the problems were not created by Pauly Jail they provided valuable input on corrective actions that could be taken to achieve a successful outcome.

Throughout the project and after completion Pauly Jail employees performed above standard work quality. They conveyed a family friendly demeanor with an unparalleled can-do work ethic.

It is clearly apparent that the Joe Pohrer establishes a mindset whereby his company is truly concerned about aligning the goals of their clients, providing a quality product and achieving on time results.

I would be amiss if I also did not acknowledge Travis Bush, and Tristen Bush who I would like to thank for the initial installations and any future service needs of Woodbury County, Iowa.

I would be glad to provide any further input or recommendations upon request and can be contacted by email [kschmitz@woodburycountyiowa.gov](mailto:kschmitz@woodburycountyiowa.gov) or my Office at 712-279-6539.

Respectfully,

Kenny Schmitz
