

APS 2000® Vehicle Restraint

APS Resource®
Your Aftermarket Solution

APS 2000®

The APS 2000® is a superior rotating hook, impact-style vehicle restraint that is developed specifically to reduce the occurrence of accidents at the dock. The APS 2000 combines an advanced LED communication system with a low-profile restraint carriage. It also has an impact extension bar that accommodates a wide range of lower impact guards. The durable, low maintenance APS 2000 is a significant improvement over other rotating hook restraints.

Narrow 9.5" x 21"
Heavy-Duty Industrial
Control Box

Low-Profile 6" x 6"
Heavy-Duty Industrial
Light Box

Universal Red and Green LED Lights/Symbols

Advanced LED Communication System:

- Universal red and green light/symbol communication inside and outside the dock
- Position signaling
- Keyed override switch with audible alarm
- LED status lights in control box for easy troubleshooting

Vehicle Restraint

Causes of dock accidents:

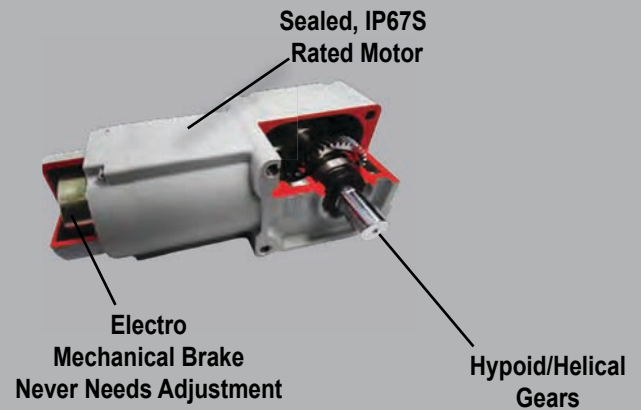

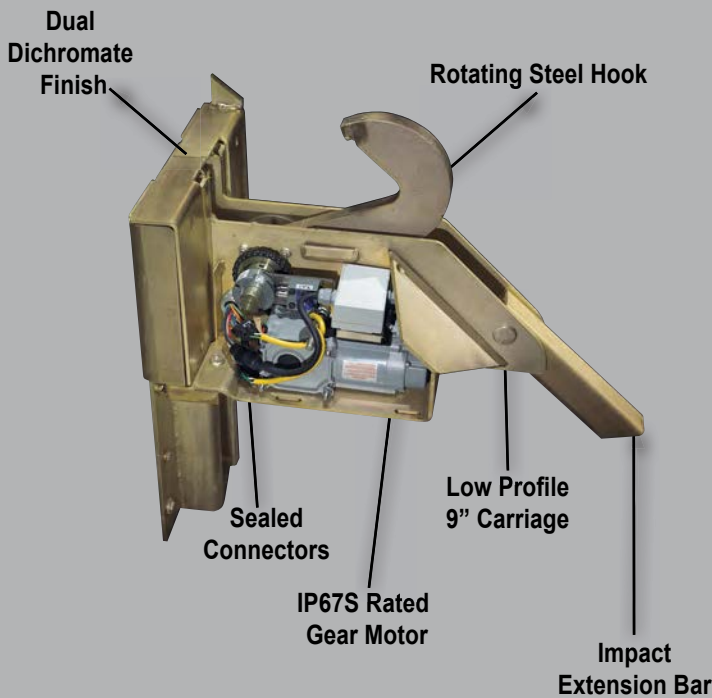

Early truck departure is the result of miscommunication between truck driver and forklift operator resulting in the truck leaving the dock prematurely.

Constant impact of start/stop action of a fully loaded forklift can cause the trailer to creep forward inch by inch, beyond the reach of the leveler lip, causing the leveler to slip off the back of the trailer and to drop suddenly.

The inertia of the forklift in the front of the unsupported trailer causes the landing gear to collapse or the trailer to up-end.

Restraint Carriage Features:

- A low-profile 9" carriage
- An impact extension bar with a service range of 9" to 25"
- Rotating steel hook engagement
- Zinc and dichromate plating for all-weather durability

Standard IP67S-Rating Gear Motor:

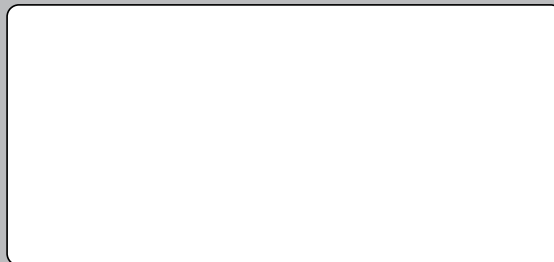

- IP67S-rating protects against the effects of immersion in water
- Water tight electrical connectors
- Never needs adjustments -sealed for life
- Automatic re-engagement

APS RESOURCE'S COMPREHENSIVE LINEUP INCLUDES:

airDefense® Retro Fit Kits
APS&GO-LED™ Safety Light Systems
APS 2000® Rotating Hook Vehicle Restraint
ATC - Air Conversion Kit™
Bollard Covers
