Dear Diane,

I am pleased to provide Pauly Jail a letter commending your company with the great work they did on the installation of the detention hardware on our Juvenile Home project. Throughout our experience with Pauly Jail, the company performed in a highly professional, courteous and timely manner. As with any project the size of ours there were issues that needed resolving in the field and Pauly was always making sure our needs were being met and that we were satisfied with the finished project.

As part of our overall satisfaction with the performance of Pauly Jail I was most satisfied with the expertise of the on-site staff who not only exhibited a thorough knowledge of the products but also a thorough knowledge of detention operations. This was extremely helpful in communicating to us how the detention hardware can be damaged through misuse and things we should be aware of to extend the life of our equipment. In addition, the training provided by Pauly staff has proven critical to safely and securely operating our facility.

I would not hesitate to recommend Pauly Jail to anyone undertaking a detention facility or jail construction project. Please feel free to call on me at any time for a recommendation or showing of the work you performed at our facility to prospective clients.

Sincerely,

A handwritten signature in cursive script, appearing to read "Frank Weichlein".
