

## Upper Level Math Course Decline Form

Student Name: \_\_\_\_\_ Grade: \_\_\_\_\_

Post-Secondary Plan: \_\_\_\_\_

Many Colleges and Universities are now requiring students to have a fourth year of upper level math that includes Pre-Calculus in order to be admitted. Students who choose not to take Pre-Calculus might not be admitted to a four-year College/University and may not be eligible for participation in college athletics through the NCAA.

In addition, an upper level math course such as Pre-Calculus or AP Statistics is a requirement for an Academic Honors diploma.

I was advised by the school guidance department that by taking an upper level math course, my opportunities upon graduation are maximized and by not having an upper level math course, my opportunities may be limited.

Upon careful consideration, I am choosing to decline the opportunity to take an upper level math course such as Pre-calculus or AP Statistics at Union County High School.
