# WEBINAR ITINERARY & SPEAKERS

## PAULY JAIL BUILDING COMPANY

As the oldest professional correctional facilities contractor in the United States, Pauly Jail has the historical perspective it takes to fully understand the real needs of the justice and correctional environment.

### **MODERATOR: Mr. Joseph Pauly Pohrer III, President**

- Mr. Joseph Pohrer is the president of the Pauly Jail Building Company, and he is a fifth-generation family member to run the company. He currently oversees sales, marketing, and bidding for the business.
- Mr. Pohrer also developed the first-of-its kind National Training and Educational Seminar for correctional projects. His programs and acumen have established Pauly Jail as one of the leading Detention Equipment Contractors in the country.

### **Mr. Jared Bailey, Vice President of Operations**

- Mr. Bailey has been a member of the Pauly Jail team for over a decade, and he has over 15 years of experience in the construction and corrections industry.
- He has been involved in the construction of over 100 correctional projects, and he currently leads the operations and construction team for Pauly Jail. Mr. Bailey provides the leadership for the Pauly Jail team on Design Assist and Design Build projects.

**TOPIC:** Mr. Bailey will be addressing the Design Assist process and the advantages it brings to both the construction industry and correctional market. The Design Assist process allows subcontractors to become involved at the beginning of the design process and provide industry expertise for design, budgeting and constructability in a specialty market.

**PAULY JAIL BUILDING COMPANY WILL BE GIVING A TOUR OF A RECENTLY COMPLETED DETENTION FACILITY UTILIZING THE PAULY JAIL TEAM DESIGN ASSIST PROGRAM, WHICH BROUGHT THE PROJECT IN UNDER BUDGET & AHEAD OF SCHEDULE.**

## ACCURATE CONTROLS

### **LIVE FROM THE MANUFACTURING FACILITY**

Accurate Controls is the leading provider of security automation systems for the corrections industry.

### **Mr. TJ Rogers, Chief Executive Officer**

- Mr. Rogers has been with the company since its inception in the corrections market and has over 32 years of experience in the security electronics industry.
- TJ works closely with architects, engineers, construction managers, and contractors nationwide on technical systems designs and innovations for the corrections industry.

**TOPIC:** Mr. Rogers of Accurate Controls will be discussing the security automation design in the post-pandemic environment. This will include discussion of functionality influences and introduction of new technology that includes light temperature control, facial recognition with temperature screening, virtual watch tour, virtual escort, and inmate tracking.

# WEBINAR ITINERARY & SPEAKERS

## TITAN STEEL DOOR

### LIVE FROM THE MANUFACTURING FACILITY

Titan Steel Door is a market leader in the detention hollow metal industry, by combining experience and innovation, Titan excels at project success by delivering high quality products on time.

#### Mr. Damon Santimauro, Vice President

- Mr. Santimauro is in his 21st year of the metal fabrication industry and his 4th year focused on corrections. Mr. Santimauro leads the USA Production Parts family of companies (USA Production Parts, Titan Steel Door, Patriot Tool & Die) across all five locations.

#### Mr. Phillip Loggins, General Manager

- Mr. Loggins is in his 31st year in the corrections industry. He oversees all day-to-day operations of Titan. Mr. Loggins brings a hands-on approach to the product while drawing from his experiences of running a HM manufacturing plant for 20+ years as well as his field and site knowledge.

**TOPIC:** Mr. Santimauro & Mr. Loggins will be discussing the manufacturing methods of Titan Steel Door. They will provide insight of their internal supply chain along with highlighting their streamline manufacturing process. Discussion will also include topics focused on capacity, lead times, and the design submittal process.

### TOUR THE TITAN STEEL DOOR MANUFACTURING FACILITY

## GRANGER CONSTRUCTION

Granger Construction is a family-owned company founded in 1959. The company has experience across multiple market segments including corrections, healthcare, industrial, and more.

#### Mr. Rob Train, Vice President of Operations

- Rob Train currently serves as Vice President of Operations for Granger Construction. Rob has over 25 years of industry experience with government and agency clients throughout Michigan and Ohio.

#### Mr. Todd Butler, Senior Project Manager

- Mr. Butler serves as the Public Sector and Corrections market segment leader for Granger Construction. Starting in 2010 with the construction of a 1,200 bed prison facility, Todd has since been involved with the solicitation and delivery of nearly all of Granger's correctional projects throughout both Michigan and Ohio.

**TOPIC:** "Building a Successful Team to Deliver Your Project" – The key factor in a successful delivery of a construction project is choosing the right approach and the right project team. Mr. Train and Mr. Butler will discuss the pros and cons of various construction delivery methods and provide examples of integrating team collaboration to ensure a successful project.

# WEBINAR ITINERARY & SPEAKERS

## RR BRINK LOCKING SYSTEMS

### LIVE FROM THE MANUFACTURING FACILITY

Founded in 1976, RR Brink Locking Systems, Inc. specializes in the design and manufacturing of high-security locks, sliding doors, gates, and more.

#### Mr. Charles Brink, President

- Mr. Brink is a second generation owner of RR Brink Locking Systems and has over 34 years of experience in the security lock industry.

**TOPIC:** Mr. Brink will give an inside look at the manufacturing processes of RR Brink Locking Systems and will discuss the options the company offers including both mechanical locks and electro-mechanical locks.

### TOUR THE RR BRINK MANUFACTURING FACILITY

## WILLOUGHBY INDUSTRIES

### LIVE FROM THE MANUFACTURING FACILITY

Willoughby Industries is the market leader in the stainless steel security fixture business, and offers the best in terms of electronic water management controls for correctional plumbing fixtures.

#### Mr. Craig Alderson, President

- Mr. Alderson is in his 26th year in the corrections industry, and as a 3rd generation owner of a family manufacturing business, he leads a 73-year-old company serving the corrections, healthcare, parks, and behavioral healthcare markets.

#### Mr. Will Alderson, Vice President

- Mr. Alderson is the Vice President of Willoughby Industries and has been with the company for 5 years. He has played a key role in making Willoughby the leader in correctional water management systems.

**TOPIC:** Will & Craig will be discussing effective electronic water management system practices and equipment for inmate plumbing. They will detail how to significantly reduce correctional facility water and sewer costs while reducing/eliminating potential for cell flooding caused by inmates. Their discussion will also include how to utilize fixture usage logging and trending functions to provide staff with valuable usage data that can protect against nuisance claims by inmates.

# WEBINAR ITINERARY & SPEAKERS

## NORIX GROUP

### LIVE FROM THE MANUFACTURING FACILITY

For over 35 years, Norix has been the leading provider of specialized furniture for correctional facilities that are safe, secure and built to last.

#### Mr. Peter Graves, Vice-President of Sales and Marketing

- Peter has played a key role in the development of innovative, robust furniture that meets the real world need for humanizing challenging environments.

**TOPIC:** In his presentation, Peter will discuss innovations in detention furnishings, including the “normalized cell” in conjunction with SteelCell of North America.

## STEELCELL OF NORTH AMERICA

### LIVE FROM THE MANUFACTURING FACILITY

SteelCell is the nation’s leading manufacturer of prefabricated detention modules.

#### Mr. Mike Smith, President

- Mr. Smith spent 12 years with Habersham Metal Products in various roles including Vice President and Chief Operations Officer. In 2005, he joined SteelCell of North America as their President and CEO.

**TOPIC:** Mike will review the latest trends and technologies in conjunction with Norix Group, regarding the use of prefabricated cells and related modular product, including; normalized cell designs, non-porous marine and industrial coatings easily sanitized, and rear chase designs.

JOIN US FOR A TOUR OF THE NORMALIZED CELL

## TAKE PART IN A LIVE QUESTION & ANSWER SESSION

IMMEDIATELY FOLLOWING THE FINAL PRESENTATION, THERE WILL BE A LIVE QUESTION AND ANSWER SESSION. THE PRESENTERS WILL BE LIVE AND WILL ALLOW YOUR QUESTIONS TO BE PRESENTED BY THE MODERATOR TO THE APPROPRIATE PRESENTER.
