Dear Joe,

January 14, 2008

I want to take the time to let you know how wonderful our new facility is here at Knox County. Going from a 48 bed facility to a 225 bed facility in June of 2007 was definitely an experience the Knox County Sheriffs' Department will never forget. Having Pauly Jail Building Company involved in the project from the beginning is one of a few factors that have made this transition positive for Knox County.

Pauly's experience in jail building shows before the project begun, during, and after. Every time I needed information pertaining to Pauly's involvement the information was presented in a timely manner. I feel that your leadership and direction helped me and my staff during transition periods. I appreciate the time Pauly Jail Building Company spent with me in the pre-stages of building our project. Our plus 50,000 square foot project has been positive to our community because of your knowledge in building jail facilities. Pauly played a major role in allowing our project to be finished on time and under budget.

I would like to THANK YOU and everyone at Pauly Jail for a positive experience during construction of the Knox County Jail. As the Sheriff of Knox County, I would recommend Paul Jail Building Company for future projects. Their dedication and experience proves why they are the leaders in jail construction and planning.

Sincerely,
