Members: Carry this card at all times. Before hospital admission or surgery (outside the physician's office) or for other services as specified in your plan your physician must call for pre-treatment authorization (pre-certification). Failure to comply may result in a reduction of benefits. Emergency hospital admissions must be reported within 48 hours or by the next regular working day following admission (72 hours in some states).

Providers: Pre-certification must be obtained for services as specified in the member's plan. For pre-certification, call the number shown on this card.

Notice: Possession of the card or obtaining pre-certification does not guarantee coverage or payment for the service or procedure reviewed. We encourage you to use a PCP as a valuable resource and personal health advocate.
