# WHAT OUR COMMUNITY IS SAYING ABOUT US...

**“We don’t know what we would do without you here at the library. There are so many things online we just don't even know where to start half the time. Thank you so much for your help.”**

**“I love the adult bookworm bag idea! Kudos to those picking books that readers might enjoy. Please continue with this program. Have read some excellent books I would not have selected. Thank you!”**

**"I want to thank you for all of your help for many years getting students excited about learning through videos, talks, books and games. Your visits excited students and teachers alike. Even throughout the pandemic and quarantine, you found a way to "come" into our classroom. You are the best! I have always appreciated your presentations. Thank you!"**

**“Thank you so much for doing these kits. My daughters and nieces have me come in to get them every week so they can do them together on the weekends.”**

**About the Adopt a Reading Buddy kit: "Isn't this the neatest idea? We never would have thought of it but we love it!"**
