Re: *Douglas County Jail Annex Project*
Letter of Appreciation/Recommendation

Dear Bob,

Comprehensive Program Services (CPS) would like to offer our sincere appreciation for the exceptional work Pauly Jail Building Company performed on the Douglas County Jail Annex and Renovation Project in Douglasville, Georgia. Although this Design/Build program from the outset had budget, schedule, scope and site conditions that made this Project difficult, the Team collectively performed excellently due to your leadership from the physical and electronic security side of the Project. Most professionals that are in the Jail construction business do not recognize that the key to a successful jail project from both a capital and long term cost standpoint boils down to these two areas. Pauly Jail brought not only the technology but also the correct applications to allow the entire Team to benefit from this successful Project.

Once again, CPS would like to thank Pauly Jail for their dedication to this Project and going more than the extra mile for Douglas County. As the Program and Construction Manager for the Project, we would like to extend Douglas County's thanks as well and would be glad to offer this as a Letter of Recommendation to all of those who may inquire about Pauly Jail Building Company.

Sincerely,

Comprehensive Program Services, Inc.
