

Community/Organization Donation Request

Viriva Community Credit Union is a not-for-profit financial institution serving our members and the community. We understand the importance of giving back, therefore we are dedicated to providing support to our members and local communities. Because of our not-for-profit status, we must limit the number and amount of sponsorships. We do, however, take advantage of advertising opportunities, which will benefit the Credit Union, as well as the community. Such advertising is done on a limited basis and is selected on the following criteria:

- Level of advertising benefit for Viriva Community Credit Union
- Ability of advertising to target our field of membership
- Availability of funds in our community advertising/sponsorship budget
- Preference given to requests made by current Credit Union members

Organization Name: _____

Contact Person: _____

Mailing Address: _____

Day Telephone: _____

Email Address: _____

Please describe the purpose of your organization: _____

Donation Requested: Item(s): _____ Funds: \$ _____
