STRATEGIC PLAN

A strong, vibrant community and a skilled workforce make Johnson County Indiana stand out among Midwestern communities. We believe that these assets can be used as catalysts for further development.

To establish a path forward for the county, Aspire has developed a 5-year strategic plan that identifies opportunities and corresponding goals. By 2025, we are working to achieve two key goals:

- Attract and develop 50% more advanced industries jobs
- Grow average annual wages by 15% for all workers

Our data-driven approach has helped us develop a series of goals that will ensure our economy and communities flourish in the next five years and well into the future. When measured collectively, these goals will have a positive impact on the wider community.

1. Drive innovation to boost business and industry development.
2. Boost site development for catalyst projects.
3. Nurturing community collaboration and engagement.
4. Embrace and pursue opportunities for enhanced livability and quality of place.
5. Magnify and deliver robust education and workforce endeavors.

Aspire Johnson County was formed to create a stronger, more unified engine to drive economic growth and business success. Setting the bar high is in our name.

"Lisa reached out to me to review my account. I met with her and she took me through the Aspire website to ensure my presence was completely optimized. After I met with Lisa, my impressions more than doubled. Moreover, the next month became our largest month for commercial jobs in our 4-year history, and the following month was our second highest month ever. The Aspire website optimizations made could be directly correlated to an increase in our commercial business."

ADVOCACY

We believe that Aspire's engagement in legislative issues echoes our investors' collective voice and demonstrates strong leadership. Below you will find our three **legislative session policy priorities**.

WHY PUBLIC POLICY MATTERS TO BUSINESS

A healthy business environment is essential to growing the economy, creating jobs, and improving our quality of life. Decisions made by elected officials have a direct impact on business. Legislative and executive branches at all levels of government regularly consider legislation regulating infrastructure, permitting, taxes, trade, and construction. Aspire's role is to advocate for business interest. We do this by convening forums with business leaders and elected officials, as well as lobbying directly for specific bills and issues. Our Business Advocacy Council (BAC) monitors and researches issues and recommends policy positions. Aspire's board of directors reviews and adopts our final policy positions.

2025 LEGISLATIVE PRIORITIES

Supporting Tax Policies That Attract Talent and Investment | Aspire advocates for tax policies that strengthen Indiana's ability to attract workforce talent and investment in high-demand, high-wage industries such as life sciences, technology, and defense. Indiana consistently ranks among the top states for business tax climate. However, as businesses increasingly prioritize workforce quality alongside tax advantages and infrastructure, Indiana must adapt to remain competitive. To ensure sustainable economic growth, Aspire supports evaluating the impact of state tax proposals on local tax revenue. Reduced local revenue could hinder communities' ability to fund vital quality-of-place initiatives, which are essential for attracting talent and maintaining competitiveness. Any reductions must be offset with alternative funding sources to avoid shifting the burden onto businesses.

Ensuring Equitable Road Funding for Growing Communities | Aspire is also calling for updates to Indiana's road funding formula to ensure equitable support for all road types, particularly in fast-growing communities. Current formulas base funding eligibility on road mileage, disregarding the number of lanes. As a result, a four-lane road receives the same funding as a two-lane road, creating significant challenges for communities facing increasing demands from residents, workers, and businesses. This inequity forces growing communities to focus on basic road maintenance while delaying critical infrastructure projects such as multimodal corridors, beautification efforts, and safety enhancements. Adequate road infrastructure is fundamental to attracting talent and businesses, and underfunding high-growth areas—responsible for Indiana's net residential and GDP growth—threatens the state's economic competitiveness.

Improving Access to Affordable, Quality Childcare | Aspire's third priority is addressing the availability and affordability of early childhood education, a persistent challenge for working parents and a barrier to economic growth. Quality early childhood education not only ensures children are ready for kindergarten but also sets the foundation for long-term academic and professional success. Children who start strong are more likely to meet critical milestones, such as reading at grade level by third grade and graduating high school. Aspire advocates for a focus on affordability, quality, and diversity in childcare options, coupled with comprehensive data collection to guide state policy. Affordable, high-quality childcare serves as a powerful workforce recruitment tool, increasing labor participation by providing parents with stability and confidence in their childcare arrangements.
