Firm Description

Fortitude Private Wealth Inc. (“Fortitude Private Wealth”) was founded in 2014 and began operating as a registered investment advisor in 2017. Joshua D. Zorger is 100% owner.

Fortitude Private Wealth is a fee-only financial planning and investment management firm.

Fortitude Private Wealth does not act as a custodian of Client assets.

An evaluation of each Client's initial situation is provided to the Client, often in the form of a net worth statement, risk analysis or similar document. Periodic reviews are also communicated to provide reminders of the specific course of action that need to be taken. More frequent reviews occur but are not necessarily communicated to the Client unless immediate changes are recommended.

Other professionals (e.g., lawyers, accountants, tax preparers, insurance agents, etc.) are engaged directly by the Client on an as-needed basis and may charge fees of their own. Conflicts of interest will be disclosed to the Client in the event they should occur.

Types of Advisory Services

ASSET MANAGEMENT

Fortitude Private Wealth offers discretionary and non-discretionary asset management services to advisory Clients. Fortitude Private Wealth will offer Clients ongoing asset management services through determining individual investment goals, time horizons, objectives, and risk tolerance. Investment strategies, investment selection, asset allocation, portfolio monitoring and the overall investment program will be based on the above factors. The Client will authorize Fortitude Private Wealth discretionary authority to execute selected investment program transactions as stated within the Investment Advisory Agreement.

Discretionary

When the Client provides Fortitude Private Wealth discretionary authority the Client will sign a limited trading authorization or equivalent. Fortitude Private Wealth will have the authority to execute transactions in the account without seeking Client approval on each transaction.

Non-discretionary

When the Client elects to use Fortitude Private Wealth on a non-discretionary basis, Fortitude Private Wealth will determine the securities to be bought or sold and the amount of the securities to be bought or sold. However, Fortitude Private Wealth will obtain prior Client approval on each and every transaction before executing any transaction.

Item 5: Fees and Compensation

Method of Compensation and Fee Schedule

ASSET MANAGEMENT

Fortitude Private Wealth offers direct asset management services to advisory Clients. Fortitude Private Wealth charges an annual investment advisory fee based on the total assets under management as follows:

Assets Under Management	Annual Fee	Quarterly Fee
Up to \$249,999	1.50%	.375%
\$250,000 to \$499,999	1.25%	.3125%
\$500,000 - \$749,999	1.15%	.2875%
\$750,000 - \$999,999	1.00%	.25%
\$1,000,000 - \$2,999,999	.90%	.225%
\$3,000,000 - \$4,999,999	.80%	.20%
\$5,000,000 - \$9,999,999	.65%	.1625%
\$10,000,000 +	.50%	.125%

This is a tiered or breakpoint fee schedule, the entire portfolio is charged the same asset management fee. For example, a Client with \$750,000 under management would pay \$7,500 on an annual basis. $\$750,000 \times 1.00\% = \$7,500$.

The annual fee may be negotiable based upon certain criteria (e.g., historical relationship, type of assets, anticipated future earning capacity, anticipated future additional assets, dollar amounts of assets to be managed, related accounts, account composition, negotiations with Clients, etc.). Fees are billed quarterly in advance based on the amount of assets managed as of the close of business on the last business day of the previous quarter. If an account is opened at any time other than the beginning of the quarter, the fees for the initial partial period will be billed in arrears along with the advance billing for the first full quarter. Lower fees for comparable services may be available from other sources. Clients may terminate their account within five (5) business days of signing the Investment Advisory Agreement with no obligation and without penalty. Clients may terminate advisory services with thirty (30) days written notice. For accounts opened or closed mid-billing period, unearned fees will be refunded to the Client. Client shall be given thirty (30) days prior written notice of any increase in fees. Any increase in fees will be acknowledged in writing by both parties before any increase in said fees occurs.

For fees that are directly deducted from the account by the custodian:

- Fortitude Private Wealth will provide the Client with an invoice concurrent to instructing the custodian to deduct the fee stating the amount of the fee, the formula used to calculate the fee, the amount of assets under management the fee is based on and the time period covered by the fee;

- Fortitude Private Wealth will obtain written authorization signed by the Client allowing the fees to be deducted; and
- The Client will receive quarterly statements directly from the custodian which disclose the fees deducted.

ERISA PLAN SERVICES

The annual fees are based on the market value of the Included Assets and will not exceed 1%. Fees may be charged quarterly or monthly in arrears or in advance based on the assets as calculated by the custodian or record keeper of the Included Assets (without adjustments for anticipated withdrawals by Plan participants or other anticipated or scheduled transfers or distribution of assets) on the last business day of the previous quarter or month. If the services to be provided start any time other than the first day of a quarter or month, the fee will be prorated based on the number of days remaining in the quarter or month. If this Agreement is terminated prior to the end of the fee period, Fortitude Private Wealth shall be entitled to a prorated fee based on the number of days during the fee period services were provided or client will be due a prorated refund of fees for days services were not provided in the billing cycle.

The fee schedule, which includes compensation of Fortitude Private Wealth for the services is described in detail in Schedule A of the ERISA Plan Agreement. The Plan is obligated to pay the fees, however the Plan Sponsor may elect to pay the fees. Client may elect to be billed directly or have fees deducted from Plan Assets. Fortitude Private Wealth does not reasonably expect to receive any additional compensation, directly or indirectly, for its services under this Agreement. If additional compensation is received, Fortitude Private Wealth will disclose this compensation, the services rendered, and the payer of compensation. Fortitude Private Wealth will offset the compensation against the fees agreed upon under this Agreement. Client may cancel within five (5) business days of signing Agreement with no obligation and without penalty. If the Client cancels after five (5) business days, any unearned fees will be refunded to the Client, or any unpaid earned fees will be due to Fortitude Private Wealth.

FINANCIAL PLANNING AND CONSULTING

Fortitude Private Wealth charges either an hourly fee for financial consulting or a fixed fee for financial planning. Prior to the consulting or planning process the Client will be provided an estimated plan fee. Services are completed and delivered inside of thirty (30) days. Client may cancel within five (5) business days of signing Agreement with no obligation and without penalty. If the Client cancels after five (5) business days, any unearned fees will be refunded to the Client, or any unpaid earned fees will be due to Fortitude Private Wealth. Fortitude Private Wealth reserves the right to waive the fee should the Client implement the plan through Fortitude Private Wealth.

External Compensation for the Sale of Securities to Clients

Fortitude Private Wealth does not receive any external compensation for the sale of securities to Clients, nor do any of the investment advisor representatives of Fortitude Private Wealth.

Item 6: Performance-Based Fees and Side-by-Side Management

Sharing of Capital Gains

Fees are not based on a share of the capital gains or capital appreciation of managed securities.

Fortitude Private Wealth does not use a performance-based fee structure because of the conflict of interest. Performance based compensation may create an incentive for Fortitude Private Wealth to recommend an investment that may carry a higher degree of risk to the Client.

Item 7: Types of Clients

Description

Fortitude Private Wealth generally provides investment advice to individuals, high net worth individuals, trusts, estates, or charitable organizations, corporations or business entities.

Client relationships vary in scope and length of service.

Account Minimums

Fortitude Private Wealth requires a minimum of \$500,000 to open an account. In certain instances, the minimum account size may be lowered or waived.

Item 8: Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis

Security analysis methods may include fundamental analysis, technical analysis, charting, and cyclical analysis. Investing in securities involves risk of loss that Clients should be prepared to bear. Past performance is not a guarantee of future returns.

Fundamental analysis concentrates on factors that determine a company's value and expected future earnings. This strategy would normally encourage equity purchases in stocks that are undervalued or priced below their perceived value. The risk assumed is that the market will fail to reach expectations of perceived value.

Technical analysis attempts to predict a future stock price or direction based on market trends. The assumption is that the market follows discernible patterns and if these patterns can be identified then a prediction can be made. The risk is that markets do not always follow patterns and relying solely on this method may not take into account new patterns that emerge over time.

Charting analysis strategy involves using and comparing various charts to predict long and short term performance or market trends. The risk involved in using this method is that only past performance data is considered without using other methods to crosscheck data. Using charting analysis without other methods of analysis would be making the assumption that past performance will be indicative of future performance. This may not be the case.

Cyclical analysis assumes that the markets react in cyclical patterns which, once identified, can be leveraged to provide performance. The risks with this strategy are twofold: 1) the

markets do not always repeat cyclical patterns; and 2) if too many investors begin to implement this strategy, then it changes the very cycles these investors are trying to exploit.

In developing a financial plan for a Client, Fortitude Private Wealth's analysis may include cash flow analysis, investment planning, risk management, tax planning and estate planning. Based on the information gathered, a detailed strategy is tailored to the Client's specific situation.

The main sources of information include financial newspapers and magazines, annual reports, prospectuses, and filings with the Securities and Exchange Commission.

Investment Strategy

The investment strategy for a specific Client is based upon the objectives stated by the Client during consultations. The Client may change these objectives at any time by providing written notice to Fortitude Private Wealth. Each Client executes a Client profile form or similar form that documents their objectives and their desired investment strategy.

Other strategies may include long-term purchases, short-term purchases, trading, and option writing (including covered options, uncovered options or spreading strategies).

Security Specific Material Risks

All investment programs have certain risks that are borne by the investor. Our investment approach constantly keeps the risk of loss in mind. Investors face the following investment risks and should discuss these risks with Fortitude Private Wealth:

- *Market Risk:* The prices of securities held by mutual funds in which Clients invest may decline in response to certain events taking place around the world, including those directly involving the companies whose securities are owned by a fund; conditions affecting the general economy; overall market changes; local, regional or global political, social or economic instability; and currency, interest rate and commodity price fluctuations. Investors should have a long-term perspective and be able to tolerate potentially sharp declines in market value.
- *Interest-rate Risk:* Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on existing bonds become less attractive, causing their market values to decline.
- *Inflation Risk:* When any type of inflation is present, a dollar today will buy more than a dollar next year, because purchasing power is eroding at the rate of inflation.
- *Currency Risk:* Overseas investments are subject to fluctuations in the value of the dollar against the currency of the investment's originating country. This is also referred to as exchange rate risk.
- *Reinvestment Risk:* This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e. interest rate). This primarily relates to fixed income securities.

- *Liquidity Risk:* Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are interested in a standardized product. For example, Treasury Bills are highly liquid, while real estate properties are not.
- *Management Risk:* The advisor's investment approach may fail to produce the intended results. If the advisor's assumptions regarding the performance of a specific asset class or fund are not realized in the expected time frame, the overall performance of the Client's portfolio may suffer.
- *Equity Risk:* Equity securities tend to be more volatile than other investment choices. The value of an individual mutual fund or ETF can be more volatile than the market as a whole. This volatility affects the value of the Client's overall portfolio. Small and mid-cap companies are subject to additional risks. Smaller companies may experience greater volatility, higher failure rates, more limited markets, product lines, financial resources, and less management experience than larger companies. Smaller companies may also have a lower trading volume, which may disproportionately affect their market price, tending to make them fall more in response to selling pressure than is the case with larger companies.
- *Investment Companies Risk:* When a Client invests in open end mutual funds or ETFs, the Client indirectly bears their proportionate share of any fees and expenses payable directly by those funds. Therefore, the Client will incur higher expenses, which may be duplicative. In addition, the Client's overall portfolio may be affected by losses of an underlying fund and the level of risk arising from the investment practices of an underlying fund (such as the use of derivatives). ETFs are also subject to the following risks: (i) an ETF's shares may trade at a market price that is above or below their net asset value or (ii) trading of an ETF's shares may be halted if the listing exchange's officials deem such action appropriate, the shares are de-listed from the exchange, or the activation of market-wide "circuit breakers" (which are tied to large decreases in stock prices) halts stock trading generally. Adviser has no control over the risks taken by the underlying funds in which Client invests.
- *Long-term purchases:* Long-term investments are those vehicles purchased with the intension of being held for more than one year. Typically the expectation of the investment is to increase in value so that it can eventually be sold for a profit. In addition, there may be an expectation for the investment to provide income. One of the biggest risks associated with long-term investments is volatility, the fluctuations in the financial markets that can cause investments to lose value.
- *Short-term purchases:* Short-term investments are typically held for one year or less. Generally there is not a high expectation for a return or an increase in value. Typically, short-term investments are purchased for the relatively greater degree of principal protection they are designed to provide. Short-term investment vehicles may be subject to purchasing power risk — the risk that your investment's return will not keep up with inflation.

- *Trading risk:* Investing involves risk, including possible loss of principal. There is no assurance that the investment objective of any fund or investment will be achieved.
- *Private Equity/Placement Risk:* Because offerings are exempt from registration requirements, no regulator has reviewed the offerings to make sure the risks associated with the investment and all material facts about the entity raising money are adequately disclosed. Securities offered through private placements are generally illiquid, meaning there are limited opportunities to resell the security. Risk of the underlying investment may be significantly higher than publicly traded investments.

The specific risks associated with financial planning include:

- Risk of Loss
 - Client fails to follow the recommendations of Fortitude Private Wealth resulting in a loss.
 - Client has changes in financial status or lifestyle and therefore plan recommendations are no longer valid.

The personal trading reviews ensure that the personal trading of affiliated persons does not affect the markets and that Clients of the firm receive preferential treatment over associated persons' transactions.

Client Securities Recommendations or Trades and Concurrent Advisory Firm Securities Transactions and Conflicts of Interest

Fortitude Private Wealth does not maintain a firm proprietary trading account and does not have a material financial interest in any securities being recommended and therefore no conflicts of interest exist. However, affiliated persons may buy or sell securities at the same time they buy or sell securities for Clients. In order to mitigate conflicts of interest such as front running, affiliated persons are required to disclose all reportable securities transactions as well as provide Fortitude Private Wealth with copies of their brokerage statements.

The Chief Compliance Officer of Fortitude Private Wealth is Joshua D. Zorger. He reviews all employee trades each quarter. The personal trading reviews ensure that the personal trading of affiliated persons does not affect the markets and that Clients of the firm receive preferential treatment over associated persons' transactions.

Item 12: Brokerage Practices

Factors Used to Select Broker-Dealers for Client Transactions

Fortitude Private Wealth may recommend the use of a particular broker-dealer such as TD Ameritrade Institutional is a Division of TD Ameritrade, Inc., Member FINRA/SIPC ("TD Ameritrade"), an unaffiliated SEC-registered broker-dealer and FINRA member or may utilize a broker-dealer of the client's choosing. Fortitude Private Wealth will select appropriate brokers based on a number of factors including but not limited to their relatively low transaction fees and reporting ability. Fortitude Private Wealth relies on its broker to provide its execution services at the best prices available. Lower fees for comparable services may be available from other sources. Clients pay for any and all custodial fees in addition to the advisory fee charged by Fortitude Private Wealth.

Fortitude Private Wealth participates in the TD Ameritrade Institutional program. TD Ameritrade is an independent SEC-registered broker-dealer and is not affiliated with Fortitude Private Wealth. TD Ameritrade offers to independent investment Advisors services which include custody of securities, trade execution, clearance and settlement of transactions. Fortitude Private Wealth receives some benefits from TD Ameritrade through its participation in the program. (Please see the disclosure under Item 14)

- *Directed Brokerage*

Fortitude Private Wealth does not allow directed brokerage accounts.

- *Best Execution*
Investment advisors who manage or supervise Client portfolios have a fiduciary obligation of best execution. The determination of what may constitute best execution and price in the execution of a securities transaction by a broker involves a number of considerations and is subjective. Factors affecting brokerage selection include the overall direct net economic result to the portfolios, the efficiency with which the transaction is effected, the ability to effect the transaction where a large block is involved, the operational facilities of the broker-dealer, the value of an ongoing relationship with such broker and the financial strength and stability of the broker. The firm does not receive any portion of the trading fees.
- *Soft Dollar Arrangements*
Fortitude Private Wealth does not receive soft dollar benefits.

Aggregating Securities Transactions for Client Accounts

Fortitude Private Wealth is authorized in its discretion to aggregate purchases and sales and other transactions made for the account with purchases and sales and transactions in the same securities for other Clients of Fortitude Private Wealth. All Clients participating in the aggregated order shall receive an average share price with all other transaction costs shared on a pro-rated basis.

Item 13: Review of Accounts

Schedule for Periodic Review of Client Accounts or Financial Plans and Advisory Persons Involved

Account reviews are performed quarterly by the Chief Compliance Officer of Fortitude Private Wealth. Account reviews are performed more frequently when market conditions dictate. Financial Plans are considered complete when recommendations are delivered to the Client and a review is done only upon request of Client.

Review of Client Accounts on Non-Periodic Basis

Other conditions that may trigger a review of Clients' accounts are changes in the tax laws, new investment information, and changes in a Client's own situation.

Content of Client Provided Reports and Frequency

Clients receive written account statements no less than quarterly for managed accounts. Account statements are issued by Fortitude Private Wealth's custodian. Client receives confirmations of each transaction in account from Custodian and an additional statement during any month in which a transaction occurs.

Item 14: Client Referrals and Other Compensation

Economic Benefits Provided to the Advisory Firm from External Sources and Conflicts of Interest

As disclosed under Item 12 above, Fortitude Private Wealth participates in TD Ameritrade's institutional customer program and Fortitude Private Wealth may recommend TD Ameritrade to Clients for custody and brokerage services. There is no

direct link between Fortitude Private Wealth's participation in the program and the investment advice it gives to its Clients, although Fortitude Private Wealth receives economic benefits through its participation in the program that are typically not available to TD Ameritrade retail investors. These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate Client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving Fortitude Private Wealth participants; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to Client accounts); the ability to have advisory fees deducted directly from Client accounts; access to an electronic communications network for Client order entry and account information; access to mutual funds with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management products or services provided to Fortitude Private Wealth by third party vendors.

TD Ameritrade may also have paid for business consulting and professional services received by Fortitude Private Wealth's related persons. Some of the products and services made available by TD Ameritrade through the program may benefit Fortitude Private Wealth but may not benefit its Client accounts. These products or services may assist Fortitude Private Wealth in managing and administering Client accounts, including accounts not maintained at TD Ameritrade. Other services made available by TD Ameritrade are intended to help Fortitude Private Wealth manage and further develop its business enterprise. The benefits received by Fortitude Private Wealth or its personnel through participation in the program do not depend on the amount of brokerage transactions directed to TD Ameritrade. As part of its fiduciary duties to clients, Fortitude Private Wealth endeavors at all times to put the interests of its clients first. Clients should be aware, however, that the receipt of economic benefits by Fortitude Private Wealth or its related persons in and of itself creates a conflict of interest and may indirectly influence the Fortitude Private Wealth's choice of TD Ameritrade for custody and brokerage services.

Advisory Firm Payments for Client Referrals

Fortitude Private Wealth does not compensate for Client referrals.

Item 15: Custody**Account Statements**

All assets are held at qualified custodians, which means the custodians provide account statements directly to Clients at their address of record at least quarterly. Clients are urged to compare the account statements received directly from their custodians to any documentation or reports prepared by Fortitude Private Wealth.

Fortitude Private Wealth is deemed to have constructive custody solely because advisory fees are directly deducted from Client's accounts by the custodian on behalf of Fortitude Private Wealth.

Item 16: Investment Discretion

Discretionary Authority for Trading

Fortitude Private Wealth may require discretionary authority to manage securities accounts on behalf of Clients. Fortitude Private Wealth has the authority to determine, without obtaining specific Client consent, the securities to be bought or sold, and the amount of the securities to be bought or sold. If applicable, Client will authorize Fortitude Private Wealth discretionary authority to execute selected investment program transactions as stated within the Investment Advisory Agreement.

Fortitude Private Wealth allows Client's to place certain restrictions, as outlined in the Client's Investment Policy Statement or similar document. Such restrictions could include only allowing purchases of socially conscious investments. These restrictions must be provided to Fortitude Private Wealth in writing.

The Client approves the custodian to be used and the commission rates paid to the custodian. Fortitude Private Wealth does not receive any portion of the transaction fees or commissions paid by the Client to the custodian.

Item 17: Voting Client Securities

Proxy Votes

Fortitude Private Wealth does not vote proxies on securities. Clients are expected to vote their own proxies. The Client will receive their proxies directly from the custodian of their account or from a transfer agent.

When assistance on voting proxies is requested, Fortitude Private Wealth will provide recommendations to the Client. If a conflict of interest exists, it will be disclosed to the Client.

Item 18: Financial Information

Balance Sheet

A balance sheet is not required to be provided because Fortitude Private Wealth does not serve as a custodian for Client funds or securities and Fortitude Private Wealth does not require prepayment of fees of more than \$500 per Client and six months or more in advance.

Professional Certifications

Employees have earned certifications and credentials that are required to be explained in further detail.

The CERTIFIED FINANCIAL PLANNER™, CFP® and federally registered CFP (with flame design) marks (collectively, the “CFP® marks”) are professional certification marks granted in the United States by Certified Financial Planner Board of Standards, Inc. (“CFP Board”).

The CFP® certification is a voluntary certification; no federal or state law or regulation requires financial planners to hold CFP® certification. It is recognized in the United States and a number of other countries for its (1) high standard of professional education; (2) stringent code of conduct and standards of practice; and (3) ethical requirements that govern professional engagements with clients.

To attain the right to use the CFP® marks, an individual must satisfactorily fulfill the following requirements:

- Education – Complete an advanced college-level course of study addressing the financial planning subject areas that CFP Board’s studies have determined as necessary for the competent and professional delivery of financial planning services, and attain a Bachelor’s Degree from a regionally accredited United States college or university (or its equivalent from a foreign university). CFP Board’s financial planning subject areas include insurance planning and risk management, employee benefits planning, investment planning, income tax planning, retirement planning, and estate planning;

- Examination – Pass the comprehensive CFP® Certification Examination. The examination, administered in 10 hours over a two-day period, includes case studies and client scenarios designed to test one’s ability to correctly diagnose financial planning issues and apply one’s knowledge of financial planning to real world circumstances;
- Experience – Complete at least three years of full-time financial planning-related experience (or the equivalent, measured as 2,000 hours per year); and
- Ethics – Agree to be bound by CFP Board’s *Standards of Professional Conduct*, a set of documents outlining the ethical and practice standards for CFP® professionals.

Individuals who become certified must complete the following ongoing education and ethics requirements in order to maintain the right to continue to use the CFP® marks:

- Continuing Education – Complete 30 hours of continuing education hours every two years, including two hours on the *Code of Ethics* and other parts of the *Standards of Professional Conduct*, to maintain competence and keep up with developments in the financial planning field; and
- Ethics – Renew an agreement to be bound by the *Standards of Professional Conduct*. The *Standards* prominently require that CFP® professionals provide financial planning services at a fiduciary standard of care. This means CFP® professionals must provide financial planning services in the best interests of their clients.

CFP® professionals who fail to comply with the above standards and requirements may be subject to CFP Board’s enforcement process, which could result in suspension or permanent revocation of their CFP® certification.
