

1 **RESOLUTION #23-07**

2 **ENTITLED:** Discharge Information

3 **SUBMITTED BY:** Dick Huber, MD

4

5 WHEREAS, Hoosiers are often discharged from in-patient medical facilities and they and/or their
6 families are given very little information, such as diagnoses, procedures/surgeries, names of
7 physicians providing care, medications, diets, follow-up instructions, etc., and

8

9 WHEREAS, such information should result in more informed patients and a greater chance of following
10 discharge directions, therefore be it

11

12 RESOLVED, that Indiana Academy of Family Physicians (IAFP) initiate and collaborate with other
13 organizations, associations and agencies to provide a standard model to provide basic printed
14 information on care provided and follow-up directions for in-patients upon discharge or soon thereafter.
