REFERRAL REPORTS

Do you ever wonder how many people found your company through Aspire's website? You can find out through referral reports. This allows you to see a breakdown of how often your listing is viewed and through which method. There is value in being listed on the Aspire's website!

You can view this report on our website through the "member" tab. Log in and click referral reports on the right hand side.

This report is exciting because you have the option to remove referrals generated by bots. Bots are used by search engines to scan the web for indexing purposes. To remove the bots simply uncheck the box. Now you can see how many actual clicks your company or organization is receiving by website users.

The report can also be viewed in two different ways: by total referrals per month or by referral type. The report automatically defaults to only the current date; however this can be changed by clicking the date and manually changing the time frame.

Referral reports are handy and give value to your Aspire membership. It is fast and easy. In review, here are the quick steps:

1

Login to the Aspire website using your member login credentials (If you do not have credentials, please call the office)

2

Find the referral report

3

Uncheck "search engine indexing"

4

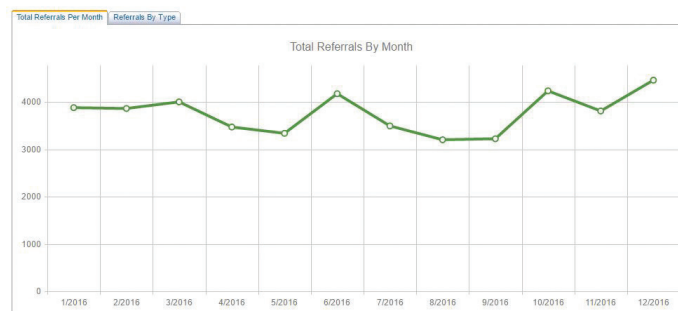

Change the date, and your results are available instantly

ADVOCACY

We believe that Aspire's engagement in legislative issues echoes our investors' collective voice and demonstrates strong leadership. Below you will find our top four **legislative session policy priorities**.

2020 LEGISLATIVE SESSION POLICY PRIORITIES

Opioids:

Employee opioid use is one of the top issues facing employers in Indiana today. Aspire supports increased funding for cessation and wrap-around services for opioid users in the workplace. By providing funding for outreach, education, cessation, and wrap-around services for individuals and families, the State can help achieve a stronger and healthier workforce.

Regional Collaboration:

Aspire supports regional collaboration to allow for regions to work together to improve economic development, attract and retain a strong workforce, and incentivize quality-of-place projects. A rising tide raises all ships - and there is only so much money to go around. It is imperative that local chambers, economic development corporations, schools, hospitals, utilities, and local governments work together collaboratively to develop projects that help their communities as a whole, while minimizing waste and duplication.

Tobacco:

Health care costs are significant for Indiana businesses, causes health issues, and can affect productivity. Therefore, Aspire supports an increase in the age required to purchase tobacco from 18 to 21 and supports an increase in the tax on tobacco and tobacco-related products, such as e-cigarettes. Increasing the age to purchase and taxing such products will help curb the urge to start and continue the habit.

Workforce Incentives:

Workforce Development is one of the top priorities for employers across our state - it is imperative that we have a talent pipeline to fill jobs as well as retain highly-qualified skilled workers already in the force. Aspire supports diverse and creative policies to incentivize employers and employees to help ease the workforce crisis in Indiana. Aspire supports policies that can include, but are not limited to tax credits, licensure reciprocity, investment in trainings, work-based learning opportunities, transportation incentives, attainable housing initiatives, etc.

For any additional questions or how to contact your state legislator please visit the Advocacy page on our website at aspirejohnsoncounty.com/advocacy.
