WELCOME TO ASPIRE: BATTLE TESTED AND READY TO GROW OUR LOCAL ECONOMY

Aspire was formed to create a stronger, more strategically aligned engine to drive economic growth and business success in Johnson County and southern Indy.

2020 tested Aspire's mission and purpose, right out of the gate. Before we could complete our merger integration, we shifted all efforts to respond to the pandemic.

Our first response phase involved responding to business questions about employment law and the fast-moving federal and state government legislation. We also brokered PPE from companies to hospitals and launched a free online job board for companies and candidates. Our second response phase focused on sustaining the velocity of cash in the economy; buy local campaigns, B2B and B2C marketing, and best practice sharing. Our third phase revolved around how businesses could open. We connected business owners to resources, and we advocated for business to our state and federal delegations.

Our unified team - experienced in entrepreneurialism, small business, economic and community development - collaborated to build on ideas and execute services. And, in spite of it all, Aspire also successfully competed with 8 other states to win the new Milwaukee Tool Service Center, bringing 450 jobs at desirable wages.

Battle tested right out of the gate and running strong, Aspire demonstrated in 2020 that modern, comprehensive economic development is resilient and the right path towards greatness. Now armed with a brand new five-year economic strategic plan, we are poised for strong leadership in 2021.

With our comprehensive resources and support, Aspire can give member investors, community partners - and all companies looking for a welcoming community in which to start or expand - a chance to succeed. And YOUR investment in Aspire makes this success possible.

ASPIRE: TO GROW. TO ACHIEVE. TO SUCCEED.

ADVOCACY

We believe that Aspire's engagement in legislative issues echoes our investors' collective voice and demonstrates strong leadership. Below you will find our four **legislative session policy priorities**.

WHY PUBLIC POLICY MATTERS TO BUSINESS

A healthy business environment is essential to growing the economy, creating jobs, and improving our quality of life. Decisions made by elected officials have a direct impact on business. Legislative and executive branches at all levels of government regularly consider legislation regulating infrastructure, permitting, taxes, trade, and construction.

Aspire's role is to advocate for business interest. We do this by convening forums with business leaders and elected officials, as well as lobbying directly for specific bills and issues. Our Business Advocacy Council (BAC) monitors and researches issues and recommends policy positions. Aspire's board of directors reviews and adopts our final policy positions.

2021 STATEHOUSE LEGISLATIVE PRIORITIES

Running a business is more challenging than ever, so it is critical Indiana offer the right tools and environment for business owners to grow and retain jobs. Aspire's 2021 priorities each directly relate to business operations: retaining talent, confidently running operations and lowering costs. These are the priority public policies and the rationale behind them:

Broadband - Aspire supports policies and increased funding opportunities to expand broadband in our community and throughout our state. *Why?* There are significant areas in Johnson and adjacent counties that lack acceptable coverage. Our homes are now our businesses, schools, doctor's offices and places of entertainment. It is important everyone has access to broadband to help our businesses grow and our communities thrive.

Employer Liability Protections - Aspire supports efforts to protect employers who have complied with local, state, and federal recommendations and regulations during the COVID-19 pandemic from frivolous lawsuits. *Why?* Businesses need assurance they can reopen and remain open without fear of unsubstantiated liability. Legislation that is targeted, temporary and timely will allow for such protections. The legislation would be focused solely on the COVID-19 pandemic and would be temporary, retroactive from the day the state of emergency was declared and in effect only for a short period of time.

Tobacco Cessation - Aspire supports an increase in the tax on tobacco and tobacco-related products, such as e-cigarettes. *Why?* Healthcare costs are significant for Indiana businesses. Tobacco use is proven to cause health issues, as emphasized by the COVID-19 pandemic, and can affect productivity. Aspire's preference would be that these funds be targeted to healthcare or smoking cessation programs.

Work Share - Aspire supports creative alternative solutions to traditional unemployment, such as a Work Share program. *Why?* Talent attraction, development and retention are top challenges for employers across our state under any circumstance. A Work Share program would allow employers to reduce employee hours in lieu of complete separation. This would enable affected workers to continue working, receive some level of W2 wages, maintain access to company-sponsored benefits, and receive partial public unemployment benefits. This type of program benefits employers because they can retain talent in tough times, employees because they can retain a job and benefits, and the economy because it preserves economic output and requires less public expenditure.
