**Evan Bedel of Bedel Financial Consulting, Inc.  
earns Five Star Wealth Manager Award**

Evan Bedel, CFP<sup>®</sup>, of Bedel Financial Consulting, Inc. will be featured in a special section of the October issue of Indianapolis Monthly as a [2015 Five Star Wealth Manager](#) award winner. This is the second consecutive year Bedel has been nominated and selected for the Five Star Wealth Manager Award due to his service, experience and expertise. Evan Bedel's Five Star award profile can be viewed [here](#).

“It’s an honor to be recognized by Five Star as a top wealth advisor for the second year in a row. We have a great team at Bedel Financial that allows me to focus all of my attention on providing the highest level of service and customized financial guidance for my clients. I would not be able to achieve success and recognition without a great support team. I am very fortunate to work at a firm that allows me to decide which clients best fit me, versus the other way around. This allows me to work with people I truly enjoy. All of my clients are people I want to establish a trusting relationship with for the next 30-plus years. I want to thank my clients for sharing their experiences with friends and family, which has allowed me to grow my GenerationNeXt™ department,” says Evan Bedel of Bedel Financial Consulting, Inc.

“Bedel Financial Consulting, Inc. is a fee-only, commission-free wealth management firm, dedicated to helping clients achieve financial security. The firm was recently recognized by WealthManagement.com as one of the [top 25 Women-Owned Registered Investment Advisors \(RIAs\)](#) in the country. I specifically provide financial guidance for

young professionals and future wealth accumulators between the ages of 20 and 40. It is my passion to help these individuals and families establish a solid financial foundation for their future. In 2009, I created a department called GenerationNeXt™ to focus on these accumulators to help guide them toward an affluent path,” Evan explains.

The 2015 Five Star Wealth Manager award winners have been carefully selected for their commitment to providing quality services to their clients. The award is based on an in--depth research process incorporating peer and firm feedback with objective criteria such as client retention rates, client assets administered, industry experience and regulatory and complaint history.
