

Who We Are & What We Do

SpecialCare™

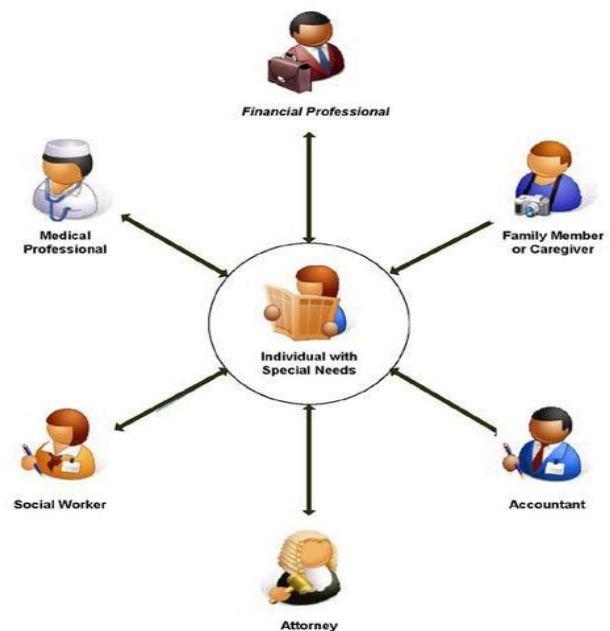

Our Mission

To help make a positive difference in the lives of individuals with special needs, their caregivers and other family members. Our knowledgeable and dedicated SpecialCare Planners assist families with developing valuable financial strategies and creating strategic financial solutions that integrate with Government programs.

What is SpecialCare?

- A program that offers information, specialists and financial solutions to people with disabilities and other special needs and their families.
- Provides access to a compilation of information – from what you need to know to provide the best care to your loved ones and how to manage the needs of yourself and other family members.
- For parents of a loved one with special needs there is a poignant realization that there may come a time through sickness, disability or death, when you will not be able to provide care for them.
- This planning process involves a broad range of decisions and plans designed to secure the future.
