Noblesville, IN 46062

To Whom It May Concern:

Our firsthand experience in working with Pauly Jail Building Company was nothing but outstanding. Pauly Jail was the detention equipment contractor for the new Kenton County Detention Center which was completed in 2010. The facility was constructed as a single story, 610-bed jail for the Kenton County Fiscal Court. The 160,000 square foot facility is twice the size of the original jail, with room for a 300-bed expansion.

Because of the expertise and knowledge of the Pauly Jail team, we had no issues in the detention products or installation. They had well coordinated, on-time deliveries of product and carried out specific requests quickly and cost effectively. We established a great working relationship with the project management team from the first coordination meeting. In addition, the on-site jail superintendents were professional and knowledgeable in all areas of their scope of work.

It would be a pleasure to work with the Pauly Jail team on future correctional projects and would recommend their work to anyone. Please do not hesitate to contact me at any time at

Best regards,

Eric M. Chambers, AIA, CPO, CDT, LEED Green Associate
