

**Anderson Public Library  
Public Services Policy  
Masks During a Pandemic**

To promote the safety of community members and our team members, APL requires all customers above the age of two (2) to wear masks while in the library during a pandemic or health crisis per CDC guidelines.

The Library will honor current ADA guidelines and make reasonable modifications to allow people with disabilities that are unable to wear a mask to access library services and resources. Accommodations may include and are not restricted to drive-up window pickup, remote printing, outdoor Wi-Fi, telephone reference, and materials selection.

For proper protection, masks must be worn to cover the nose and mouth at all times and masks made of fabrics such as mesh, crochet (yarn) or lace are not considered an acceptable facial covering.
